PROFESSIONAL EXPERIENCE

Briggs Healthcare Waukegan, Illinois

2011-Present

Privately held global medical device company serving consumer retail, ecommerce, point of care, and distributor markets. Customers include Wal-mart, Target, Walgreens, CVS, Cardinal, McKesson, Meijer, QVC, Kroger, Lowes, Amazon. Product lines include Mabis, DuroMed, Brazos, Switch Sticks, Heelbo, Heelboot, Plastibell, Cord Clamp (former Hollister lines), and HealthSmart

CHIEF OPERATING OFFICER HEALTHSMART (2015 – Present), Executive Vice President (2012 – Present)

Promoted to corporate officer accountable to turnaround largest division P&L within negative operating culture that had been declining in sales and profitability for five consecutive years. Charged to turn HealthSmart profitable, implement sustainable revenue growth plans and grow margin dollars significantly over the next five years.

- Grew EBITDA FY'16 over FY'15 by 100%, and FY'15 over FY'14 by 27% through high margin product launches and eliminating low margin sales. Raised prices across channels in a highly commoditized and competitive playing field. Responsible for all facets of new brand development and launch including organic NPD, R&D and acquisitions / integrations.
- Through the rebuilding of sales and marketing teams, grew strategic business segments more than 30%+ for three consecutive years while concurrently shedding low margin commodity businesses.
- Implemented sales pipeline planning processes and customer targeting methods driving an increase in new business by 40% after year one. Drove an increase in sales of \$3 million for FY 2012, \$8 million for FY '13 – '15.
- Leveraged a significant increase of gross margin through strategic price increases and emphasis on higher margin products while carefully implementing strategic vendor consolidation and COGS optimization tactics.
- Created five year comprehensive business strategy and long range sales plan encompassing new product development, new market entry and expansion, product rationalization and exit of low margin products and customers, brought clarity and focus to disparate commodity approach and drove the transition to high margin, highly differentiated environment. Recognized by Board of Directors for “First comprehensive plan ever”.
- Created firm-wide cultural transformation process to inspire achievement of results. Critical operating measures improved such as On-time shipping by 9%, backorders by 12%, customer satisfaction by 15%. Employee engagement survey improved by 20% in one year.
- Shifted marketing organizational focus from a tactical broad distributor focus, to one of specialized customer brand intimacy by developing a core brand promise including identity, which connects technology to life needs, consumer brand strategy, ecommerce presence, and promotional / social connection while shifting to OEM approach to ensure differentiation and competitive advantage of product features and services.

VICE PRESIDENT, SUPPLY CHAIN (2011-2012)

Hired to turnaround low performing supply chain consisting of 5,800 skus, 6 DCs, and 17 employees. Inherited 12% backorder value, 87% fill rate, 0% forecast accuracy, 40% of inventory on QC hold or excess no move, 2 turns per year.

- Within 120 days of assuming role, developed three-year improvement plan spanning organizational effectiveness, sourcing, purchasing, and planning processes, improved free cash flow use, supply chain redesign and strategic improvement initiative prioritization including: Make vs. Buy, bonded offshore warehousing, packaging reduction, VMI, 3PL utilization, supplier consolidation, PO optimization, ocean consolidation
- Drove design and implementation of S&OP process across the enterprise. Designed all facets of process, metrics, change management and integration into the selling process. Key metrics improved as a result: Forecast accuracy from 0% to 70% at a 60 day lag for sku level planning. Reduction of obsolete inventory from 23% to 12%, Reduction in backorders from 12% of sales, to less than 1%. Improved inventory turns by 20%.
- Eliminated 1,125 non-performing SKU's which freed up 30% of warehouse capacity.
- Reduced far-east supplier lead times by 25% by implementing CPFR, service level agreements and scorecards.
