REGULAR AGENDA

HEALTH AND COMMUNITY SERVICES COMMITTEE

32 26-0436

Board of Health Report.

April 6-12, 2026, is National Public Health Week. This year's theme is Ready Set Action and it explores the actions we all can take to achieve good health. National Public Health Week is celebrated annually during the first full week of April to recognize the contributions of public health and highlight issues that are important to improving our nation's health. Visit the Health Department's social media pages to learn more about National Public Health Week.

April 20-27, 2026, is National Infant Immunization Week (NIIW), an annual observance to highlight the importance of infant immunization and encourage following the recommended childhood immunization schedule. The number of measles cases in the United States has risen dramatically over the past 2 years from 285 in 2024 to 2,285 in

2025, and we're on pace for over 6,000 in 2026. Vaccines are among the most successful and cost-effective public health tools available for preventing disease and death. The American Academy of Pediatrics provides a recommended childhood immunization schedule from birth to 6 years old, available on their website. Contact your child's Primary Care Provider to schedule an appointment for your infant or to check their immunization status. An appointment for infant immunizations can be scheduled by calling the Health Department's Patient Access Center at (847) 377-8800 if the infant is a client at the Health Department.

33 26-0301
