We respectfully request permission for a plat amendment to 26496 Bittersweet Trail for the primary purpose of building an in-ground pool in our backyard.

Please note, that no natural resources, such as trees or wetlands, would be impacted by the suggested plat amendment.

The requested plat amendment also provides for an equal exchange of "buildable space" for "deed restricted open space". The new restricted open space would connect to the existing deed restricted open space in the front yard, resulting in a good balance in the lot layout.

Sincerely,

A handwritten signature in cursive script that reads "Tina O'Malley". The signature is written in black ink and is positioned to the right of the printed name.
