- Fox Lake held a ribbon cutting ceremony to celebrate the opening of the new Lakefront Park in late May. However, portions of the park and beach remain unopened due to adjusted site plans, permitting, and water right-of-way issues.
- The Health Department provides the operational license for the beach after the state has finished its processing. It also oversees the bathhouse and showers and will conduct sampling once every two weeks from Memorial Day to Labor Day, along with a beach inspection during the summer.
- Health Department Marketing and Communications Manager Emily Young said, "The county health department has recently assisted IDPH, with the initial sanitary survey for the prospective beach. (We) are responsible for their operational license, after IDPH reviews and approves the construction permit application. Finalization is post-construction."
