Employment

Lake County Zoning Board of Appeals

Member 2004 to present

Hear appeals and make recommendations to the County Board on requests for rezoning, conditional use permits and changes to the text of the UDO. Participate in public hearings and decisions on requests for zoning variations.

Laboratory Supervisor

Lake County Public Works 1982-1990

Secured Illinois Health Department Certification of the laboratory to perform analysis on drinking water through training of personnel and total remodeling of the laboratory facilities. Responsible for analyses and reporting of chemical and bacteriological analyses for NPDES permits for the County's Sewerage treatment plants.

Assistant Chemist

Hazleton Environment Sciences 1979-1982

Responsible for bacteriological analysis of drinking water, conducted inorganic chemical analyses, nuclear chemical analysis, data tabulation and report preparation.

Assistant Biologist

Hazleton Environment Sciences 1976-1979

Participated in several environmental impact assessments for industrial utility and government clients. Responsible for field collection and laboratory analysis of biological and chemical parameters.

Laboratory Technician

Hazleton Environmental Sciences 1974-1976

Assisted in field, laboratory and data analysis on several environmental impact projects and received extensive training in analytical chemistry, nuclear sciences, aquatic ecology, data processing and quality assurance.
