RE: Dissolution of the Slocum Lake Drainage District

Dear Village Officials:

Please be advised I have been appointed the Trustee-in-Dissolution to oversee the final steps to transfer all assets of the Slocum Lake Drainage District. I have prepared the attached Report as part of my duties to the Court.

I have recommended all remaining funds of the District be transferred to the Lake County Stormwater Management Commission (LCSMC) for purposes of coordinating future maintenance of the infrastructure previously constructed by the District.

The report also includes a proposed recommendation at Section V, paragraph 5, as follows:

*(5) The Lake County Stormwater Management Commission shall reimburse approved reimbursement requests from transferred District funds for a period up to one year pursuant to the terms of the Dissolution Plan.*

Under this proposed recommendation, municipalities may submit paid receipts for approved stormwater project performed within the former drainage district's boundaries within one year of the Order for Dissolution in amounts not to exceed the allocation established for each municipality in the "Authorizing Ordinance".

This matter will next appear in Court on June 3, 2025. Should you have any questions regarding the attached report, please feel free to contact the undersigned prior to the upcoming court date.

Yours truly,

FUQUA WINTER LTD.
