HEALTH AND COMMUNITY SERVICES COMMITTEE

35 [25-1607](#)

Board of Health Report.

World AIDS Day falls on December 1 every year and is an important time to reflect on and celebrate the global progress in the HIV/AIDS journey while also recognizing the challenges that remain and honoring the lives lost. The Health Department's theme for World AIDS Day 2025— "Without Borders, Without Stigma: Giving Flowers in Life"—focuses on the right of all people to dignity and respect in healthcare, specifically HIV treatment free of judgment or barriers. The Health Department hosted its annual World AIDS Day Event on December 6th for Lake County clients, staff and community members. The Lake County Health Department works closely with the HIV community as a Ryan White patient-centered health home and provides HIV counseling, testing, and care. For

more information, call (847) 377-8450 or visit lakecountyil.gov/need2know.

With the holidays here, more people are spending time with friends and family, but it also brings opportunities for spreading flu and other respiratory illnesses. Respiratory diseases spread more readily in the winter months, when disease activity increases and people spend more time indoors and in close contact. National Influenza Vaccination Week is December 1-5 and serves as a reminder for everyone 6 months and older that there's still time to get a flu vaccine this season. Flu viruses constantly change, which is why it is important to get a flu shot every year. Seasonal flu, COVID-19, and RSV are all caused by different viruses, so it is important to talk to your provider and stay up to date on all vaccines. Talk to your healthcare provider or visit a local pharmacy to find a flu shot near you.
