Dear Chairman Lawlor,

I am sending you my recommendation to replace Anthony Biotti on the East Skokie Drainage District. I am recommending William (Bill) Bogot who has been an exceptional Chairman of our Environmental Commission (now the Natural Resource Commission). Bill has shown great passion and expertise in dealing with storm water issues and I know he will be a great asset to this districts mission.

Thank you for your consideration on William Bogots appointment.

Sincerely,
Steve Mandel, Lake County Board District 11

Dear Steve:

Thank you for considering me for an appointment to the East Skokie Drainage District. I have enclosed my résumé for your review. As you know, during my tenure as Chairman of of both the Highland Park Natural Resources Commission and the Environmental Commission, I have been actively working with residents to better manage and control storm water and erosion. For example, we have been promoting rain gardens, rain barrels, and permeable pavement. In addition, as a member if the Park District's Parks Advisory Committee, I have been working on solutions to deal with storm water in the Park District's athletic fields and golf courses.

Storm water management is a crucial issue in our community. I would welcome the appointment to the East Skokie Drainage District. As always, I appreciate the opportunity to serve my community.

Sincerely,

William Bogot
