

## **ENVIRONMENTALLY PREFERRED CERTIFICATION FORM**

The County of Lake has a responsibility to balance fiscal, environmental and social considerations into its operational decision-making process. The County's commitment to green and sustainable practices and good environmental stewardship was memorialized by the Lake County Board in the County's 2023 Strategic Plan where sustainability is listed as a value and a goal. This was further strengthened in September 2020 by adopting a Net Zero Emissions goal through Joint Resolution. Therefore, we shall promote environmentally preferable purchasing, whenever practical, by procuring goods or services that lessen the destructive effects on the environment and the health and well-being of all citizens.

This form is an opportunity for qualified vendors to identify all the sustainability standards, ecolabels, and certification requirements **which apply to the products and services being procured**.

Please visit the Lake County website to review the Environmentally Preferred Purchasing Policy (insert link).

Please select any environmentally preferred certifications held by your company from the drop-down menus in each category.
