

INTERGOVERNMENTAL AGREEMENT
between the
LAKE COUNTY
STORMWATER MANAGEMENT COMMISSION
and the
VILLAGE OF RIVERWOODS
and the
VILLAGE OF LINCOLNSHIRE
for Streamflow Gauge on the Des Plaines River
at Route 22 near Lincolnshire, IL

THIS IS AN AGREEMENT, by and between The LAKE COUNTY STORMWATER MANAGEMENT COMMISSION, 500 W. Winchester Rd., Libertyville, Illinois 60048 (hereinafter called SMC), the VILLAGE OF RIVERWOODS, 300 Portwine Road, Riverwoods, IL 60015 (hereinafter called RIVERWOODS), and the VILLAGE OF LINCOLNSHIRE, One Olde Half Day Road Lincolnshire, IL 60069 (hereinafter called LINCOLNSHIRE).

PROGRAM DESCRIPTION

This agreement is a continuation of a 2009 local cooperative funding arrangement between SMC, RIVERWOODS, and LINCOLNSHIRE. The program includes the ongoing operation and maintenance of a streamflow gauge on the Des Plaines River at Route 22 near Lincolnshire, Illinois. The approximate location of the gauge is shown in Attachment 1. This work is hereinafter called the PROGRAM.

SCOPE OF WORK

USGS and SMC have proposed a continuation of the Joint Funding Agreement for the PROGRAM as described in Attachments 2 and 3. RIVERWOODS and LINCOLNSHIRE, as part of this agreement, shall contribute funds towards the operation and maintenance of the gauge with SMC.

SCHEDULE

The PROGRAM is effective immediately upon signature of this agreement.

COMPENSATION

1. The total PROGRAM cost is approximately \$46,500 for a three-year period. The total RIVERWOODS and LINCOLNSHIRE contribution is \$15,500 each. The contributions per year are detailed in Attachment 2.
2. USGS will issue billings to SMC quarterly. SMC will issue billings to RIVERWOODS and LINCOLNSHIRE annually. SMC will send annual invoices to RIVERWOODS and LINCOLNSHIRE no later than August 1st. Payments are due to SMC from RIVERWOODS and LINCOLNSHIRE within 30 days after the billing date.

TERMS AND CONDITIONS

1. The terms of this Agreement are valid until September 30, 2026.
2. All adjustments, additions, modifications, and/or deletions to this Agreement are subject to the written approval of all parties.
3. The performance period may be changed by mutual agreement and set forth in an exchange of letters between the parties.
4. This Agreement shall be governed by and construed according to the laws of the State of Illinois.
5. This Agreement supersedes any and all other Agreements, oral or written, between the parties hereto with respect to the subject matter hereof.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed, as evidenced by the signatures of their duly authorized representative as affixed below.

**LAKE COUNTY STORMWATER
MANAGEMENT COMMISSION:**

Kurt A. Woolford, Executive Director

Date: _____

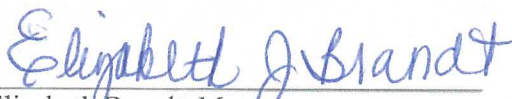

VILLAGE OF RIVERWOODS:

Kristine Ford, Mayor

Attachment 2:

Operation and Maintenance of Gage	Total	USGS Funds	Lake County SMC Funds	Village of Lincolnshire Funds	Village of Riverwoods Funds
2024	\$15,500	\$0	\$5,166.66	\$5,166.67	\$5,166.67
2025	\$15,500	\$0	\$5,166.66	\$5,166.67	\$5,166.67
2026	\$15,500	\$0	\$5,166.68	\$5,166.66	\$5,166.66
Total	\$46,500	\$0	\$15,500	\$15,500	\$15,500

Attachment 3

U.S. Geological Survey Cooperative Program Proposal

DESCRIPTION OF STREAMGAGE-LINKED FLOOD INUNDATION MAPS FOR INTERNET:

Des Plaines River at Lincolnshire 05528100

BACKGROUND

The USGS Illinois Water Science Center, in cooperation with the Lake County Stormwater Management Commission (SMC) and the Villages of Lincolnshire and Riverwoods, installed a streamflow-gaging station on the Des Plaines River at Lincolnshire (USGS 05528100), developed a stage-discharge relation for use by the National Weather Service (NWS) in adding a forecast point to the Advanced Hydrologic Prediction Service (AHPS--
<http://water.weather.gov/ahps2/hydrograph.php?wfo=lot&gage=ldri2>) and developed a streamgage-linked flood inundation map Web site (<http://il.water.usgs.gov/ifhp/lake/>).

The streamgage and associated real-time Web site will be operated and maintained for the duration of this agreement.

An important part of the USGS mission is to provide scientific information to minimize the loss of life and property from natural disasters. To effectively accomplish this mission, the USGS provides reliable, impartial, and timely data and interpretive information for understanding and preventing disasters from flood hazards.
