

STORMWATER MANAGEMENT COMMISSION

MEMORANDUM

To: Planning, Building and Zoning Committee
County Board

From: Mike Warner, Executive Director

Subject: SMC (6) Representation Districts

Date: February 8, 2012

ACTION REQUESTED: Ordinance Adoption

The SMC statutory legislation requires the twelve-member Stormwater Management Commission to be made up of six (6) County Board Members and six (6) Mayors, one from each of our ordinance established Districts. The Districts are to be of approximately equal population and therefore need to be redrawn when census or County Board district boundaries change. The Commission has approved new District maps that need to be subsequently approved by ordinance by the County Board.

The SMC Approved boundary map uses the following base map sources as closely as possible:

- 2010 census population data
- New 21 County Board District maps effective starting on (12/3/2012)
- Most recent Municipal boundary map
- Watershed divides of the four main watershed boundaries (Fox, Des Plaines, North Branch, and Lake Michigan)
