Delany Road Widening
(Sunset Avenue to Wadsworth Road)
LCDOT Change Order No. 5

TO: Public Works and Transportation Committee

Financial Administrative Committee

FROM: Martin G. Buehler, P.E.

County Engineer

Committee Action Meeting Date

DATE: April 6, 2011 DATE: April 6, 2011

SUBJECT: Change Order No.5 Section No. 00-00093-15-WR

Joint Committee action item approving Change Order No. 5 consisting of an increase of \$39,466.62 for additions to the Delany Road Widening (Sunset Avenue to Wadsworth Road), Engineering Services, designated as Section No.00-00093-15-WR.

- Delany Road Widening (Sunset Avenue to Wadsworth Road), Engineering Services: LCDOT Change Order No 5.
- Change Orders need to be approved by the standing committees for cumulative net increases over 10%.
- The Delany Road Widening, project is under contract with Engineering Christopher B. Burke Engineering, in the amount of \$883,373.49.
- Additional engineering services are being requested for revisions to Plat of Highway and Legal Descriptions, adding curb/gutter/storm sewer to Wadsworth Rd. west of Delany, deleting the Joseph Drive proposed right turn lane, creating sediment/erosion control plans per stage, and additional agency coordination.

Summary:

Original awarded contract: \$644,693.72

Change Order No.5: \$ 39,466.62

Sum of all changes: \$278,146.39

Attention:

Richard McMorris, PE

Subject:

Delany Road (W27) Improvement: Sunset Ave to Wadsworth Rd

Section No. 00-00093-15-WR

Additional Phase II Engineering Services

Dear Mr. McMorris:

Per Lake County Division of Transportation's (County) request, Christopher B. Burke Engineering, Ltd. (CBBEL) is submitting this proposal to amend the scope of the January 11, 2005 approved engineering services (original contract) for Delany Road project between Sunset Avenue and Wadsworth Road.

UNDERSTANDING OF THE ASSIGNMENT

The services to be added to the project scope are Plat of Highway/Legal revisions, adding curb/gutter/storm sewer to Wadsworth Rd west of Delany, deleting the Joseph Drive proposed right turn lane, creating sediment/erosion control plans per stage, and Agency Coordination as described below.

SECTION I - SCOPE OF BASIC SERVICES

The Scope of Services has been broken down into the following tasks.

Task 1 - Land Acquisition Updates:

County requested that the following revisions be made to the June 30, 2010 Sealed Plat of Highways.

- Delete Parcel 11 and Parcel 58TE.
- Revise Parcel 61 from PE to fee simple Pr ROW.
- Revise 51TE, and 50TE to have temporary easements approx 40' wide at driveways only.

These updates will be carried through the Plat of Highways, Legal Descriptions and Plans.

Task 2 - Geometric Revisions:

Resulting from Task 1, the County requested that the following revisions be made.

- Revising the western 700 feet of Wadsworth Road from an open drainage system to a closed system on the north side of the roadway. Concrete curb and gutter will be installed with a swale and inlet system feeding into a trunk storm sewer system under the proposed roadway pavement.
- Revising the Joseph Drive intersection by eliminating the proposed right turn lane and adjusting the storm sewer system as needed.
- Revise Blanchard Road Plans to show City of Waukegan constructing the majority of the Blanchard Road improvement. Update Cost Estimate to show City's increased funding participation.

These updates will be carried through the Plans (revised sheets: proposed, drainage, pavement marking, sed/eros control, and cross sections) and Cost Estimate.

Task 3 - Sediment and Erosion Control Updates:

To better aid the Resident Engineer and accommodate LCSMC general requests, the sediment and erosion control plans will be enhanced. Resulting from this, the County requested that the following revisions be made.

- Provide plan sheets that correspond to construction Pre-Stage, Stage 1 and Stage 2.
- Remove temporary soil and erosion control measures from the Landscape sheets.
- Add notes/linework clarifying that Contractor can only expose a maximum of 20 acres at a time.

These updates will be carried through the Plans, SWPPP and Summary of Quantities.

Task 4 - Agency Coordination:

As the design duration of this project has been extended by a few years, the coordination has continued as well.

- CBBEL will coordinate with Lake County Stormwater Management Commission and the U.S. Army Corps of Engineers to verify that all permits will be valid through the beginning of construction (anticipated for Fall of 2011 for the South project and Fall of 2012 for the North Project).
- CBBEL will coordinate with the City of Waukegan regarding geometric and land acquisition changes as they affect the City's water main design.
- CBBEL will coordinate with Lake County Forest Preserve regarding planting material and special provisions and field tile revisions.
- CBBEL will also continue to coordinate with LCDOT as part of project development.

These updates will be carried through the Plans, Special Provisions and Estimate as needed.

SECTION II - FEES

We have determined the costs specified on Attachment B for the tasks described in this proposal. The costs are in accordance with the terms of our existing agreement with the County for the Delany Road improvement project. With this increase in hours and fees our total not-to-exceed contract value will be revised upward by \$39,466.62, from \$883,373.49 to \$922,840.11.

If this proposal meets with your approval, please sign both copies and return one to us for our files.

our files.
Very truly yours,
MIL
Christopher B. Burke, PhD, PE, D.WRE, F.ASCE President
