

Health Center Annual Needs Assessment 2025

Health Center Annual Needs Assessment 2025

Authority

Health Resources and Services Administration (HRSA)

Section 330(k)(2) and Section 330(k)(3)(J) of the PHS Act; and 42 CFR 51c.104(b)(2-3), 42 CFR 51c.303(k), 42 CFR 56.104(b)(2), 42 CFR 56.104(b)(4), and 42 CFR 56.303(k)

Requirements for Demonstrating Compliance

The health center identifies and annually reviews its service area based on where current or proposed patient populations reside as documented by the ZIP codes reported on the health center's Form 5B: Health Centers. In addition, these service area ZIP codes are consistent with patient origin data reported by ZIP code in its annual Uniform Data System (UDS) report (for example, the ZIP codes reported on the health center's Form 5B: Health Centers would include the ZIP codes in which at least 75 percent of current health center patients reside, as identified in the most recent UDS report).

Reporting Year

2024

Summary

In 2024, Lake County Health Department reported to HRSA in its Uniform Data System (UDS) report that 32,974 patients were seen at its Federally Qualified Health Centers (FQHCs). Of those patients, 28,997 reside in zip codes identified in Lake County Health Department's (LCHD) Form 5B, which is 88% of the total. This result surpasses the 75% threshold set by HRSA. While the aggregate count of patients across all LCHD FQHC Health Centers meets the required threshold, some individual Health Centers are below it.
