 - In addition, the Lake County Coroner's Office Toxicology Laboratory conducted 131 toxicology tests for various outside agencies including the Lake County Jail and Probation Services.
- The Lake County Coroner's Office Issued 332 Permits for Cremation to area funeral homes in January 2023.
- Coroner Office Investigators completed and closed 95.23% of January Cases within 60 days of the date of the case.
 - Case closure statistics outlined on following pages.

(1) As forensic reports such as Autopsy Reports, Toxicology Reports and other investigative agency reports may take 4 – 8 weeks for completion, Coroner Banek is presenting statistical data that is more complete than the previous months data.

(2) Non-Coroner's Cases:
Cases reported to the Office of Coroner where Minimal Investigation is needed; primarily consisting of review of medical history, medical records, and discussion with health care providers involved in the case.

(3) Coroner's Cases
Thorough investigation as to the cause of death, with subsequent Case Conference to determine the manner of death (i.e., homicide, suicide, accidental, or undetermined). Where required and mandated by Illinois Statute by type of death, select cases may be sent to an Inquest by Jury.
