6. Chairman's Remarks

Chair Maine reported on a United Way event she attended with Lake County Board Chairman Aaron Lawlor and County Board Member Chuck Bartels. She suggested that water trails be included in the next updated map of County paths and trails.

Chair Maine also reported on a meeting with Abbvie regarding reverse commute business models, business opportunities and transportation. She indicated Abbvie would like an

additional train route that stops in Lake Forest in the early morning. The City of Lake Forest is taking a lead role in creating a resolution supporting this initiative and will be seeking the County's legislative and financial support. She noted Abbvie has invested a lot of funding in its employees transportation needs, noting that the company, in conjunction with other local businesses, runs a shuttle to and from the train station. Discussion ensued.

7. Old Business

There was no old business to conduct.

8. New Business

REGULAR AGENDA

PUBLIC WORKS

8.6 [18-0734](#)

Joint resolution authorizing an Intergovernmental Agreement with the Village of Round Lake (Village) relating to water interconnection for system maintenance and emergency purposes.

Attachments: [18-0734 County Round Lake IGA.pdf](#)

Public Works Director Rodney Worden reported this agreement with the Village of Round Lake will allow both communities to have a backup water source in emergency events or during extended maintenance procedures. The cost of the interconnection is \$50,000.

A motion was made by Member Wilke, seconded by Member Werfel, that this item be approved and referred on to the Financial and Administrative Committee. The motion carried unanimously.

Aye: 8 - Chair Maine, Vice Chair Hewitt, Member Danforth, Member Durkin, Member Pedersen, Member Taylor, Member Werfel and Member Wilke

Absent: 1 - Member Mathias

8.7 [18-0736](#)

Joint resolution authorizing a contract for a utility billing system with Tyler Technologies, Inc., Yarmouth, Maine, (Tyler Technologies) in the amount of \$167,595 for implementation and training, plus annual maintenance and hosting service costs of \$75,915.

Attachments: [18-0736 Tyler Incode Contract Award Information.pdf](#)
[18-0736 Tyler Incode Scoring Matrix for Board Approval.pdf](#)

Public Works Director Rodney Worden reported Public Works' existing billing system is eight years old and will no longer be supported by the vendor. An evaluation team selected Tyler Technologies to provide utility billing software and associated implementation services. The proposal is significantly below the County's estimate, but the maintenance of the system is higher than expected. He indicated the web-hosted system will allow customers to view their account history and set up recurring payments.

Discussion ensued regarding implementation delays the County has experienced with this vendor on another projects. RuthAnne Hall, Purchasing, reported concerns were expressed to the vendor and a work plan has been developed. She noted this system is more standardized than the tax system implementation, which required significant customizations. The consensus of the committee is to approve this project with a caveat that failure to implement the system within the prescribed period will not result in additional charges to the County.

A motion was made by Member Pedersen, seconded by Member Durkin, that this item be approved and referred on to the Financial and Administrative Committee, as amended. The motion carried unanimously.

Aye: 8 - Chair Maine, Vice Chair Hewitt, Member Danforth, Member Durkin, Member Pedersen, Member Taylor, Member Werfel and Member Wilke

Absent: 1 - Member Mathias

8.8 [18-0740](#)

Joint resolution authorizing a professional services agreement with Burns and McDonnell, Inc., Chicago, Illinois, (Burns and McDonnell) in the amount of \$94,025 for services associated with a sewer/ water rate and connection fee study.

Director's Report - Public Works.

18-0768

Attachments: [CIP Reset 6.27.18](#)

Public Works Director Rodney Worden and Heather Galan, Public Works, presented the Capital Improvement Plan (CIP) reset. Ms. Galan provided an overview of the plan

development process, 2019/2020 new start requirements, the department's budget strategy, and next steps.

The overarching CIP priorities include meeting regulatory requirements, maximizing the life of existing assets, recapitalizing existing capacity, and meeting future capacity demands. Project selection is based upon the risk of failure, consequence of failure, strategic initiative contribution, and community priority.

Investment categories include water production and storage, water distribution, sewage collection systems, and water reclamation plants. The highest priority projects are based upon the category's investment five year goal with the other remaining projects competing for left over funding.

Ms. Galan reviewed the department's next steps and upcoming projects. Mr. Worden indicated that the capital project backlog review resulted in the cancelation of seven projects because they were already addressed by alternate methods. There are 29 projects proposed in the five year CIP. Discussion ensued.

Presentation: Paratransit Market Study Update.

Attachments: [18-0724 PWTC TM3 Presentation.pdf](#)

Ashley Lucas, Division of Transportation, and Kathleen O'Connor, Lake County Coordinated Transportation Services Committee (LCCTSC), provided an update on paratransit services. The LCCTSC was developed to create a sustainable plan for improving mobility options that benefit the elderly, people with disabilities, and lower income individuals.

Ms. O'Connor indicated there have been two rounds of four community meetings held in January 2017 and January 2018, two technical memos identifying existing conditions and potential strategies in addressing the needs of the community, five focus group discussions, as well as stakeholder/partner interviews, online surveys completed by the public, and Project Advisory Committee (PAC) meetings. A third, technical memo is being finalized.

Ms. Lucas reviewed proposed strategies regarding service, personal mobility, and mobility management. These strategies rely on forming partnerships with local units of government, townships, and charitable organizations. A transit propensity index (TPI) was developed to provide a composite measure of all groups likely to rely on public transportation in Lake County. The TPI measures individual densities of total population, older adults, individuals with disabilities, people living with an income less than 150% of

the poverty line, and households without access to private vehicles. The TPI does not compare where transportation exists, where transportation is most robust or where transportation is lacking but she noted that there are limited options on the west side of the county because of density. Discussion ensued.

Ms. Lucas indicated the next PAC meeting is scheduled for July 12 where the third technical memo will be presented. Additional community and PAC meetings are scheduled for the fall with a finalized report being presented to the Lake County Board in the later part of 2018.

A presentation on the paratransit market study was provided.
