STATE OF ILLINOIS GRANT INFORMATION	
State Award Identification	Name of State Agency (Grantor): Department Of Human Services Department/Organziation Unit: Family and Community Services - BYIS
State Award ID Number (SAIN)	1270-35159
State Program Description	<p>Title II Juvenile Justice Council grants are specifically awarded to local juvenile justice councils to implement programs, policies and practices that improve the effectiveness of local juvenile justice systems, reduce unnecessary juvenile justice system involvement and/or analyze and reduce Racial and Ethnic Disparities (RED) in each council’s local system. Because this model of local governance, collaboration and data-driven decision-making has proven effective, the Illinois Juvenile Justice Commission is allocating funding to support local juvenile justice councils and the development of data-driven, collaborative local juvenile justice plans which guide future system improvement efforts.</p> <p>The Illinois Juvenile Court Act provides that each county or group of counties may establish a local juvenile justice council [705 ILCS 405/6-12]. The purpose of this council, according to the Act, is “to provide a forum for the development of a community based interagency assessment of the local juvenile justice system, to develop a county juvenile justice plan for the prevention of juvenile delinquency, and to make recommendations to the county board, or county boards, for more effectively utilizing existing community resources in dealing with juveniles who are found to be involved in crime, or who are truant or have been suspended or expelled from school.” Through juvenile justice councils, the Act prescribes a response to juveniles in conflict with the law that is comprehensive, driven by data and analysis, and collaborative across all systems that touch these youth.</p> <p>As embodied in the Juvenile Court Act, Juvenile Justice Councils provide a structure to ensure that local jurisdictions respond to youth in conflict with the law in a manner which is data-driven, strategic, and focused on serving youth, families and communities in the most effective ways possible. Unfortunately, very few jurisdictions in Illinois have developed councils that operate in the manner envisioned in the Act. In some communities, youth become involved in the juvenile justice system unnecessarily because alternatives do not exist, or are not embedded within the system decision-making process. Because the needs and resources are different in each community in Illinois, a one-size-fits-all approach is not likely to be very effective.</p> <p>Local councils are in the best position to craft solutions that meet the local community’s needs and take into account local resources. Empowering and supporting local juvenile justice councils can also stem the tide of racial and ethnic disparity in the juvenile justice system at the front door and help ensure that no youth enters the juvenile justice system unnecessarily. Such local ownership is the best way to ensure more effective long-term programming and sustained systemic change. This, in turn, will reduce the costs associated with incarcerating youth in correctional facilities, reduce rates of recidivism, reduce the number of crime victims, and ultimately create safer communities in Illinois.</p> <p>Juvenile Justice Youth Serving Programs: The federal Office of Juvenile Justice and Delinquency Prevention (OJJDP) provides funding directly to states through its Title II Formula Grants Program (Title II) to support state and local delinquency prevention, intervention efforts and juvenile justice system improvements. These funds are used to help states implement comprehensive state juvenile justice plans based on detailed studies of needs in their jurisdictions. State Advisory Groups, comprised of members appointed by the governor, set priorities for funded activities. The State Advisory Group for Illinois, the Illinois Juvenile Justice Commission (IJJC), administers the Title II funds. These funds support a broad range of juvenile justice activities at the state and local level that are designed to improve the juvenile justice system through the development of more effective education, training, research, prevention, diversion, treatment, and rehabilitation programs in the area of juvenile delinquency. These programs or projects can be designed to be developed, implemented and evaluated directly or through grants and contracts with public and private agencies. Title II also funds state and local activities designed to ensure and maintain the state's compliance with the Core Requirements of the JJDPA.</p> <ul style="list-style-type: none"> • Deinstitutionalization of Status Offenders (DSO) • Adult Jail and Lock-Up Removal (Jail Removal) • "Sight and Sound" Separation • Address Racial and Ethnic Disparities (RED); <p>In some communities, youth become involved in the juvenile justice system unnecessarily because alternatives do not exist or are not embedded within the system decision-making process. Because the needs and resources are different in each community in Illinois, a one-size-fits-all approach is not likely to be very effective.</p>

	Local juvenile justice systems and community-based providers are in prime position to craft solutions and develop youth serving programs that meet the local community's needs and take into account local resources. Empowering and supporting local youth programming can also stem the tide of racial and ethnic disparity in the juvenile justice system at the front door and help ensure that no youth enters the juvenile justice system unnecessarily. Investing in local communities will reduce the costs associated with incarcerating youth in correctional facilities, reduce rates of recidivism, reduce the number of crime victims, and ultimately create safer communities in Illinois.
