The Board of Trustees Lake Zurich Rural Fire Protection District Lake Zurich, Illinois

We have audited the accompanying financial statements of the governmental activities and each major fund of the Lake Zurich Rural Fire Protection District, as of and for the year ended April 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Lake Zurich Rural Fire Protection District management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Lake Zurich Rural Fire Protection District as of April 30, 2008, and respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis and other required supplementary information on pages 2 through 6 and 22 through 24, are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplemental information. However, we did not audit the information and express no opinion on it.

REQUIRED SUPPLEMENTARY INFORMATION

## LAKE ZURICH RURAL FIRE PROTECTION DISTRICT, LAKE COUNTY, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED APRIL 30, 2008

#### MANAGEMENT DISCUSSION AND ANALYSIS

Our discussion and analysis of the District's financial performance provides an overview of the District's financial activities for the fiscal year ended April 30, 2008. Please read it in conjunction with the District's financial statements, which begin on page 7.

#### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 7 and 8 provide information about the activities of the District as a whole, and present a longer-term view of the District's finances. Fund financial statements start on page 9. For the governmental activities, these statements tell how these services were financed in the short term as well as what remains or future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

#### REPORTING THE DISTRICT AS A WHOLE

Our analysis of the District as a whole begins in a subsequent section of this analysis. One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting.

These two statements report the District's net assets and changes in them. You can think of the District's net assets—the difference between assets and liabilities—as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of its financial health.

# LAKE ZURICH RURAL FIRE PROTECTION DISTRICT, LAKE COUNTY, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

In the Statement of Net Assets and the Statement of Activities, we report the District's Governmental activities. All of the District's services are reported here, including general government and debt service. Property taxes, interest income, and direct fees finance most of these activities.

#### REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Our analysis of the District's major funds begins in a subsequent section of this analysis. The fund financial statements begin on page 9 and provide detailed information about the most significant funds--not the District as a whole. Some funds are required to be segregated by State law.

Overnmental funds--All of the District's services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. The District maintains its accounting records for all funds on the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more funds that can be spent in the near future to finance the District's services. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation in the financial statements.

#### NOTES TO THE FINANCIAL STATEMENTS

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements are contained on pages 13-21.

## LAKE ZURICH RURAL FIRE PROTECTION DISTRICT, LAKE COUNTY, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS

(Continued)

#### THE DISTRICT'S FUNDS

Property tax revenues for 2007 increased from \$4.403 million to \$4.959 million, an increase of 12.6%, due primarily to an increase in property assessed valuations. Earnings on investments increased by \$37,658 due to improved cash flows from the additional property taxes. Expenditures increased \$126,086, from 2007 to 2008. This was principally due to increased contract services with the Village of Lake Zurich. It is anticipated that the increased property tax revenues will meet the needs of the District for the foreseeable future.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

<u>Capital Assets</u> - At the end of April 30, 2008, the District had \$4.94 million invested in capital assets, at cost, including land, buildings and equipment. There were no capital assets acquired during the year.

Table 3

	Capital Assets at Year End
	(Net of Depreciation)

## LAKE ZURICH RURAL FIRE PROTECTION DISTRICT, LAKE COUNTY, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

#### General Fund Budgetary Highlights

For the fiscal year ended April 30, 2008, the budgeted revenue for the General Fund was \$1.996 million, and the actual revenue was \$1,995 million. Budgeted expenditures for the General Fund were \$1.880 million, and the actual expenditures were \$1.625 million. Actual expenditures were less than budgeted expenditures primarily in the area of contractual services, maintenance, capital outlay, and contingency.

#### Economic Factors and Next Year's Budget and Rates

Assumptions about the future performance of the real estate market and assessed valuations of real property are the main variables in constructing budget base lines. We anticipate that those items, influenced by the current economic conditions, will not significantly impact the property tax base, and adequate funding for the District's needs will continue for the foreseeable future.

#### CONTACTING THE FINANCIAL MANAGEMENT

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the finances and to demonstrate the accountability for the money it receives. Questions concerning this reports or requests for additional financial information should be directed to: Treasurer, Lake Zurich Rural Fire Protection District, P.O. Box 346, Lake Zurich, IL 60047.

FUND FINANCIAL STATEMENTS

## RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES -

#### FOR THE YEAR ENDED APRIL 30, 2008

Excess of Receipts Over (Under) Expenditures Governmental Funds

\$ 1,017,911

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activiites, the cost of those assets is allocated over their estimated useful life as depreciation expense. This is the amount by which capital outlay, \$14,046, is less than depreciation expense, \$103,997, in the period.

(89,951)

Repayment of Long-Term Debt principal is an expenditure in the Governmental Funds, but the repayment reduces liabilities in the Statement of Net Assets.

465,000

Change in Net Assets of Governmental Activities

\$ 1,392,960

The accompanying Notes are an integral part of these Financial Statements.

NOTES TO FINANCIAL STATEMENTS

## LAKE ZURICH RURAL FIRE PROTECTION DISTRICT, LAKE COUNTY, ILLINOIS NOTES TO FINANCIAL STATEMENTS APRIL 30, 2008

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Principles Used to Determine Scope of Entity

The District's reporting entity includes the District's governing board and all related organizations for which the District exercises oversight responsibility.

The District has developed criteria to determine whether outside agencies with activities which benefit the citizens of the District should be included within its financial reporting entity. The criteria includes, but is not limited to, whether the District exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), scope of public service, and special financing relationships.

The District has determined that no other outside agency meets the above criteria and, therefore, no other agency has been included as a component unit in the District's financial statements. In addition, the District is not aware of any entity which would exercise such oversight which would result in the District being considered a component unit of the entity.

#### B. Funds

The accounts of the District are organized on the basis of funds and include all the activities of the District based on manifestations of oversight, scope of public service and special financing arrangements. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources together with all related liabilities, obligations, reserves and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. Refer to Note 2 for a description of the funds utilized by the District.

#### C. Basis of Presentation

The government-wide and fund financial statements are combined, with a reconciliation shown between them and are separately described below:

Government-Wide Financial Statements - the Statement of Net Assets and Statement of Activities report information on all of the governmental activities of the District. Governmental activities are activities normally supported by taxes and intergovernmental revenues. The District has no business-type or fiduciary activities.

#### 1. C. Basis of Presentation (Continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct Expenses are those that are clearly identifiable with a specific function. Program revenues include (1) Charges to residents for services provided and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - The District has no fiduciary or proprietary funds and thus reports only governmental funds. Major individual governmental funds are reported as separate columns. The District reports three funds, all which were considered to be material.

#### D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available of they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, are recorded only when payment is due.

#### 1. (Continued)

#### E. Basis of Accounting

The District's intent is to use the 2006 property tax levy during the current year and, therefore, the entire 2006 property taxes collected are recognized as revenues in the current year. The District's intent is to use the 2007 property tax levy during the 2008-09 fiscal year and, therefore, the entire 2007 tax levy is recorded as deferred revenue. Revenue from grants, entitlements and donations are recognized when all eligibility requirements have been satisfied.

#### F. <u>Budgeting</u> (Appropriations)

The District prepares its budget for all governmental fund types in conformity with practices prescribed or permitted by the applicable statutes of the State of Illinois. As prescribed by the statutes, the District in its budgeting process includes as a resource (amount available for current expenditures) a portion of the fund balance that has been accumulated in prior years.

#### G. Capital Assets

Capital Assets include buildings, equipment and furnishings. Capital Assets are recorded at cost. In the fund financial statements, capital assets are reported as expenditures when purchased. In the government-wide financial statements, depreciation expense is recorded on capital assets using the straight-line method over the following useful lives:

	<u>Years</u>
Buildings and Improvements	50
Furnishings and Equipment	10
Computers and Related Equipment	5

#### H. Other Accounting Policies

 Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### 1. H. Other Accounting Policies (Continued)

2. New Accounting Pronouncements - Effective May 1, 2004, the District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments and GASB Statement No. 37, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Government: Omnibus. Statement No. 34 requires government-wide financial statements to be prepared using the accrual basis of accounting and the economic resources measurement focus. The Government-wide financial statements include a statement of net assets and statement of activities. These financial statements do not provide information by fund or account group. The District's statement of net assets includes both non-current assets and non-current liabilities of the District, which were previously reported in the General Fixed Assets Account Group and the General Long-Term Debt Account Group, respectively. The District must also record depreciation expense in capital assets included in the Statement of Net Assets.

Combined with the government-wide financial statements, the District has prepared fund financial statements, which continue to use the modified accrual basis of accounting and the current financial resources measurement focus. Accordingly, the accounting and financial reporting for the District's governmental funds is similar to that previously presented in the District's financial statements.

Statement No. 34 also requires, as required supplementary information, a Management's Discussion and Analysis, which includes analytical overview of the District's financial activities. In addition, a budgetary comparison schedule is presented that compares the adopted and modified General Fund budget with actual results.

#### 2. DESCRIPTION OF FUNDS

The District's principal activity is to operate fire and ambulance rescue services in the area around the Village of Lake Zurich, Illinois. The District contracts with the Village of Lake Zurich to provide personnel to conduct its' services.

The various funds are summarized by type in the financial statements with homogenous funds being combined to provide a more meaningful presentation. The following funds are used by the District.

#### 2. DESCRIPTION OF FUNDS (Continued)

#### Governmental Funds

<u>General Fund</u> - Established to account for the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Special Revenue Fund - Ambulance Tax Fund</u> - Established to account for annual property taxes which are specifically levied to fund the cost of ambulance service.

<u>Debt Service Fund</u> - Established by the Bond Ordinance to record and account for funds from tax levies and other financing sources, whose use is restricted to the payment of bond interest and principal.

#### 3. RESERVED FUND BALANCE

During a previous year, the District received a grant of \$150,000 from the "Illinois First Program" of the State of Illinois. These monies are to be used for the Districts' dry hydrant program. At April 30, 2008, there remains an amount of \$8,947 to be expended. This amount is reserved in the General Fund for future dry hydrant expenditures.

#### 4. BONDED INDEBTEDNESS

During a previous year, the District reorganized its' debt structure on its' bond issue through a defeasance of the 1997 bond issue in order to receive lower interest rates and lower tax levies for this and future years. The proceeds of a new issue were paid into a defeasance account to account for the scheduled retirement of the remaining principal and interest due on the 1997 bond issue. The principal and interest of the new issue will be paid for by tax levies on District taxpayers.

#### 4. BONDED INDEBTEDNESS (Continued)

The following is the debt service schedule of the current bond issue.

	Year End						
	April 30,	P1	cincipal	_I	nterest		Total

#### 5. CASH AND INVESTMENTS

#### Cash and Cash Equivalent Investments

#### Deposits: Checking and Money Market Accounts:

Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned or the District will not be able to recover collateral securities in the possession of an outside party. The District's Board approves and designates a list of authorized depository institutions.

At April 30, 2008, the carrying amount of the District's deposits was \$479,961. the custodial credit risk is as follows:

·		Bank
		<u>Balance</u>
Coverage by FDIC Insurance	\$	10,000
Collateralized with securities		
held by the pledging		
financial institution	<u> </u>	469,961
	\$	479,961

#### <u>Investments</u>

As of April 30, 2008, the District had the following cash equivalent investments:

	Carry	Market
	Value	Value
External Investment Pool:		
The Illinois Funds	<u>\$ 835,708</u>	<u>\$ 835,708</u>

#### 6. TAXES RECEIVABLE AND DEFERRED

The property taxes receivable and deferred reflect the estimated collectible portion of the 2007 levy uncollected as of April 30, 2008. The estimated uncollectible is 2% of the total levy.

## 7. ASSESSED VALUATIONS, TAX RATES, EXTENSIONS AND COLLECTIONS FOR THE TAX YEARS 2005, 2006 AND 2007

The District's property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. The 2007 Tax Levy was passed by the Board on November 11, 2007. Property taxes attach as an enforceable lien on property as of January 1 and are payable in two installments during the year. The District receives significant distributions of tax receipts approximately one month after the due dates of approximately June 1 and September 1.

Depreciation was not charged to any specific function.

Under an agreement with the Village of Lake Zurich, all fire trucks and ambulances have been titled to the Village by the District for the operation of the District's Fire and Emergency services.

#### 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

#### 10. OVEREXPENDITURE OF CASH BALANCE

By use of common cash accounts for all funds, the District has overexpended the cash balance of the Special Revenue/Ambulance Fund by \$783,633. It is anticipated that this overdraft situation will be corrected with the receipt of increased real estate taxes.

#### 11. <u>DEFICIT FUND BALANCE</u>

Due to severe operating needs, the District has incurred a deficit in its Special Revenue/Ambulance Fund. It is anticipated that the recently approved tax rate increase will overcome this situation.
