RE: Winchester House Resident Fund

To WHAB members:

I want to start by thanking you once again for all the help over the years and believing in our team to make the new Winchester House a reality. Since our last update, we have topped off a large portion of the building and we should be fully framed next month. We are making great progress in bringing this state-of-the-art community to Lake County.

We continuously look for ways to enhance the lifestyle for all current and future guests of Winchester House. We feel the most appropriate way to utilize the resident fund that was established years ago is to purchase upgraded beds for every room in the community. The current spec'd beds are 35" wide and the resident fund would afford us the opportunity to upgrade all beds and mattresses in the community to 42" wide. This is unquestionably the best and highest use of these funds as the life enhancement to the residents is immeasurable.

Please feel free to contact me with any questions.

Thanks,

Brad Haber
