Board of Health Report.

West Nile virus activity picks up in Lake County

Since July 14, mosquitoes in Lake County have begun testing positive for West Nile virus. People can get West Nile virus when they are bitten by an infected mosquito. Since 2002, there have been 58 confirmed human cases of West Nile virus in Lake County and two confirmed deaths.

Due to recent flooding, mosquito populations have risen in Lake County. Floodwater mosquitoes are aggressive biters and are a nuisance, but do not carry West Nile virus.

Culex mosquitoes, which can carry West Nile virus, like to breed in containers of stagnant water when the weather is hot. Residents should empty standing water from items such as plant containers, bird baths, buckets, gutters, and kiddie pools at least once a week.

Residents involved in flood cleanup should also ensure cleanup debris on their property is not collecting water.

To help prevent mosquitoes from breeding around your home and business and protect yourself from bites, follow the "4 Ds of Defense":

Drain: Drain standing water from items around your home, yard, and business.

Defend: Use an insect repellent containing DEET when outdoors.

Dawn to Dusk: Protect yourself all day and night, and be especially aware during the prime times for mosquito activity, dawn and dusk.

Dress: Wear long sleeves, pants, and closed toe shoes when outdoors to cover skin.

Residents can contact the West Nile virus hotline at (847) 377-8300 to report areas of stagnant water, report locations of dead birds, and learn more about West Nile virus.

Learn more prevention tips on the Health Department's website, www.FightTheBiteNow.com.

Information for residents on septic and private water wells

During heavy rains and floods, the ground is often saturated, preventing proper operation of septic systems. Waste water from malfunctioning septic tanks seeping into the ground can contaminate surface water and ground water.

After the flood waters have receded, if you suspect your septic system has been damaged, get the system professionally inspected and serviced.

Floodwaters also have the potential to contaminate water wells. Drinking or washing with water from a private well that has been flooded is not advised as the well water may be contaminated with bacteria and other contaminants.

Residents on private wells need to have their water tested after floodwaters recede.

The Health Department is offering free water testing to residents whose wells are affected by flooding. You can pick up sterile bottles to be filled and returned for analysis, and obtain information about disinfecting wells at the Lake County Central Permit Facility, 500 W. Winchester Road, Libertyville, or at some township and village offices in the county. (Please call your village or township in advance).

For additional information on well water testing, contact Environmental Health Services at (847) 377-8020.

Use caution when swimming in lakes after flooding

The Lake County Health Department monitors over 100 swimming beaches in Lake County during the summer. Swim bans or advisories are posted daily on the health department's website.

Since the flooding in mid-July, the health department tested 15 licensed swimming

beaches in Lake County along the Fox Chain O'Lakes for the presence of *E. coli* bacteria. All test results indicated that *E. coli* levels were below the unsafe range.

While conditions have improved, residents should be cautious about swimming in recently flooded lakes, as floating or sunken debris may be hazardous.

The beach sampling is not necessarily representative of the entire lake system. Other sources of pollution may still be present, such as failing septic systems. Residents can test their own lake water by picking up a bottle from the Health Department Lab at 500 W. Winchester Road, Libertyville. The cost is \$18/sample.

If you have questions or suspect a possible pollution source, please contact the health department at (847) 377-8020.

Rx for Health: Walking in Nature

The 2017 Rx for Health walking season continues through October. The simple act of walking, especially in nature, can improve one's overall health, both physically and mentally.

The next two walks are scheduled for:

Saturday, August 12 at Van Patten Woods in Wadsworth (15383 W. Route 173).

Saturday, September 16 at Grant Woods in Ingleside (25405 W. Monaville Rd).

All walks are from 4:00 – 5:30 p.m. and range in length from 1 to 2 miles. Everyone can walk at their own pace and distance.

Walks are guided by a NorthShore physician and a Lake County Forest Preserve naturalist and are accompanied by staff from the Lake County Health Department and Community Health Center.

The walks are open to all ages, but those 16 and younger must be accompanied by an adult. These are rain or shine events and except for service animals, no pets are allowed.

September 9 Low-Cost Pet Vaccination Clinic in Grayslake

Each year, Animal Care and Control provides low-cost pet vaccination clinics to Lake County residents. These clinics are a convenient and affordable way to keep pets up to date with their shots and rabies tags. Microchip services are also offered. The next clinic is scheduled for:

Saturday, September 9 at the Grayslake Police Department, 10 South Seymour, Grayslake.

The clinic takes place from 9 a.m. to noon and is open to ALL Lake County residents.

Pets are taken on a first-come, first-served basis. All animals must be at least 4 months old. Dogs must be leashed and cats placed in carriers.

Only cash is accepted on-site and at the time of service. Proof of spay/neuter may be required.

For additional information, including prices and a list of all upcoming clinic dates and locations, visit the Animal Care and Control web page,

<http://www.lakecountyil.gov/152/Animal-Care-Control>, or call them at 847-377-4700.

Lake County Partners Report.

*LAKE COUNTY PARTNERS COUNTY BOARD UPDATE
AUGUST 2017*

Sysmex America Celebrates its Expansion in the Village of Mundelein

Sysmex America, a global leader in hematology and urinalysis equipment manufacturing, recently celebrated the opening of its expanded state-of-the-art reagent manufacturing facility in the Village of Mundelein. The expanded plan represents a \$24 million investment in long-term growth in Lake County. The project boosted production capacity by 80%, and the products will reach customers in the U.S., Canada and parts of Latin America. The company has grown from 30 employees in 2003 to over 1,200 worldwide, with 400 based in Lake County. The Mundelein facility is one of several local Sysmex properties—the company also operates its main headquarters in the Village of Lincolnshire and a distribution center in the Village of Buffalo Grove, and it is in the process of constructing a training center in the Village of Vernon Hills. We would like to acknowledge Sysmex America for its local leadership and commitment to Lake County and its communities.

Great Wolf Unveils Details on its New Resort in the Village of Gurnee

Great Wolf Resorts, North America's largest family of indoor water parks, has unveiled the details of its new lodge to inhabit the former Key Lime Cove property in the Village of Gurnee. Great Wolf will invest \$65 million in renovation and new construction, nearly doubling the size of the existing water park to 80,000 sq. ft. In addition, the resort will feature a variety of dining and entertainment options, attractions, children-focused activities and meeting space. The project is expected to be complete in mid-2018.
