- Coroner Office Investigators completed and closed 89.58% of September Cases within 60 days of the date of the case. As of September 30, 2022, case closure rates within 60 days are 81.40% for the calendar year.
 - Cases Pending Inquest Hearings
 - Case closure statistics outlined on following pages.

(1) As forensic reports such as Autopsy Reports, Toxicology Reports and other investigative agency reports may take 4 – 8 weeks for completion, Coroner Banek is presenting statistical data that is more complete than the previous months data.

(2) Non-Coroner's Cases: Cases reported to the Office of Coroner where Minimal Investigation is needed; primarily consisting of review of medical history, medical records, and discussion with health care providers involved in the case.

(3) Coroner's Cases Thorough investigation as to the cause of death, with subsequent Case Conference to determine the manner of death (i.e., homicide, suicide, accidental, or undetermined). Where required and mandated by Illinois Statute by type of death, select cases may be sent to an Inquest by Jury.
