**RECITALS**

1. The public health, welfare, and safety of the residents of the County and the Village require the development of coordinated and adequate systems for the collection and treatment of sewage so as to eliminate pollution of lakes and streams.

2. Pursuant to "An Act in Relation to Water Supply, Drainage, Sewage, Pollution, and Flood Control in Certain Counties," as amended, and other applicable statutory authority, the County has established a Department of Public Works for the purpose of performing the function of sewage disposal and has prepared a comprehensive plan for the disposal of sewage from areas of the County, including portions of the Southeast Lake Facilities Planning Area and the Southeast Central Lake Facilities Planning Area established pursuant to the Illinois Water Quality Management Plan, and has prepared plans and programs for providing such services and the related facilities.

3. Pursuant to such plans and programs, the County owns and operates a system of interceptor sanitary sewers and wastewater treatment facilities to transport and treat sewage in limited portions of the Southeast Lake Facilities Planning Area and Southeast Central Lake Facilities Planning Area.

4. The County and the Village have entered into, and are currently operating under, an "Agreement for Sewer Service" dated July 10, 1990, as amended by the "First Amendment to Agreement for Sewer Service" dated July 13, 1998 and the "Second Amendment to Agreement for Sewer Service" dated April 11, 2017 (collectively, "**Prior Sewage Agreement**"), under which the County has agreed to collect, transport, and treat sanitary sewage from certain areas within the Village to the County's Southeast Sewerage System.

5. The Village has requested the County to expand its retail sanitary sewer service within the Village to an area that would be served by the County's Southeast Central Sewerage System.

6. The County's extension of retail sanitary sewer service will ensure continued cost-effective and environmentally sound sanitary sewage collection, transport and treatment to the areas of the Village to be served under this Agreement.

7. In connection with the extension of the County's retail sanitary sewer service to certain areas of the Village, the County and the Village desire to enter this restated and amended agreement for sewage disposal, which would supersede the Prior Sewage Agreement.

8. This Agreement is independent of any agreements between the Village and the County for wholesale sewerage services and any agreements that the Village may have with other

sanitary sewerage service providers.

The County shall be solely responsible for setting, billing, and collecting Sewer User Fees.

B. Level of Fees. Sewer User Fees shall be uniform for all similarly-situated Customers of the County System receiving similar service. The Village acknowledges and understands that Customers located in different Hawthorn Woods Retail Service Subareas may pay different Sewer User Fees. Factors used to determine whether Customers are similarly-situated may include but are not limited to location of Customer within the Hawthorn Woods Retail Service Area, condition of the Hawthorn Woods Retail Sewage Collection Facilities, Subsystem, or portion thereof, used for Sanitary Sewer Service to the Customer, and type or volume of Sewage being discharged by the Customer. In any case, to the extent there are any expenses uniquely and specifically related to a particular Customer or subset of Customers, a fee or surcharge sufficient to cover such expenses may be assessed against such Customer or Customers. Such Sewer User Fees shall at all times be set at levels designed to assure that the County revenues from such Fees will always be sufficient, when considered in light of any other monies legally available for and applied to such purposes, (i) to provide adequate and proper levels of service; (ii) to pay the County's costs of maintenance, replacement, and operation; (iii) to pay the principal of, and premiums and interest upon, bonds secured, in whole or in part, by the revenues of the County Southeast Sewerage System or County Southeast Central Sewerage System, as the case may be; (iv) to provide a reasonable depreciation fund; and (v) to provide such other reserves and sinking funds as may be deemed necessary or desirable by the County for the payment of such bonds and for the replacement, extension, or improvement of the County Southeast Sewerage System or County Southeast Central Sewerage System, as the case may be.

### 6.4 Metering.

The County shall have the right to establish and enforce requirements for all Customers located within the Hawthorn Woods Retail Service Area for the installation, calibration, inspection, maintenance, repair, and replacement of Meters to measure each Customer's Sewage or water use for billing and other purposes. Nothing in this Section 6.4 shall be deemed to limit the County's ability to estimate any Customer's water consumption for purposes of establishing Sewer User Fees.

### 6.5 Cooperation with Service Termination.

A. Public Purpose. The Parties acknowledge and agree that: (i) Customers have an obligation to pay the Sewer User Fees for Sanitary Sewer Service; (ii) Customers have an obligation to abide by the terms of Sanitary Sewer Service that the County establishes from time-to-time; and (iii) the County shall have no duty to continue to provide Sanitary Sewer Service to

Customers who fail to pay amounts due with respect to such services, or who otherwise fail to abide by the County's terms of Sanitary Sewer Service (a "**Non-Compliant Customer**"). The Parties further agree that the County shall have the right to terminate Sanitary Sewer Services to Non-Compliant Customers after appropriate notice and opportunity to cure such non-compliance. Because the provision of potable water to a Non-Compliant Customer that does not have the right to receive Sanitary Sewer Services could present significant public health concerns, the Village agrees to cooperate with the County in connection with the termination of water and Sanitary Sewer Service for Non-Compliant Customers as set forth in Section 6.5.B. Nothing in the preceding sentence shall limit the County's right to terminate Sanitary Sewer Service to a Non-Compliant Customer.

B. **Termination Procedures.** In the event that the Village provides water service to any Customers under this Agreement, or the Village has an agreement with a potable water provider with respect to water service to such Customers, the Village agrees to take all reasonable measures to cooperate with the County in terminating water service to any Non-Compliant Customer, provided that: (a) the County has notified the Non-Compliant Customer in writing (with a copy to the Village) at least three times regarding Customer's failure to make full payment of amounts due or failure to abide by the County's terms of Sanitary Sewer Service; and (b) the County has notified the Village in writing regarding the grounds for termination of such Non-Compliant Customer's Sanitary Sewer Service (a "**Sewer Service Termination Notice**"). The Village's cooperation shall be further subject to: (c) the Village's or water provider's customary water service termination procedures; and (d) the County indemnifying and holding the Village or water provider and its elected and appointed officers, officials, employees, agents, attorneys, and representatives harmless for any claims, liabilities, damages, or judgments arising from any terminated water service occasioned by a Sewer Service Termination Notice.

## ARTICLE VII

### **OWNERSHIP AND MAINTENANCE**

#### **7.1 Ownership, Operation, and Maintenance.**

The County shall be the sole owner of, and shall have the duty to maintain, the County Southeast Central Plant, the County Southeast Central Interceptors, the County Southeast Plant, the County Southeast Interceptors, and any other portion of the County System used to provide sanitary sewer service to Customers pursuant to this Agreement. After the Hawthorn Woods Retail Sewage Collection Facilities, or any portion of such Facilities, have been conveyed to, and accepted and placed in service by, the County pursuant to Article III of this Agreement, the County shall be the sole owner of, and shall have the duty to operate and maintain, the Hawthorn Woods Retail Sewage Collection Facilities or such portion thereof, as part of, the County System. Nothing in this Agreement shall be construed to give the Village, or any other person or entity, except the County, any ownership or other interest in any part of the County System. Upon collection of any sewage from Customers pursuant to the terms of this Agreement, the County shall be deemed to be the owner of such Sewage.

## ARTICLE VIII

### **FPA AMENDMENTS**

#### **8.1 Joint Action.**

In order to promote sound public sewer planning and the efficient and economical use of County and Village facilities being installed and maintained pursuant to this Agreement:

1. The County shall file, and the Village shall support, any application that may be required to amend the Illinois Water Quality Management Plan with respect to the development of the County Southeast Central Sewerage System or the County Southeast Sewerage System; and

2. Neither the Village, unless authorized pursuant to Section 4.3 of this Agreement, nor the County shall file or support any application to amend, and the County and the Village shall undertake joint and cooperative action to oppose and object to any petition to amend, the Illinois Water Quality Management Plan or the Areawide Water Quality Management Plan for Northeastern Illinois (i) so as to change any of the boundaries of the Southeast Central Regional Area or Southeast Regional Area with respect to any property in the Hawthorn Woods Retail Service Area in any manner that is inconsistent with this Agreement; or (ii) so as to prevent the County from serving the Hawthorn Woods Retail Service Area, as it exists on the Effective Date of this Agreement and as it may be modified pursuant to this Agreement, in the manner provided by this Agreement.

For purposes of this Section, joint action shall include, without limitation, filing written objections, providing staff support, and retaining such attorneys and consultants as the parties mutually agree are necessary with respect to such objections. To the extent then-current laws or policies of the Illinois Environmental Protection Agency ("IEPA") do not require an FPA Amendment, delivery of Sanitary Sewer Service may proceed upon the IEPA's issuance of the appropriate permit and upon the Customer's compliance with all terms of this Agreement.

#### 8.2 Exception.

Upon the express written agreement of the County and the Village, the parties may choose not to oppose or object to a specific petition to amend the boundaries of the Southeast Central Regional Area or Southeast Regional Area without otherwise affecting their general obligation to oppose such petitions.

### ARTICLE IX

#### OTHER CONTRACTS AND SERVICE

##### 9.1 County Rights.

The County shall have the right to contract with other persons, natural or corporate, private or public, to perform services similar to those to be performed under this Agreement; provided, however, that nothing in this Agreement shall be construed to require the County to provide Sanitary Sewer Service to any area of the Village other than the Hawthorn Woods Retail Service Area.

##### 9.2 Village Acknowledgements.

The Village acknowledges and agrees that: (i) the County does not act or operate as a public or private utility in its provision of Sanitary Sewer Service; (ii) the County does not act or operate in a business or proprietary capacity in providing Sanitary Sewer Service to the Hawthorn Woods Retail Service Area; (iii) the County does not by this Agreement, or its performance pursuant to this Agreement, hold itself out as offering to, and is under no obligation to, provide Sanitary Sewer Service to any property other than the Hawthorn Woods Retail Service Area; (iv)

the County is under no obligation to provide Sanitary Sewer Service to any property or area other than the Hawthorn Woods Retail Service Area; and (v) the County's sole obligation to provide Sanitary Sewer Service to Customers located within the Hawthorn Woods Retail Service Area is the contractual obligation set forth in this Agreement.

9.3 **Other County Service.**

Nothing in this Agreement shall be construed or interpreted to prevent or limit the right of the County, or to require the consent of the Village, to provide Sanitary Sewer Service to parties other than the Village on such terms and conditions as the County may, in its sole discretion, determine to be appropriate, including, without limitation, Sanitary Sewer Service utilizing the County Southeast Central Sewerage System or the County Southeast Sewerage System.

9.4 **No Third-Party Beneficiaries.**

Nothing in this Agreement shall create, or shall be construed or interpreted to create, any third-party beneficiary rights.

**ARTICLE X**

**LEGAL RELATIONSHIPS AND REQUIREMENTS**

10.1 **Entire Agreement; Supersedence of Prior Sewage Agreements.**

There are no representations, covenants, promises, or obligations not contained in this Agreement, or in any Exhibits attached hereto and incorporated herein, that form any part of this Agreement or upon which any of the parties is relying in entering into this Agreement. 10.5 **Interpretation and Severability.**

It is the intent of the County and the Village that this Agreement be construed and interpreted so as to preserve its validity and enforceability as a whole. In case of any conflict among the provisions of this Agreement, including the exhibits hereto, the provision that best promotes and reflects the intent of the parties shall control. If any provision of this Agreement is construed or held to be void, invalid, or unenforceable in any respect, the remaining provisions of this Agreement shall not be affected thereby but shall remain in full force and effect. In addition, the Parties acknowledge that each Party had the opportunity to seek review of this Agreement by counsel prior to its execution and therefore this Agreement shall be deemed to have been drafted mutually by the County and the Village.

**10.6 Regulatory Bodies.**

This Agreement shall be subject to all valid rules, regulations, and laws applicable hereto passed and promulgated by the United States of America, the State of Illinois, or any other governmental body or agency having lawful jurisdiction, or any authorized representative or agent of any of them; provided, however, that this Section 10.6 shall not be construed as waiving the right of any party to challenge the validity of any such rules, regulations, or laws on any basis, including the impairment of this Agreement. The County reserves the right to adopt ordinances, rules, and regulations governing the design, installation, and use of the County System.

**10.7 Successors: Assignment.**

## **EXHIBIT C**

### **Considerations and Principles Relating To Intergovernmental Agreements For Sewer and Amendments To Existing Agreements**

4889-8934-2848, v. 7

## EXHIBIT C

### CONSIDERATIONS AND PRINCIPLES RELATING TO INTERGOVERNMENTAL AGREEMENTS FOR SEWER AND AMENDMENTS TO EXISTING AGREEMENTS

#### 1. Background:

- a. The County is a regional government.
- b. County decisions often have regional effects that should be evaluated.
- c. In addition, as the primary regional government in Lake County, the County has an interest in encouraging intergovernmental cooperation, where possible.

#### 2. Decision-Making Process:

As a regional government, the County must ultimately exercise its legislative discretion in determining what it believes is best for the County and its residents as a whole. Such discretion often requires the County to balance competing interests, and in doing so, the County's decision-making process involves:

- a. Evaluation: To weigh the potential impact decisions will have on other governmental entities, the County should evaluate the impacts upon affected communities. Decisions should be made by giving due consideration to the direct and indirect effects of such decisions, including the totality of the benefits and impacts of the decision on affected governmental entities.
- b. Framework Plan: Decisions should be made with due consideration to the objectives of the County's Framework Plan.

#### 3. Factors to Be Assessed Relating to Sewer Service Decisions:

The County is not a public utility, but it provides certain public services with the goal of enhancing the well-being of all Lake County residents. This goal is ordinarily achieved through the use of regional publicly owned wastewater treatment facilities. In decisions related to sewer service, the County should evaluate both direct and indirect effects from both a policy and practical perspective. The following factors, which are considerations and not strict requirements, include without limitation:

- Consistency with the Framework Plan
  - Consistency with relevant municipal plans
  - Available and committed capacity of system
  - Impact on County roads and other services
  - An applicant's reasons for preferring one solution over another, and reasons for that preference
  - Impact on other affected public bodies
  - Fiscal and related benefits
  - Level of support/opposition to proposal
  - Specific environmental concerns
  - Alternative proposals put forth by an applicant or governmental entity
- a. Trying to coordinate the concerns of affected governments is important to achieving the wise investment of public resources. This is increasingly important as development spreads throughout the County, because the actions of one community are more likely to affect other communities.
  - b. To better ensure that decisions are made based on understandable parameters, sewer service agreements and amendments to such agreements should ordinarily be based on specific limitations on the County's obligations to provide such services. Those limitations should be expressed in terms of capacity and, when appropriate, the nature of the development to be served. In addition, amendments to existing sewer service agreements should ordinarily be considered in the context of specific developments to be served.
  - c. Although past practices are important, the considerations and effects of sewer decisions are ever-evolving and cannot be made based on static models of precedent.
