

# Community Health Assessment and Community Health Improvement Plan

Mark Pfister

**Executive Director** 

# Mobilizing Action Through Planning and Partnerships (MAPP)

- Modified MAPP process
- Community-driven process to understand factors that impact health and assess the capacity of the public health system
- Develop strategies to address the root causes of health inequities
- Drives alignment between the Community Health Improvement Plan (CHIP) and LCHD/CHC strategic plan

#### **Community Health Assessment**

Modified MAPP Assessments

04

Live Well Lake County completed four modified MAPP assessments and used the data to determine CHIP priorities

Assessment

Community Health Status

### **Community Health Assessment**

Reviewing, Focusing, and Prioritizing
