5	Firm 5	2	3	3	3	3	14
KEY: CRITERIA							
A	<p>Organization Information: Demonstrated experience providing artificial intelligence training or related instruction to address industry and job seeker needs. Please provide your staffing plan, which includes roles and responsibilities, qualifications, relevant experience, resumes of key staff members, and organizational chart.</p>						
B	<p>Program Description: Clear and detailed program design, including all elements of the AI RFP's proposed scope of work, key requirements, and proposed services. Summarize how your approach supports Lake County Workforce Developments purpose and intent, while describing the technologies, platforms, or tools to be used or developed. Describe how you will utilize the 100 committed consultant hours. Identify expected business engagement strategies, case study development, and documentation of outcomes. Elaborate on how the research analysis and assessment report will be conducted and provided to workforce development prior to AI service integration services.</p>						
C	<p>Curriculum and Training Delivery: Describe the structure and content of: Foundational AI training modules (onsite and hybrid), Hand-on workshops, Train-the-trainer sessions, Micro-credentialing tracks. Please include estimated hours, delivery formats (live, hybrid, asynchronous), and instructional materials.</p>						
D	<p>AI Career Pathway Development: Outline approach to building and mapping career pathways in AI and emerging technologies. Include employer engagement strategy, credential stackability, and labor market alignment.</p>						
E	<p>Budget and Financial Management Plan: Provide monthly consulting fee as it pertains to the professional service agreement. Please also provide clear fiscal management plan detailing accounting procedures, accounting system, internal controls, auditing, compliance controls, and previous experience managing federal workforce development funds (if applicable).</p>						
F	<p>Performance Metrics & Training Outcomes: Defined measurable benchmarks, including AI-driven tools, foundational training modules, hands-on workshops, consultant hours, industry-relevant case studies, AI career pathway development, micro-credentialing, train-the-trainer models, and recorded instructional content. Provide a detailed timeline by quarter or month, indicating key milestones, deliverables, training cohorts, and evaluation periods.</p>
