Lake County Board

To whom it may concern,

I am writing in regards to the opening for a Trustee Position on the Lake County Public Water District. **The Lake County Public Water District presently provides drinking water to the City of Zion, the Village of Winthrop Harbor, and the State of Illinois Department of Natural Resources. (Illinois Beach State Park).**

I have found my time serving in this capacity to be both personally and professionally rewarding. I have found those that serve on this Board to be encouraging and of the highest ethical nature.

I am very eager and willing to continue to serve as a Trustee on this Board.

I still presently work for Lake County Public Works in the Engineering Division as a Lead Engineering Technician since Sept. 2012. My duties varies but my primary responsibility is the inspection of water/sewer connection and ensuring compliance. I also observe and inspect County wide Capital Projects.

I believe with the experience I have I can bring some unique expertise to this position.

References gladly provided if needed. Resume on file.

Patrick Walsh
