Public Works Director Peter Kolb presented the bond issuance schedule for Special Service Area (SSA) number 16. He indicated that Kevin McCann of Speer Financial is with them to answer any questions the Committee may have. Mr. Kolb stated that the objection period closes on October 14, 2013 and that 51 percent of the affected residents and voters are needed to prevent the formation of the SSA. While three residents were given the proper paperwork to file a legal objection, the County has not received any at this time. If the SSA is established in November, bonds are expected to be formalized on December 11, 2013. Mr. Kolb noted that the bond schedule is driven by the admissions agreement with Central Lake County Joint Action Water Agency (CLC JAWA) so there may be some fluctuation in timing.

Mr. Kolb stated that the County has gone out for a request for proposal for the competitive bond sale and a recommendation will be made by the end of the week. It was noted that if there is a delay in the sale of the bonds, there would also be a delay with the tax levy. Upon inquiry from Member Maine regarding the admissions agreement, Mr. Kolb stated that there needs to be a unanimous vote by all members of CLC JAWA to be admitted into the organization.

Members Thomson-Carter and Carey arrived at 8:45 a.m.

A brief discussion ensued regarding the Village of Wauconda's water situation. Member Thomson-Carter indicated that the Wauconda Board is looking at options in bringing Lake Michigan water to their community, noting that this is a health issue for residents of Wauconda. The county is required to provide annual financial statements in accordance with agreed upon procedures, as required by the wholesale contract agreements.

Mr. Friedl provided operating and revenue expenses for the three regions. Public Works Director Peter Kolb stated that the County is collecting sufficient funds on a wholesale basis to fund its operations. The retail sales portion is a separate matter and not related to wholesale. Concern was expressed by Member Maine that the southeast central region has a larger reserve in comparison to the other two regions. Nazer Udden of Public Works clarified that the northwest and northeast central systems have recently

replaced infrastructure. Mr. Kolb explained there the reserve in the southeast central region is slated for future capital improvement projects. The committee requested information identifying anomalies be included in future reports, such as the high reserve balance in the southeast central region.

7.8 [12-1231](#)

Director's Report - Public Works.

Public Works Director Peter Kolb indicated a video has been put together to explain the need, location, and the funding mechanism for the northwest regional excess flow facility. He indicated that the video has been provided to northwest municipalities and a link has been provided for the County Board members. In order to fund the excess flow facilities, municipalities will need to establish a \$1.50 surcharge on their sewer bills.
