MEMORANDUM

Date: February 15, 2024
To: RuthAnne Hall, Purchasing
From: Brenda O'Connell
Subject: Request for a Bid Exemption for the Contract with NICASA
Attachment: *NICASA Proposal*

Summary:

County Administration requests a "bid" exemption for a new contract with NICASA to Gambling Addiction Services

Background:

- On September 12, 2023, the Video Gaming Revenue Policy was amended to focus on funding timing, amount limits, and remove operating procedures.
- The revised Policy annually dedicated \$800,000 to the Video Gaming Fund beginning in FY24, with any excess revenue to be allocated to the General Fund. Funding was also set aside for the following specific activities: \$125,000 for 211 information and referral services, \$100,000 for community awareness and education of problem gambling; and \$100,000 for treatment services of gambling disorders. Award amounts do not receive annual increases.
- Community Development provides grant administration services to the Video Gaming Fund and monitors annual contracts that begin May 1st and end the April 30th of the following year.
- Community Development Administration is requesting a "bid" exemption for Gambling Addiction Services.
- There are no other entities in Lake County that are state-certified to provide clinical gambling intervention services to adolescents and adults to treat problem gambling behaviors and assist individuals with rebuilding a healthy life in recovery.
- Nicasa and Lake County have partnered since 2017 to utilize VGR funds for the provision of gambling addictions services.
- A sole source procurement request, as described under §33.066 of the Lake County Purchasing Ordinance, is a prudent choice for a new contract with NICASA.

Request:

Consideration of a "bid" exemption authorizing a new sole source contract with NICASA to provide Gambling Addiction Services in the amount of one hundred thousand dollars and no cents (\$100,000) based on: (1) adherence to County policy, (2) identified need for gambling addiction treatment, (3) longstanding history of providing quality gambling addiction services, and (4) a lack of competitors.
