A. INTENT

This RFP and Professional Services Agreement aims to address **school district** critical workforce gaps in the education industry, support talent systems approach for school districts, build education sector career pathways, strengthen student and family outcomes, while creating a resilient and inclusive education workforce rooted in the communities of Lake County. The purpose of this RFP is to expand parent mentor models for Lake County School Districts.

Lake County Workforce Development Board is proud to provide an opportunity for an institution to lead a transformative initiative that will support school districts, education industry demands, drive economic growth, and improve classroom engagement and outcomes across Lake County.

The selected institution will work in close collaboration with nonprofit agencies, educational systems, school districts, and community organizations to enhance and expand parent mentor models. This effort will align with broader goals of talent development within the education and care economy sectors, offering direct support to school districts and fostering stronger community ties.

Education is a Core Sector for Economic and Workforce Development:

- *High Demand:* Teacher shortages (especially in early childhood, bilingual, and special education) are ongoing in Illinois and nationally
- *Local Impact:* Lake County Schools are one of the largest employers in Lake County and K–12 education touches every community
- *Career Pathways:* A sector strategy can build ladders for paraprofessionals, aides, and Parent Mentors to become credentialed educators—addressing school district vacancies while systematically creating a feeder system of upskilled talent for the education sector.

School District and Educational Systems with Parent Mentor programming Are a Bridge Between Families, School Districts, and Economic Opportunity:

- *Trusted Community Members:* The Parent Mentor program builds and invest in long-term community and economic resilience
- *Cultural Brokers:* They help schools, and the education industry connect with multilingual and low-income families—fostering student engagement and academic success.

Parent Mentor Model aligns Workforce, Education, and Equity Goals:

- *Employment:* School districts hire from within communities to address position shortages, creating a homegrown talent pipeline for the education industry
- *Equity:* Integrating Parent Mentor programs into an education sector strategy, school districts and workforce system simultaneously empower local families as co-educators and leaders

School District Parent Mentor Programming allows Coordinated Investment with Strong Partnership Potential:

- *K–12 School Districts*: Need solutions to staffing challenges and student engagement.
- *Nonprofits*: Can coordinate Parent Mentor cohorts, on behalf of the school districts and educational system to foster improved student academic success, industry exposure to Parent Mentors, while creating a conduit to talent for school districts

B. LAKE COUNTY, ILLINOIS

Lake County is located in northeast Illinois, between the Chicago and Milwaukee metropolitan areas. Lake County is home to about 703,000 residents. Lake County is committed to open government and transparency, and the County board's conservative fiscal policies have allowed the County to maintain fiscal stability and achieve AAA bond rating from Standard & Poor's and Moody's. Lake County is governed by a 19-member board and managed by a County Administrator.

C. BACKGROUND

WIOA is a federal program funded through the U.S. Department of Labor (DOL) and administered by the State of Illinois Department of Commerce and Economic Opportunity (DCEO). WIOA is designed to help job seekers access employment, education, training, and supportive services needed to succeed in the labor market; and to match employers with the skilled workers they need to compete in the global economy. WIOA is the main source of federal funds for workforce development activities throughout the nation. WIOA funding, which is distributed to states and, subsequently, local workforce development boards (WDBs), is used to serve two primary customers: (1) businesses and (2) job seekers. Services are managed and provided by local entities, which must meet performance goals set by DOL, DCEO, and Lake County Workforce Development. The Lake County Workforce Development Board (LCWDB) provides oversight and policy direction for workforce development programming in Lake County. LCWDB is responsible for budgeting the Workforce Innovation and Opportunity Act (WIOA) Title I federal funds received by Lake County and ensures WIOA funds are spent on local workforce development programs and services to meet the needs of the youth, adults, dislocated workers, jobseekers/workers, and businesses throughout Lake County. LCWDB is committed to maintaining high fiduciary standards through the budgeting and oversight of federal funds.

WIOA was signed into law on July 22, 2014, and lays out priorities, possibilities, and requirements for program funds as part of the Act. The U.S. Department of Labor has issued Training and Employment Guidance Letter WIOA No. 19-16 to provide operating guidance for implementing the WIOA. More information from the U.S. Department of Labor on program areas is available at: <https://www.dol.gov/agencies/eta/program-areas/>.

Lake County's Education Landscape & Workforce and Family Needs:

Lake County, Illinois, the average salary for K-12 Teachers in Lake County is **\$69,446**, while the National Median Salary is **\$61,430**.

Lake County also has a Regional Office of Education that oversees 45 public schools, 27 private schools, and other educational entities. However, despite its economic significance, the sector faces key workforce challenges related to Skill Gap, Talent Pipeline, Student Impacts, and Family Centered approaches:

Skills Gaps and Recruitment Strategies:

School districts across Lake County are actively seeking innovative strategies to attract and retain qualified educators. These strategies include the development of teacher preparation pathways, expanded paraprofessional programming, and parent mentor initiatives that cultivate local talent pipelines and support school-based staffing needs.

Talent Pipeline Needs:

Illinois continues to experience a persistent teacher shortage, especially in critical areas such as Special Education, STEM (Science, Technology, Engineering, and Mathematics), and English as a Second Language/Bilingual Education (BLS, 2025). These shortages are contributing to significant workforce gaps and hindering the ability of districts to provide high-quality education to all students.

Impact on Students:

Teacher shortages disproportionately affect students in high-need areas, contributing to inequities in educational outcomes. The lack of qualified teachers in specialized subject areas can impede student achievement, particularly for vulnerable and underserved populations.

Family-Centered Approach Models:

A family-centered model—such as the Parent Mentor approach—offers a transformative strategy to support talent acquisition, strengthen community programming, and improve student success. This model recognizes families as equal partners in a child's educational journey, placing them at the center of learning and development. Parent mentors help bridge gaps between schools and communities, creating inclusive, culturally responsive learning environments and bolstering the overall success of both students and school districts.

Why a School District Sector Strategy for Education, which includes Parent Mentors?

Adopting a Sector Strategy for Education especially one that includes Parent Mentors is a strategic, equity-driven approach model for the Education Industry, School Districts, Workforce Development and Community.

The Parent Mentor Program supported by *Illinois Coalition for Immigrant and Refugee Rights (ICIRR)* (<https://www.icirr.org/programs-and-services>) and pioneered by Parent Engagement Institute (PEI) (<https://www.parentengagement.institute/research-evaluation>) has implemented this industry led approach through 44 Community-Based Organizations, 225 Schools, 38 School Districts, 1,660 Parent Mentors, 1,328 Teachers, while positively affecting 33,123 students. From this immersive classroom experience supported by weekly training on instructional practices and community organizing, the Parent Mentor Program cultivated a strong cohort of leaders at each partner school.

As a result, **369 ISBE Illinois paraprofessional and substitute licenses were earned** and **437 Parent Mentors have been hired**, 92% of children of parent mentors had graduated from high school, and of these graduates, 97% were attending, or graduated college. The Parent Mentor program can create a steppingstone to careers in education/school districts, social work, and the healthcare economy. Last year, more than 1 in 3 vacant jobs in our Illinois schools were paraprofessionals positions, an expansion of this School District model locally will create talent offerings to Lake County School Districts and the Education Industry as a whole.
