Address: 400 Field Drive Lake Forest, IL 60045  
Phone: 847-283-1010 Email: ksnoblin@trustmarkins.com

### Professional Background and Experience

In my role as Information Security Officer, I have led Trustmark's IT security organization since its inception in January 2008. I continue to serve as Corporate Security Officer and a member of the HIPAA Program Office where my responsibilities have included the creation of Trustmark's formal Information Security program, the development of a security risk management process and the facilitation of the adoption of security policies and procedures by Trustmark's business units. I serve as liaison to America's Health Insurance Plans (AHIP) for privacy, security and electronic transaction related issues.

I have 28 years of experience at Trustmark covering many aspects of claims operations and IT. From 1998 until 2003 when I began my HIPAA responsibilities, I was the IT manager for the Trustmark medical claims systems. From 1991 through 1998 I led the IT technical support area, which included management responsibilities for data security, systems programming and database administration. I began my career at Trustmark in 1984 as an application programmer and transitioned to systems programming in 1988. Prior to this, I had ten years of experience as an art museum exhibition designer and registrar. My educational background includes studies at the University of Chicago and Northwestern University. I hold the CISM certification from ISACA, the GSLC certification from GIAC as well as numerous profession designations from AHIP and LOMA.

### Community Involvement

I have lived with my wife and family in Knollwood for the past 25 years. Both of our children attended Lake Bluff elementary schools and graduated from Lake Forest High School. I'm involved in grass roots

politics and community organizations particularly those involved with education. From 1997-2001 I served as the area leader for Knollwood on the Lake Bluff School Caucus. I was on the board of directors of the Alliance For Excellence, the Lake Bluff District 65 educational foundation, from 2000-2007 and served as both president and vice president during my tenure. In 2007, I served on the Lake Bluff District 65 Strategic Plan Committee. Since 2010, I have been the treasurer for Knollwood Neighbors, a community organization serving the residents of unincorporated Knollwood.
