

Sam Barhoumeh serves as founder and managing partner and has over 25 years of experience in business leadership and advisory support with demonstrated proficiency in infrastructure and cloud technology solutions supporting SMB to enterprise businesses. Mr. Barhoumeh oversees Ready Networks LLC, a technology advisory practice focused on Digital Transformation, Technology services, support, and security management. Ready Networks has teams located in the U.S., Dubai, India, and Singapore, supporting clients worldwide, and currently holds Microsoft Global Gold Cloud Partner and Tier 1 status.

Mr. Barhoumeh has diverse experience in all phases of the technology project and business life cycle management, with a technical emphasis on business workflow planning, implementation, and administration. He is a current council member and former Ingram Micro's Business Alliance group board chair, supporting partners and driving strategic transformation through technology channel initiatives. This community consists of 300 partners influencing over \$1.5 billion in combined revenue for the global distributor.

Before starting ReadyNetworks, Mr. Barhoumeh designed and implemented complex worldwide networks for numerous companies, including Red Lobster, Public Sector clients, GoHealth, Blue Cross Blue Shield, The Chicago Fire MLS team, The Chicago Transit Authority (CTA), US Sprint, among others.

Mr. Barhoumeh received a Bachelor of Arts degree in Computer Information Systems and holds multiple industry-recognized certifications. He frequently speaks as a subject matter expert in cloud technology solutions for Ingram Micro, *ChannelPro* magazine, and other related channel publications.
