Lake County CDBG  
18 N. County Street  
Waukegan, IL 60085

Dear Friends,

On behalf of the Board of Directors, staff, advocates, and most of all, the abused and neglected children to whom we provide services, I would like to thank you for your grant of \$6000 in support of CASA.

By supporting the work of CASA, you are helping to ensure that the most vulnerable members of our community, abused and neglected children, are placed in appropriate homes, receive the services they need to thrive, and attain permanency.

Last year alone, 527 abused and neglected children, who, through no fault of their own found themselves lost in the juvenile court system, received advocacy services from our team of dedicated, committed Court Appointed Special Advocates.

Unfortunately, there are still more children waiting for our help. It is our goal to be able to provide a powerful voice in court for every abused and neglected child in Lake County. Support from you enables us to recruit and train new volunteers, and supervise all of our volunteer advocates and we are extremely grateful.

Sincerely,

Terri Z. Greenberg  
Executive Director

Mr. Rose,  
I am writing in support of the 2013 CDBG Annual Action Plan Draft, which gives an initial positive recommendation to fund ElderCARE@ChristChurch.

ElderCARE makes a positive difference in the lives of many older adults who live in northern Lake County. Their volunteers are part of what make Lake County a good place to grow old. I personally have referred clients, contacts, etc., to Mary Ellen and Jill, and **have nothing but appreciation for them and the ElderCare Program.**

Their direct services are provided FREE of charge. This funding will play an important role in keeping its services available to the low-income elders, who so greatly need them.

Thank you again for the initial positive funding recommendation, which I strongly support becoming fully approved and final.

Sincerely,

A handwritten signature in black ink, which appears to read "Gerald P. Crews", is written over the typed name.

Dear Mr. Rose

I am writing in support of the 2013 CBDG Annual Action Plan Draft, which gives an initial positive recommendation to fund ElderCARE@ ChristChurch.

ElderCARE makes a positive difference in the lives of many older adults who reside in northern Lake County. I have been a volunteer for the past several years, and can personally attest to how much ElderCARE means to our clients. Most recently, I drove a lady to her doctor appointment, and she nearly cried she was so thankful for the service. She also told me that a cab ride to another doctor used to cost her \$60 roundtrip until she learned about ElderCARE.

Since all of ElderCARE direct services are provided FREE of charge, the funding will play an important role in keeping these services available to the low-income elders who so greatly need them.

Thank you again for the initial positive funding recommendation, which I strongly urge becoming fully approved and final.

George D Merrill

To Whom It May Concern:

I am writing in support of the 2013 CDBG Annual Action Plan Draft, which gives an initial positive recommendation to fund ElderCARE@ChristChurch.

ElderCARE makes a positive difference in the lives of many older adults who live in northern Lake County. Their volunteers are part of what make Lake County a good place to grow old.

All of their direct services are provided FREE of charge. This funding will play an important role in keeping its services available to the low-income elders, who so greatly need them.

I am currently an ElderCARE volunteer myself. I have seen first hand what a difference it makes to elders to have someone they can count on to lend a helping hand. Many of them do not have anyone else to call upon for a ride or assistance shopping. I think I benefit even more than they do just by getting to know our warm, friendly seniors. I consider it a blessing to be able to help them.

Thank you again for the initial positive funding recommendation, which I strongly support becoming fully approved and final.

Sincerely,

A handwritten signature in cursive script, reading 'Nancy Blazis', is written below the word 'Sincerely,'.

January 22, 2013

Ray Rose, Chairman  
Lake County Community Development Commission  
500 West Winchester Road Unit 101  
Libertyville, IL 60048

Dear Mr. Rose:

ElderCARE is pleased to learn that it has received an initial positive funding recommendation of \$16,250 from the Lake County CDBG Public Service funding. We are thankful for this financial help in serving the more mature residents of Lake County who are no longer able to drive and have very limited financial and personal resources.

The demand for our services remains strong both in terms of numbers of applicants and volume of services provided. In each of the last five years, we have added on average 66 new care receivers and provided over 1,000 escorted round trips to medical appointments. The great majority of those we serve tell us that we are their only reasonable means of getting to medical appointments. For older adults with chronic illnesses, regular medical follow up is often the key to continuing to live independently.

We understand that this is an initial recommendation and that actual amounts may vary depending on public comment and the actual federal allocation of funds to Lake County. However, we are thankful to have received an initial positive funding recommendation.

Thank you again for this good news!

Sincerely,

Mary Ellen Saunders

**There are no great acts of love, only small acts of great love. ~ Mother Teresa**

## Brief Summary of Care Receiver Evaluations 2012

### Care Receiver Evaluations

#### *Escorted Transportation to Medical Appointments – summer 2012 by phone*

- **94% indicated that they had no other reasonable way to get to medical appointments.**
- 98% indicated that this service helped them feel more connected with their health care providers. While simply having/keeping medical appointments is not associated with better health outcomes, having good relationships with healthcare providers is. Feeling more connected to their health care providers is a significant step towards developing a good relationship with their providers.
- **96.5% said this service contributed to their being able to live independently.**
- 100% were overall satisfied with the service.

#### *Grocery Shopping and Friendly Visitor – summer 2012 by phone*

- 100% indicated that these services helped them have a healthy diet and/or helped them feel better. For the great majority, our volunteers are their only means of getting groceries or of having a regular visitor/contact with a friend.
- Does this service contribute to your being able to live independently?
  - Have a Grocery Shopper – 100% said a resounding YES!
  - Receiving Friendly Visits – 100% said yes!

#### *A sampling of elders comments regarding the difference ElderCARE's services make in their life follows.*

##### Regarding Transportation:

- Comfortable rides, no wait to be picked up, people are wonderful. Was in a lot of pain, so comfort was important.
- Wonderful volunteers – would like to steal one!
- live alone I'm 93. It's a big help to know I can get to my doctors when I need to.
- Would have had to go to a nursing home.
- Money savings. Very prompt, never late or too early. The friendship & conversation is great.
- Feels so good to know someone takes you and waits for you. Very few family around, all gone. One son in WI, one in TX, one local but works crazy hours.
- Don't have to worry about being late. They are on time, sometimes make extra stops on way home. Really mean a lot to me, especially when I can't use public transportation to get to my doctors.
- Volunteers go in with me to see the doctor to take notes because I am so very hard of hearing.
- They take me, very nice, can talk to them. When something's not feeling right, they talk to me and are very comforting.
- Helped me manage. Confident that Mom could get to dialysis. (spoken by daughter of Spanish only speaking mom, who was working and caring for own children as well as her mom.)

##### Regarding Friendly Visitors:

- Connects me with outside world
- We tell each other our troubles...have friend to talk. (2 care receivers who provide each other phone reassurance).
- Walks with me. Family doesn't live close by so just having a visitor means a lot. Lives alone
- I wait for her to come, someone to talk to, a companion. Ask her advice. She will do little errands for me; it's great.
- I'm a 24/7 caregiver, so this gives me relief! (spoken by daughter)
- Couldn't be more satisfied. Would be climbing the walls without her visits.
- Very nice lady. Couldn't be better. Keeps me in touch with things, we discuss things, sometimes go on a walk.

##### Regarding Grocery Shopping:

- Life is so much easier...have so many health problems can't walk far... COPD, CHF, neuropathy.
- Daughter had major surgery and is unable to do it. Very helpful in many ways.
- Chance to get more fruit & vegetables. Bag gets heavy fast, so volunteer gets all my heavy stuff.
- Don't have to worry about running out of food. A pleasure knowing someone is there. Couldn't ask for a nicer person.
- Able to get groceries more frequently. Able to get fruits, cat food. Things that might not be relevant to some people mean a lot to me.
- ...BIG difference! My husband can't see; I'm in a wheelchair.

ElderCARE's volunteer services provide a safety net that helps Lake County's elders continue to live independently.

**Sent:** Tuesday, February 12, 2013 8:21 AM  
**To:** Community Development  
**Subject:** Elder Care of Waukegan

Hello

For more than four years, I have worked as a volunteer with ElderCare of Waukegan assisting elder people and have been able to see that they provide a valuable service to the older community. I am now writing in support of the 2013 CDBG Annual Action Plan Draft, which gives an initial positive recommendation to fund ElderCARE@ChristChurch.

ElderCARE makes a positive difference in the lives of many older adults who live in northern Lake County and the volunteers are part of what make Lake County a good place to grow old.

All of their direct services are provided FREE of charge. This funding will play an important role in keeping its services available to the low-income elders, who so greatly need them.

No doubt there are many good agencies in Lake County but Elder Care does provide very good services.

Thank you again for the initial positive funding recommendation, which I strongly support becoming fully approved and final.

Sincerely,

Fred Walcott

Libertyville, IL 60048

Dear Chairman Rose and Commission Members:

I am writing in support of the 2013 CDBG Annual Action Plan Draft, which gives an initial positive recommendation to fund ElderCARE@ChristChurch. This funding will play an important role in keeping its services available to the low-income elders, who so greatly need them.

I am a grocery shopper for ElderCARE, which means that every other Saturday I go to the senior housing facility in Grayslake to meet with my assigned client. She goes over her grocery list with me and then I go to the store and get her groceries and return with them. Sometimes I run additional errands for her at the post office or the hardware store. I know that she sometimes works with other ElderCARE volunteers who serve as drivers to take clients to medical appointments. Because ElderCARE provides trained volunteers to conduct these services, my client is able to continue living independently in an apartment.

Thank you for the initial positive funding recommendation. Please approve it fully.

Sincerely,

Hilary Ward Schnadt

Re: **Support of Community Development Block Grant Funding**

Dear Chairman Lawlor and Community Development Commissioners:

This is the Christian Faith Fellowship Church- Food Pantry located at 1727 27<sup>th</sup> Street, Zion, IL. This letter is being submitted on behalf of Northern Illinois Food Bank who is the supplier for our food bank and others in the Lake County area. We stand in agreement that it would be a great benefit for them to receive the Community Development Block Grant Funding.

This support will directly impact Christian Faith Fellowship Church- Food Pantry and the Lake County residents we serve each week. We have a greater need than the food that we currently receive from the food bank.

This grant will provide our pantry and six other food pantries serving hungry people in Lake County, with nutritious foods that our hungry neighbors request most, and thus are difficult for us to keep an ample supply, such foods as: cereal, canned fruit, rice and beans, baby foods, diapers-things which are high in demand.

Thank you in advance for hearing our heart and need,

Craig Mason/Administrator  
Christian Faith Fellowship Church

February 8<sup>th</sup>, 2013

Aaron Lawlor, Chairman  
Lake County Community Development Commission  
500 West Winchester Road, Unit 101  
Libertyville, IL 60048

Dear Chairman Lawlor and Community Development Commissioners:

As Director of Abiding Love Food Pantry, I see the great needs in the Zion area. People are struggling to keep their rent paid and food on their tables. I have seen a lot of new people over the past year and continue to get calls daily, inquiring about our food pantry. The need is great for nutritious and wholesome food. Items like milk, cereal, canned meat and fruit, beans etc. are hard for us to continually distribute because of the cost. The Northern Illinois Food Bank has been a great partner with us. They continue to find new ways to help us serve the people of our area. We could not continue to feed over 300 households each week, without their help.

Please consider Lake Co. and Abiding Love Food Pantry for the Community Development Block Grant funding. This area of Lake Co. has a much higher unemployment rate than the national average. The people who are employed, have suffered greatly reduced wages, and continue to have great need. Thank you for your time and consideration. If you should have any questions please do not hesitate to contact me. I can be reached in the church office at 847.872.3541.

Sincerely,

Connie Eklund

Director-Abiding Love Food Pantry

**Subject:** Support Northern Illinois Food Bank's CDBG Request

Feb 5, 2013

Chairman Aaron Lawlor

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mrs. Laura Joyce

Society of St. Vincent de Paul  
At St. Francis de Sales Parish  
135 S. Buesching Rd  
Lake Zurich IL 60047

February 5, 2013

Aaron Lawlor, Chairman  
Lake County Community Development Commission  
500 W Winchester Rd Ste 101  
Libertyville, IL 60048-1371

Dear Chairman Lawlor and Community Development Commissioners:

I am the Co-Chairperson of the Anti-Hunger Ministry of the Society of St. Vincent de Paul at St. Francis de Sales Parish in Lake Zurich. I am writing to ask for your support of the request from Northern Illinois Food Bank for Community Development Block Grant funding. This funding will directly support the St. Vincent de Paul Food Pantry that serves all of the residents of Lake County and six other food pantries that are also helping to provide food for hungry neighbors. Although we are located in Ela Township in the southwestern corner of the county, our clients come from all of the county's townships because we are one of the few food pantries that is open to the entire county, because we are open in the evening to accommodate low income earners and because we allow our clients to come for food every week.

The generous food donations we received for Thanksgiving and Christmas are now gone so we are again in the difficult position of trying to provide almost 20,000 meals to less fortunate neighbors every month. About 8,000 of those meals are for children and 1,200 for senior citizens. Staples such as cereal, canned fruit, dried beans and rice are in short supply. Although some of these foods and others are available at a deep discount on the Northern Illinois Food Bank shopping list, our ability to purchase them is limited by our limited funds.

As you may imagine, the economic conditions of the last few years have created more families who need help. Our pantry is now seeing clients from the affluent communities of Kildeer, Hawthorn Woods and Long Grove along with the less affluent communities from surrounding

The Society of St. Vincent de Paul is recognized by the Internal Revenue Service as a 501(c)3 organization FEIN 36-3195567. We do not provide goods or services in exchange for donations.

townships. Funding from the Community Development Block Grant would go a long way to help us provide for these unfortunate neighbors. Please keep them in mind when you consider my request for your support.

I have mentioned the Northern Illinois Food Bank several times because without them, we would most certainly not be able to effectively continue our mission to fight hunger. We rely on Northern Illinois Food Bank for more than just food. They are an important and cooperative and supportive partner that has enabled us to increase our capacity to help more neighbors.

Peace be with you,

A handwritten signature in blue ink that reads "James Westney". The signature is fluid and cursive, with a large, sweeping flourish at the end.

Re: 2013 CDBG – Mano a Mano Family Resource Center

Dear Mr. Rose:

I have been a member of the Board of Directors of Mano a Mano Family Resource Center for only a short while, but I can tell you with a great degree of certainty the positive impact that Mano a Mano has within the Latino community. Therefore, I am writing in support of the 2013 CDBG Annual Action Plan Draft, which I understand has given an initial positive recommendation to fund Mano a Mano Family Resource Center.

Mano a Mano's impact is significant, serving over 4,000 individuals each year. Their services help people to find and access healthcare, find resources to help when they don't know where or how to seek help, break down language barriers and most importantly, have a sense that they are not alone in the world.

All Mano a Mano services are provided free of charge. Funding through the 2013 CDBG will play an important role in keeping Mano a Mano's services available to the low-income limited-English proficient community members who so desperately need their help.

Thank you for the initial positive funding recommendation and please accept this letter strongly supporting the initial recommendation becoming fully approved and final.

Sincerely,

James B. Kinney  
President/CEO

Re: Mano a Mano

Dear Mr. Rose:

Please accept this letter in support of the 2013 CDBG Annual Action Plan Draft and specifically, its positive recommendation to fund Mano a Mano Family Resource Center.

Mano a Mano provides critical services in my community that are not offered by any other entity. Mano a Mano serves over 4,000 individuals every year. Because of Mano a Mano's efforts, these individuals are able to access healthcare, job training and resources, language courses and more. All of this is offered by Mano a Mano at no cost. Without Mano a Mano these people would not receive these essential services.

Funding provided by the Lake County Community Development Commission will help keep these services available to Mano a Mano's underserved and low income clients. These people depend on these services and have no other source to turn to for this support.

Thank you for the Initial positive funding recommendation. I hope draft plan is approved.

Sincerely,

# Mano a Mano Family Resource Center

*"The Mission of Mano a Mano is to empower immigrant and underserved families of Lake County to become full participants in American life by providing quality programs and services that educate and establish links to essential community resources. Our mission is sustained by our respect for human dignity and our belief in the equality of all people."*

February 7, 2013

Ray Rose, Chair, Community Development Commission  
Lake County Community Development Division  
500 W. Winchester Road Unit 101  
Libertyville, IL 60048

Dear Mr. Rose:

Mano a Mano is very thankful to have received an initial positive funding recommendation of \$18,750 from the Lake County CDBG Public Service funding. Each year, over 1,600 low-income individuals are served through Mano a Mano's Information and Referral program. Our program's comprehensive case management and information and referral services work to promote security of family and social stability. They help to ensure that low- and moderate income individuals and families with limited English proficiency have the ability to access the community services they need in order to not just survive but thrive in their new community. While Mano a Mano serves primarily Latino immigrants, the struggling economy has caused an increasing number of non-immigrants to turn to us for assistance as well.

Our programs help the poorest of the poor in the area. The individuals served last fiscal year had an approximate average income of \$21,600 with an average family size of 4. Over 90% are Latino with very limited English proficiency. The great majority have completed less than 8 years of formal schooling.

Our Information & Referral program helps them have the support research has shown will enable them to break out of poverty. They receive answers to questions, find other sources of help and have access to the benefits, such as AllKids, SNAP, and Medicaid. Many say that they do not know they would do without our help. With the support of our Information and Referral program, adults can focus on learning English, gaining computer skills and obtaining a GED; their children can focus on their school work enabling communities to move out of poverty one family at a time.

Thank you again for taking the time to review our application and the initial positive funding recommendation. We hope that for the benefit of our community, his decision will become final.

Sincerely,

Carolina Duque  
Executive Director

## Community Development

**LAKE COUNTY CENTER FOR INDEPENDENT LIVING**

---

Ray Rhodes, Chair  
Community Development Commission  
500 W. Winchester Road, Unit 101  
Libertyville, IL 60048

Dear Chairperson Rhodes and Commissioners:

I would like to thank you on behalf of the consumers and staff at Lake County Center for Independent Living (LCCIL) for the funding recommendation for our Employment Readiness program. LCCIL served over one hundred people last year by providing job skills, interviewing experience, and education on employment rights for people with disabilities.

LCCIL is unique in that we serve all people with disabilities in our employment programs as well as strengthen self-advocacy skills through peer support. Only 21% of working age people with disabilities are in the labor force. Many people with disabilities want to work but encounter attitudinal, physical, and other barriers. We also know that a lack of expectations and knowledge about employment options lead to this staggering lack of employment. LCCIL's Employment Readiness program addresses these issues and equips people with disabilities to be successful in the workplace.

With this acquired knowledge, confidence, and persistence we know that individuals with disabilities will be successful in their job search and that we are there to assist them along the way. Again, we thank you for the award recommendation and look forward to continuing to provide these much needed services.

Sincerely:

Allison Lourash, MPA

Director of Youth & Vocational Services

Jan 31, 2013

Chairman Aaron Lawlor  
500 W. Winchester Rd. Unit 101  
Libertyville, IL 60048

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Ms. Karin Touve

Chairman Aaron Lawlor  
500 W. Winchester Rd. Unit 101  
Libertyville, IL 60048

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mr. Steve Haar  
6959 Revere Ct  
Gurnee, IL 60031-4056

Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mrs. Lisa Panka

It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Ms. Barb Mikeska

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. Chairman Aaron Lawlor  
500 W. Winchester Rd. Unit 101  
Libertyville, IL 60048

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's BackPack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Ms. Joy Meade  
309 Dodson St  
Geneva, IL 60134-2307

Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's BackPack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Ms. Leslie Herzog

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mrs. Kathryn Pariza  
43323 N Oak Crest Ln  
Zion, IL 60099-9413

Libertyville, IL 60048

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Jan 31, 2013

Chairman Aaron Lawlor  
500 W. Winchester Rd. Unit 101  
Libertyville, IL 60048

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mr. William Deevy  
26060 W Scott Rd  
North Barrington, IL 60010-5918

Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Ms. Margie Ayers

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mr. Michael Rogan  
1500 W Kennedy Rd  
Lake Forest, IL 60045-1047

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Feb 1, 2013

Chairman Aaron Lawlor  
500 W. Winchester Rd. Unit 101  
Libertyville, IL 60048

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mrs. Lisa Alexoff  
34097 N Homestead Rd  
Gurnee, IL 60031-4204

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mr. Thomas Martin  
33250 N Gagewood Ln  
Grayslake, IL 60030-1804

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mr. Cisco Rivera

Libertyville, IL 60048

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mr. James Mattikow

While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mrs. Charlotte Whittington

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Sincerely,

Mrs. LINDA KENNETT  
665 Mawman Ave  
Lake Bluff, IL 60044-2005

Libertyville, IL 60048

Dear Chairman Lawlor,

I am writing to encourage your backing of Northern Illinois Food Bank's request for Community Development Block Grant (CDBG) funding to help feed hungry neighbors in Lake County.

Northern Illinois Food Bank is doing tremendous work in Lake County to provide food to our residents in need. Its partnership with local food pantries strengthens our county's response to a critical issue facing 11 percent of our population and 1 in 5 of our children: hunger. While it's difficult to believe, the reality is that 36,750 kids in Lake County will face hunger at some point this year. Northern Illinois Food Bank, through its partnership with local feeding programs and through its own direct distribution to children, and seniors, is making a difference.

Northern Illinois Food Bank cares about our community, as evidenced in the remarkable growth in the organization's Backpack Program which provides a weekend's supply of nutritious food for up to three children through school partnerships. This program has grown from providing food to children at 19 schools last school year to 26 schools this year, serving a total 569 kids each week.

Providing nutritious food for our hungry neighbors is a key priority for the food bank. It works with local retailers for donations of fresh produce; seeks out corporate and foundation sponsorship of healthy food initiatives, such as their Foods To Encourage program that provides healthy options for its network partners; and purchases most-needed nutritious foods to ensure such products are available.

The food bank's CDBG request will allow the food bank to provide more food to Lake County residents in need through its network of emergency food pantries. The food provided through the grant will be items the pantries have told the food bank their hungry neighbors request the most, and that the pantry has the hardest time keeping on the shelf.

Our local food pantries have seen exponential growth in the number of people needing assistance. And, all indications are that things are not getting better; the need is continuing to increase. Funding Northern Illinois Food Bank allows seven local pantries to benefit from combined buying power, and thousands of hungry Lake County residents to go to bed with a full belly.

I support Northern Illinois Food Bank and the work it's doing to ensure no one goes hungry in Lake County. Please share these sentiments with the rest of the Community Development commissioners. I encourage the commission to approve the food bank's CDBG request.

Mr. Ray Rose, Chairman  
Community Development Commission  
500 West Winchester Road, Unit 101  
Libertyville, IL 60048

RE: Lake County CDBG Public Service initial funding recommendations

Dear Mr. Rose,

Thank you for the opportunity to submit comments regarding the initial recommendations for Lake County CDBG Public Service funding. As the President of the Board of Directors of COOL Ministries, I am requesting reconsideration of COOL's score and the resulting zero funding recommendation for the 2013 program year.

Our Goal category is 3.2.1 – Basic Food & Nutrition Needs (there seems to be some errors in the Goals column of the 2013 Applications Recommendations Table we received). Of particular concern are COOL's scores in the 'Community Need' and 'Lake County Impact' categories.

Let me be clear: the primary activity of COOL Ministries is the operation of our two food pantries in Waukegan and Ingleside. We also operate a family housing program for families with children who have become homeless, and we consider this program quite important. But COOL's first program in 1983 was a food pantry, and serving our pantry clientele remains our number one focus in time, energy and finances. We are committed to providing not just food, but nutritious and balanced meals; we provide four days worth of breakfast, lunch and dinner for each member of a household, including specialty foods for those with food allergies and those requiring cardiac or diabetic diets. Under Goal 3.2.1, the need described includes both reducing food insecurity *and* improving healthy eating.

The CDBG grants are awarded under the details of the five-year Consolidated Plan, and COOL also operates using a five-year Strategic Plan. While each of our

pantries serve residents from anywhere in Lake County, we recognize that our pantries are located in the northern half of the county (Waukegan in the northeast and Ingleside in the northwest). One element of our strategic plan is to open a third pantry geographically located in the southern half of the county. However, before we take this step we must be assured that we can fully provide for the needs at our existing pantries – and those needs have grown dramatically over each of the last few years.

In 2011, the COOL Food Pantries served a record number of people and meals: 39,709 persons with food enough for 476,508 meals. In 2012, our pantries served 59,109 persons providing more than 709,000 meals. We broke our 2011 records by early September, and set a record for a single month by serving over 6,000 persons in October. The growth in need for food assistance is both dramatic and continuing at a high rate, as demonstrated by our numbers served since 2007:

**Persons served by year:** 26,650 in 2007; 28,497 in 2008; 37,877 in 2009; 37,578 in 2010; 39,709 in 2011; and 59,109 in 2012. **Note:** the “Five-Year Measurable Goal” of the Consolidated Plan calls for serving the basic food and nutrition needs of 100,000 Lake County residents. The COOL Food Pantries nearly met that goal in 2011 & 2012 alone (98,818).

In 2012, the COOL Food Pantries had an increase in persons served of 48.8% over 2011 – a difference of 19,400 more people! There was a huge increase in the amount of food COOL distributed in 2012 as well. In fact, 404,643 more pounds of food were distributed in 2012 as compared to 2011. This represents an increase in food issued of more than 98% over the prior year. In other words, in 2012 COOL

managed to feed more people than ever before and at the same time gave our visitors more food with every visit than in previous years.

One of the reasons we have thus far been able to keep up with the increased demands is our strategic partnerships – in particular our partnership with the Northern Illinois Food Bank. We have been chosen by them to receive donated bakery and produce items directly from retailers in our areas, rather than it going to their warehouses and being redistributed. This arrangement gets fresher, healthier food products into the hands of our guests, minimizes spoilage, and also minimizes the costs for both organizations. We have great respect for what NIFB does, and a tremendous working relationship with them. However, we are confused by the fact that an organization working to serve the same goals as COOL was recommended for an award when we were not.

I think it is important to point out two facts in this regard. First, the COOL Food Pantries directly assist those individuals in need. Providing basic food and nutritional support for families in need is our principal purpose. By contrast, for all their wonderful work, no individual in need can go to the NIFB and receive direct assistance.

Second, despite the donations of food from churches, food drives, and even from retailers, COOL still must purchase a great deal of food (especially meat) in order to distribute balanced meals. The vast majority of this food is purchased from NIFB. Therefore, of any CDBG money granted to the COOL pantries, a large portion would benefit not only COOL but also indirectly NIFB since it would be used to purchase food from them. On the other hand, grants to NIFB would not provide any traceable benefit to COOL's pantries.

Martin Luther King, Jr. once said, "Life's most persistent and urgent question is, 'What are you doing for others?'" At COOL Ministries, we feed the hungry and assist families in need. We respectfully ask you to reconsider the recommended award for COOL, and grant us funding to assist the low- and moderate-income residents of Lake County meet their basic food and nutrition needs.

Best regards,

Kenneth L. Swanson, President  
COOL Ministries (Christian Outreach of Lutherans)

Draft 2013 Annual Action Plan  
Public Comment  
Highland Park Community Nursery School & Day Care Center

Dear Lake County Community Development:

On behalf of Highland Park Community Nursery School & Day Care Center I am submitting this written public comment for reconsideration of our request for funding. We had requested funding under 3.3.3 Security of Family and Social Stability.

When considering our request it seemed the fact that we are located in Highland Park was a detriment to our efforts to secure funding. At the review of our proposal it was mentioned we needed to serve a larger population. The number of clients we serve is mandated by the Department of Children and Family Services. If we have openings, we serve families and children on a first come first served basis. While we continue to, and have had a continuous waiting list for the past 20 years attests to the fact that a need exists in our community for affordable care for low income working families. A majority of our clients live and/or work in Highwood (population 5,405; 56.9% Hispanic) in service industry jobs that are low paying. About 80.3% of Highwood residents work in the service industry. Because these are minimum wage jobs, parents cannot afford to pay the actual cost of care whether it is provided in Highland Park, Round Lake or Waukegan. The location of the center should not interfere with the fact there is an extreme need for services by the very residents the Community Development Block Grant was intended to serve.

Highland Park and Highwood are part of the Lake County service area. We provide much needed services to the Lake County community and improve the livelihoods of its residents. Families who have used our services have been able to move out of low paying service jobs to start their own businesses with the skills they have acquired, and send their children to college who are now a vital economic presence in the County. Childcare services enable parents to work to improve their economic situations while at the same time prepares their children for academic success that leads to economic security.

By serving a economically diverse population, mentoring of our clients is possible, thus expanding what they think they are capable of and how to accomplish these goals. With this awareness, parents come to believe their children can attend college and have a better and brighter future. Without this diversity, families may not be aware of all the possibilities and the potential for growth that exists. As a first generation college student myself who was raised from a poor working family, I speak to you from personal experience and hope that you will reconsider our request.

I also invite you to visit our program to experience the collaboration that takes place between families and our communities.

Sincerely,  
Lisa Adelmund,

A handwritten signature in black ink, which appears to read 'Lisa Adelmund', is written over the typed name.

Brenda, I had trouble e-mailing and want to make sure your get this. This is our comments to the CDC Lake County portion of the CDC Annual Action Plan.

What I didn't mention in the e-mail is that I was able to view the action plan on line because it as for an ID and password. I really think this should be corrected to give the public time to review the plan and comment if they so desire.

Thanks,

Bob

Subject: Written Comments for Lake County's portion of the CDC Annual Action Plan

Brenda:

Below is Youth Conservation Corps (YCC) written comments to CDC Lake County's portion of the CDC Annual Action Plan

Brenda O'Connell  
Interim Community Development Administrator  
County of Lake

On December 6, 2012, I attended the CDC Application Review Committee - Public Service Meeting to determine funding to human service agencies serving Lake County Citizens. Youth Conservation Corps had applied for a grant under CDBG Public Service funds.

This is what I observed:

Only two members of what I believe was a committee of five should up for the meeting. I wondered why the staff continued the committee meeting, because I believe there was not a quorum of the committee. As the committee progress, staff told the committee they had \$270,000 to distribute to various programs. Staff then summarized the grant requests, and committee members followed along with their binder of what I assumed was the full grants. The committee then deliberated for 30 minutes and talked softly among them selves and flipped through their binders and scored each grant. If the committee did not read the grants before the committee meeting, I feel this was not sufficient time to evaluate the 27 grants submitted. The Staff then put a spread sheet from last year up on the screen and up dated the 27 applications and the total funding ask for and the scoring the committee had just done. Youth Conservation Corps received 158.00 points and was closely grouped (similar scores) with three other programs. There was various tries at spreading the funding to the top scores including full funding and % of funding. The committee seem to think that programs ask for all that they would need to run the program and made this a part of their decision making process, which I find is not true most agencies because of low CDBG funding look at this fund as part of funding and apply at various organization to complete the funding of a program. The committee seem interested in funding the next group of scores that Youth Conservation Corps and YouthBuild of Lake County were both in, but never cut the funding of the programs above in order to allow funding of the next group. When all was done the committee had used approximately \$240,000. They did not consider dividing up the excess \$30,000 to the next group that could use any amount to help to develop their programs.

Youth Conservation Corps (YCC) and YouthBuild of Lake County serve disadvantage young adults 16 - 24 years old. This population includes 85% high school drop outs, 50% ex-offenders, 5% to 50% single parents and most students come from three generations of poverty. Although we serve all of Lake County the average high school drop rate of the communities of poverty (North Chicago, Waukegan, Zion Round Lake area and Mundelein) that we serve have a high school drop out rate of over or close to 50%. Yet YCC only received 25 out of 30 points for need and I would challenge the other scores that we got so quickly too.

I would like the Lake County Consortium at their February 27 meeting to reconsider using the extra funds \$30,000 that they didn't use to fund the next group of scores (four I believe) by dividing that amount by the number in that group. or reconsider the amounts to the other programs to provide overall funding to more programs with less funds. In these economic time with the State of Illinois owing eight billion dollars, Lake County Nonprofits need any amount of funds to help us to continue serving the needy in Lake County I know this would help YCC and YouthBuild of Lake County with our programming.

Thank you for your and the CDC's consideration.

Sincerely,

Bob McCammon  
Executive Director  
Youth Conservation Corps

Re: Lake County Draft 2013 Annual Action Plan  
CDBG Public Infrastructure Improvements Recommendations  
Public Comment on behalf of the Village of Beach Park

Dear Commissioners:

Thank you for the opportunity to present our statement at the Public Hearing held on January 23, 2013 and to provide additional information to further support our request via this written document. We respectfully request the Commission's reconsideration of the Village of Beach Park's application for CDBG funding for the Village's proposed roadway improvement project.

We sincerely appreciate the thought and effort that you and the County staff devote to evaluating the applications received and allocating the available CDBG funds.

Based on staff's evaluation, the Village of Beach Park's application was ranked 16<sup>th</sup> of the twenty-two public infrastructure applications received. The Draft Plan includes a funding allocation for the top ranked fifteen applicants. The Village of Beach Park's application received a rating of 61.5, only 2.5 points below the three preceding applications which were tied with a score of 64 points. We are providing herein supplemental information not readily apparent in our application or the summary ranking that specifically addresses rating criteria identified by the Commission.

**1. Applicant's capacity and experience in administering an activity in an efficient and timely manner or in overseeing the administration of the activity**

As noted at the Public Hearing, the Village of Beach Park's application received 7.5 out of 10 possible points in the past performance category. The 2.5 point deduction was applied since the Village still has an open CDBG project from last year. Although this deduction was applied to other communities also, it should be noted that there were unique, extenuating circumstances associated with Beach Park's 2012 CDBG project. This project

CDBG Public Infrastructure Improvements Recommendations  
Public Comment on behalf of the Village of Beach Park  
February 1, 2013  
Page 2

circumstances associated with Beach Park's 2012 CDBG project. This project can only be done during the summer months while school is out, between May and August

The Village's 2012 CDBG project consists of major intersection improvements at Wadsworth Road and North Avenue, directly adjacent to a grade school as well as impacting many bus routes for two other school districts. If the CDBG funding commitment had been available in May of last year, the project could have been completed by the fall of 2012. Since the federal HUD funds were not available until July, 2012, the project had to be delayed to coordinate with school schedules. The project is ready to bid and will be executed when school is out of session this summer. Per the grant requirements, the project will be completed well in advance of the December 31, 2013 deadline. Simply put, if the funds had been available earlier in the year the project would be completed and the Village would have received an additional 2.5 point in this category.

## **2. Degree to which funds are leveraged with other sources**

Since the time of the original filing of the application, additional field work has been completed to assess the necessary drainage improvements in the project corridor. With the drainage improvements and other soft costs added to the project total, the updated project cost estimate is approximately \$170,000. (The project cost estimate is provided in the attached Exhibit.) The requested \$100,000 in CDBG funds is less than 59% of the project total. Based on this additional information, the application should have indicated that the Village was committing to leverage 41% of the funds for this project from other sources. This would result in an additional 2 points in this category, totaling 4.5 additional points in the overall scoring system.

## **3. Health, Safety and Welfare Concerns**

The Village of Beach Park recently completed a pavement evaluation study, rating the condition of the streets within the Village in accordance with the Asphalt Institute Rating System. The streets within the proposed project area are in very poor condition, receiving street ratings in the range of 50 – 60. The poor conditions were primarily attributed to significant cracking, raveling, potholes and drainage issues. The individual rating sheets for the four impacted street sections are attached. Although not specifically detailed in the application, drainage improvements are planned and required in conjunction with the roadway improvements project. The creation of ditches where there currently are none, replacement of culverts, and re-grading of existing ditches (as indicated on the attached sketches) will provide positive

drainage away from the private properties within the project corridor. The proposed project addresses not only roadway restructuring but also drainage deficiencies, thus it has an even greater impact on the livelihood of the residents in the area.

The scoring system that was applied to all of the applications attempted to differentiate between the projects based on urgency and need. Only three point totals were assigned in this scoring category – 0, 15 or 25 points. The vast majority of the applications (including the Village of Beach Park) received 15 out of the possible 25 points in this category. Only four applicants (those ranked 1<sup>st</sup>, 3<sup>rd</sup>, 12<sup>th</sup> and 15<sup>th</sup>) received the 25 point rating in this category. If the urgency and need of the planned drainage improvements described above had been factored into the scoring system, additional points could have been assigned to the Village’s application.

**4. Degree to which activity addresses community needs impacting low- and moderate-income people**

In response to preference given for low to moderate income projects, 7 of the 15 entities receiving an allocation in the Draft Plan have a higher median household income than the Village of Beach Park. The score allocated in this category is allocated in blocks, as opposed to a sliding scale. Therefore, while the scoring system partially accounts for economic status of the community, this scoring system does not directly reflect of the community’s true need. Below is an excerpt from the scoring summary for illustration purposes:

<u>Community</u>	<u>Community Economic Status Score</u>	<u>Application Total Score</u>	<u>Community Median Income as % of County Median Income</u>
Round Lake	10	83	96.64
LCPWD	10	75	100
Lakemoor	10	74	95.47
Mundelein	5	66	104.83
Highwood	15	64	88.51
Island Lake	15	64	89.93
Lake Villa Tshp	5	64	122.16
Beach Park	15	61.5	86.89

Community Development Commission  
Lake County Community Development Division  
Re: Lake County Draft 2013 Annual Action Plan  
CDBG Public Infrastructure Improvements Recommendations  
Public Comment on behalf of the Village of Beach Park  
February 1, 2013  
Page 4

The Village of Beach Park, like many communities in Lake County, continues to have to delay necessary infrastructure projects due to a lack of funding sources. The local share of the state administered Motor Fuel Tax program has become insufficient to adequately maintain the Village streets. Based on the current share of MFT allocation received by the Village, it would take nearly 80 years to complete one round of street resurfacing within the Village. Leveraging additional funds has become increasingly challenging, particularly in this current economy. Receiving CDBG funds is crucial for the Village, as the Village funds alone cannot pay for the entire project, despite the described necessity.

Based on the supplemental information provided, we respectfully request a reconsideration of the proposed funding allocation in the 2013 Annual Action Plan to include an allocation for the Village of Beach Park. We appreciate your time and consideration of this request.

If you have any questions or would like additional information, please do not hesitate to contact me at the Village Hall at 847-746-1770. Alternately, please feel free to contact our Village Engineer, Marcia McCutchan of RHMG Engineers, Inc., at 847-362-5959.

Sincerely yours,

VILLAGE OF BEACH PARK

60	Garnett Avenue	Talmadge Avenue	Pickford Avenue	\$5,400.00	\$24,300.00	\$29,700.00	\$3,267.00	\$32,967.00	Pulverize	\$19,411.76	\$13,555.24
<b>Total</b>				<b>\$20,800.00</b>	<b>\$132,200.00</b>	<b>\$153,000.00</b>	<b>\$16,830.00</b>	<b>\$169,830.00</b>		<b>\$100,000.00</b>	<b>\$69,830.00</b>

<sup>1</sup>If the recommendation for resurfacing is to overlay the existing pavement, RHMG recommends that certain areas within the existing pavement be patched prior to resurfacing the street to further increase the life expectancy of the pavement. The patching could be performed in the same or prior program year.

<sup>2</sup>Engineering costs have been assumed to be 11% of the construction costs.

<sup>3</sup>The total sum equals the amount of grant funding applied for on the 2013 CDBG application. The Village's MFT/In-kind funds to be used to match the grant funding equals 41% of the total project cost. The Village's application committed to match a minimum 21% of the total project cost.
