Company Information and Financial Strength

Line Item	Question	Response *
7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>This past July, SHI celebrated our 30th Anniversary at our annual Global Sales Conference. The theme of that conference was Purpose and Passion, a theme that speaks to both our business philosophy and our core values. We define success not only quantitatively but also by the quality of our relationships. While we are proud to have topped \$10 billion in revenue in 2018, largely because of our financially strong and stable business model, we also recognize that our Purpose and our Passion have cultivated our longevity within the industry; that our growing success stems directly from our purpose: to deliver exceptional value and experience as we help customers select, deploy, and manage their technology. And that our passion, which remains focused on forging and nurturing relationships with our customers and with our colleagues and partners, will sustain us for another 30 years as an industry leader.</p> <p>Since 1989, SHI has persistently maintained our small-company feel by retaining our leadership personnel (many of whom have been with the company since its inception) and by empowering our 4,000+ employees to collaborate with customers to resolve IT problems and needs directly, shoulder to shoulder. With the largest field sales organization of any technology reseller, our visibility across all Public Sector verticals (K12, Higher Ed, State and Local Government, Federal, and Healthcare initiatives), boasts 175 field AEs, working and living in the territories they support, and 170 telesales specialists, who cater to the needs of small and medium public entities and who dedicate their energy every day to customer success.</p> <p>As the largest privately-owned, M/WBE organization in the country, we are proud of our spirit of community and partnership and in our ability to facilitate IT solutions, services, and hardware and software products for our national and global clients. Loyalty, trustworthiness, and reliability are paramount qualities of SHI, and we offer those qualities, in tandem with our Purpose and Passion, to Sourcewell with an eagerness to help your Members work more efficiently and effectively.</p> <p>We are committed to providing Sourcewell members the most advantageous pricing models and the most exceptional values; we recognize that our role as a Sourcewell affiliate is to support your Members, providing expert best practices to keep their IT resources safe, secure, and operational, 24 hours a day, 365 days a year.</p>

8	Provide a detailed description of the products and services that you are offering in your proposal.	<p>We offer our complete catalogue of products and services to Sourcewell members. Providing a vendor-neutral approach to help customers find the right technology that meets every specific requirement of their IT environment, one of our greatest strengths is our ability to provide tremendous depth and breadth in choosing the ideal software, hardware, Cloud, and other products and services for each individual Sourcewell member.</p> <p>In fact, SHI's current catalogue includes tens of thousands of hardware, software, and other product partners. Generally, SHI is able to sell between 75%-100% of our partners' product lines, and we offer a wide range of services delivered directly by our internal teams, by the manufacturer directly, or by subcontracting to a third-party, vetted partner.</p> <p>In addition, SHI provides Sourcewell members with full IT solutions, from commodity software and hardware to complete, end-to-end datacenter solutions. We specialize in IT solutions that fit precisely with our customers' needs and wants, and Sourcewell's members will benefit from our experience and breadth of knowledge to help design, implement, and optimize their IT ecosystem.</p> <p>It's worth noting that, over the past decade, IT has changed dramatically. Although there is still a definite need for commodity products, attention has shifted more and more to building comprehensive solutions that will solve customers' needs. In response to this shift, and working from our customer-centered foundation, SHI developed our Enterprise Solutions Group to include solution-based support. This team is comprised of over 150 people who hold 3000+ certifications for various products and solutions. Their goal is to address Sourcewell Members' needs, help them acquire the right technology, and facilitate adoption of that technology into their own unique environment. Our Enterprise Solutions Group, like all of SHI, is vendor-neutral and uses its range of experience to help tailor conversations that are optimal for each Sourcewell member. We engage customers during the strategy and solution design of a project and assist with activities like deliberate planning, assessments, white boarding, proof of concepts, and obtaining demo units.</p> <p>Our purpose is to provide the best overall value to each Sourcewell member, and we understand that this goal is achieved through a combination of world-class support, aggressive pricing, and extensive product and service offerings. Our objectives align with Sourcewell's mission to help government, education, and nonprofits work more efficiently, and we accomplish this by remaining laser-focused on customer satisfaction: every SHI employee understands that we are here because of our customers and will remain here only as long as we continue to provide extraordinary products, services, and customer satisfaction.</p>

9	What are your company's expectations in the event of an award?	<p>SHI is genuinely excited about the opportunity to collaborate with Sourcewell and its members! We expect a phenomenally successful partnership, beginning with our immediate expectations in the event of an award, which include</p> <ol style="list-style-type: none">1. To support and advocate our Sourcewell partnership. Each team member from every Public Sector vertical will support our partnership with Sourcewell and will advocate for the contract with passion and vigor. Given our position in the Public Sector market, the size of our sales force, and our experience with implementing and growing similar contracts, we are confident that we can extend Sourcewell's reach not only in terms of revenue achieved, but also in terms of the number of distinct members who use this contract.2. To develop marketing materials and campaigns that articulate the value of the Sourcewell-SHI partnership. As an example, we will employ our Business Development Team, dedicated to the Public Sector Business Unit at SHI, to call all prospective customers and detail our partnership promptly upon award.3. To train our entire Public Sector sales and sales-support staff about Sourcewell and its members. This training will include contract terms and methodology, pricing parameters, and the value that Sourcewell provides to its Members.4. To connect immediately with current Sourcewell Members, introduce SHI, and listen to Members' needs. Our introduction will ensure that each Member's dedicated Account Team is familiar with and accessible to them, in addition to educating Members on the value we provide. We will work with each Member to understand their business preferences (specific information on a quote, reporting requirements, invoicing/billing requirements, and the like). And we will offer webinars on various topics including:<ul style="list-style-type: none">• Getting to know SHI;• SHI.com (eProcurement intro);• SHI's Service Capabilities;• Microsoft Volume Licensing.5. Finally, to create a dedicated Sourcewell online catalogue that displays the contracted pricing and any additional information that Sourcewell deems important. We will work with Sourcewell Members to customize their site, adding reporting and punch-out capabilities specific to that member, when needed. <p>We recognize why cooperative contract usage is on the rise, and we realize the value of having strategic partners in this space.</p> <p>Sourcewell can expect that SHI sets ourselves apart from organizations similar to us in that we will collaborate with only a few select Consortia partners; in fact, we intentionally keep the number of Consortia partners strategically small to provide proactive support to Consortia members, rather than attaining many partnerships and diffusing ourselves reactively.</p> <p>If awarded, we bring to this new contract both a deep desire to partner with Sourcewell and fresh, innovative perspectives for your Members. We expect the transition to a new partnership will be seamless, and we will assist in that transition by supporting Sourcewell members personally, starting with our Senior Director of Public Sector, Denise Verdicchio. Denise is committed to the success of our partnership from day one of an award, and she will dedicate her energy to making our Sourcewell partnership a thriving one. Denise has demonstrated that her leadership and teamwork create success: for example, with our most recent consortia contract award, under her leadership, our Public Sector Team grew the contract to over \$100M in the first year.</p> <p>In short, our expectations are bold, and they are also achievable. Our SHI team is flexible and agile, and we are committed to providing Sourcewell's members an extraordinary experience, with a purpose and a passion, that is incomparable.</p>

10	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	<p>With over 4,200 employees worldwide, SHI is proud to be the largest Woman/Minority owned business in North America. We maintain 35+ offices in North America, EMEA, and Asia in addition to our Integration Center, Solution Lab, and Executive Briefing Center, which are located at our headquarters in New Jersey. In 2018, SHI reached \$10B in revenue (one year ahead of our goal) and set the stage for continued exponential growth.</p> <p>The SHI Public Sector unit made up \$2.2B of SHI's overall sales last year and was recognized as the #1 business unit for 2018, with an astounding 25% increase over 2017. While this past year was one of the largest growth years, SHI's Public Sector has grown consistently over the last 30 years. In combination with our articulated Purpose and Passion, this growth stems from a laser focus on customer service, dedicated and tenured leadership, world-class Account Executives (who live and work in the communities they serve), and a broad spectrum of customers and partners. In other words, we recognize the vitality of our community, and our financial strength and stability are a direct result of our community approach.</p> <p>Since SHI is a privately-owned company with no bank debt, we are nimble and able to reinvest in our business with integrity and in a way that aligns with Sourcewell's values and its Members' needs. SHI continues to invest in new infrastructure, most recently with a brand-new Integration Center that will open in Q4 2019. We also made significant investments in hiring more resources – the people with whom Sourcewell Members will engage. In 2018, for example, we brought on 150 additional Field Solutions Engineers and Professional Services Executives for a total of 550 customer-facing technical experts who support our Account Executives.</p> <p>Our financial strength and stability is predicated on our staunch affiliations within our communities – our relationships with customers, partners, OEMs, and our own SHI colleagues.</p> <p>We have included our 2 years of audited financials in the upload section for your review and to demonstrate our strength and stability.</p>
11	What is your US market share for the solutions that you are proposing?	<p>Overall Market Share based on Fortune 100, 500 & 1000</p> <ul style="list-style-type: none"> • 60% of the Fortune 100 use SHI for primary IT Products (Software & Hardware) • 40% of the Fortune 500 use SHI for primary IT Products (Software & Hardware) • 30% of the Fortune 1000 use SHI for primary IT Products (Software & Hardware) <p>SHI Overall Product Mix</p> <ul style="list-style-type: none"> • 60% is be considered Software, Subscriptions, and Cloud based Sales • 40% is be considered Hardware, Peripherals and Accessories – Including categories of Devices, Servers, Storage, Networking <p>Market Share Indicators for Software</p> <p>SHI is considered the leading Reseller Partner for many of the Top Software Publishers such as Microsoft, Adobe, Symantec/Veritas, McAfee (Intel Security), and others. We estimate that 20-25% of revenue with these partners as representative of their Partner Sales. This number does not include Sales that Software Publishers conduct directly with the end-customer.</p> <p>Market Share Indicators for Hardware</p> <p>OEM direct sales to the end-customer typically represents a larger percentage of the business; therefore our overall Market Share will be lower, estimated in the 5-10% range. This number, however, still makes SHI one of the largest Hardware Resellers in North America.</p>
12	What is your Canadian market share, if any?	SHI's Canadian Market Share is 5-10%, and we provide more detailed information about our Canadian resources in our response to Question 42.

16	Provide all "Suspension or Disbarment" information that has applied to your organization during the past ten years.	SHI has not been suspended or disbarred on any contracts similar to what is being requested by Sourcewell.
17	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	<p>Today, we continue to fine-tune our products and services to meet the needs of our customers and the ever-changing, broad technology landscape. Our catalogue of products continues to grow and change in response to technological demands and customer needs.</p> <p>SHI categorizes the technology landscape and our capabilities into three broad segments: End-User, Datacenter, and Security. Within each of these segments are practices; for instance, the End-User Segment is comprised of Mobility, Desktop, Unified Communications, Devices, Peripherals, and Accessories.</p> <p>At the next level are the Solutions that reside within each practice. For example, within the Mobility practice, Unified Endpoint Management, Enterprise Mobility Management, Mobile App Management, Mobile Device Management, and Enterprise File Sharing exist.</p> <p>Another example includes the Solutions that reside under the Devices, Peripherals, and Accessories practice; these include Operating System, Desktop, Laptop, Tablet, Thin Client, Smart Phone, Video Surveillance, Printing and Imaging, Digital Signage, and Peripherals.</p> <p>The last piece of this conversation centers on Services for each Solution. These Services include Advisory Assessments, Solution Design, Proof of Concept, Implementation, Staff Augmentation, Training, Project Management, and Managed Services.</p> <p>Due to the size of SHI's Solutions Directory, it would be cumbersome to include all of the granular categories here, as our categorization and capabilities are extensive. But Sourcewell can be confident knowing that SHI has the capability to support its Members and to facilitate the right solution for each Member's environment at an extraordinary value.</p> <p>Should Sourcewell wish to discuss our Solutions Directory in greater detail, we will gladly schedule a call to articulate the comprehensive practice and solution areas we provide.</p>

25	Sales force.	<p>SHI is capable and eager to meet the needs of Sourcewell Members across the U.S. and Canada! Our ethos at SHI grows from our team members, and those team members remain our greatest asset. Each individual on our Sales Force is dedicated to providing exceptional customer service and support to Sourcewell Members. Building on Purpose and Passion, SHI continues to develop improved procurement and Internet solutions, strong partnerships with top manufacturers, and a company-wide determination to be the best for our customers. We do not rest on our laurels!</p> <p>In order to remain successful for Sourcewell Members, we will remain flexible in our approach and will engage with each Member on an individual basis; we understand that one size does not fit all and that philosophy is apparent in our service structure. In terms of organization, we have retained a small business feel in order to remain agile for our customers. We operate successfully with minimal layers of management, and we empower our sales teams to make decisions that are in the best interest of their customers.</p> <p>U.S. Public Sector Sales – The Public Sector Field division supports State Government, Local Government, K-12, Higher Ed, Public Healthcare, and Federal entities across the country. Customers in the Public Sector Field are supported by both an Account Executive and a dedicated Inside Sales Team.</p> <p>Account Executives – Led by Denise Verdicchio, this team consists of 175 Account Executives who live and work in their territories throughout the United States. We have the largest field-based sales force in the industry and believe one of the keys to a customer-centric model is nurturing a strong fidelity with our customers. Account Executives spend time at their customers' locations, listening to their customers' needs, and developing a thorough understanding of what is important to that customer with purpose and with passion.</p> <p>Inside Account Managers – This team of 130 Inside Account Managers (IAMs) helps support Members' day-to day-needs. IAMs work in tandem with up to three AEs, and in this way, our customer support stays consistent and personal.</p> <p>SM SLED –Our Small/Medium SLED division is focused on supporting the needs of the smaller K-12, local government, and higher education institutions across the country to ensure personalized attention regardless of their size. In this case, we have defined small as a K-12 district with 7500 students or less, a higher education institution with 1500 students or less, or a city/town with a population of 50,000 or less. These customers often are overlooked by large resellers, yet they have the same needs as their larger counterparts to stay current with technology. Our SM SLED division is based out of our global headquarters in Somerset, NJ, and the team consists of 170 Inside Account Executives (IAEs) who support Members' needs from start to finish.</p> <p>Canadian Public Sector Sales – SHI provides a comprehensive customer support plan to ensure we are meeting each Members' needs as part of our presence in Canada. Currently, our 12 field AEs (8 covering Ontario, 1 Vancouver, 1 Calgary, 1 Montreal) are supported by six IAMs in Austin, Texas. We also have four IAEs who are phone-based administrators covering Canada to augment the AEs. From a support perspective, we have two in-country field solution engineers – one focuses on UCC and the other on DataCenter. SHI currently employs two Microsoft Licensing Executives and one Cisco business development representative dedicated specifically to Canada.</p> <p>And our Canada presence is growing! As of January, 2020, we will employ approximately 30 AEs, with 20 representing Ontario and an additional 10 spread primarily between Calgary and Vancouver. We will make similar investments in inside sales – both the IAEs and IAMs to support the added headcount in the field. We also plan to simultaneously double our Canadian technical resources.</p> <p>All of SHI's Account Executives are empowered to make decisions around the support of their customers, and they have the capacity and autonomy to resolve issues as they arise. Because our Account Executives are responsible for ensuring extraordinary customer satisfaction, SHI is able to provide high-quality customer service and ensure efficient and effective responses to questions and issues. In addition, the SHI Regional Directors are directly engaged with their account teams to provide executive-level support and to meet with customers as needed.</p> <p>In addition, SHI believes in regular and transparent communication with our customers. Our Account Executives will meet with the participating entities and individual Sourcewell members to review their business with SHI. During these review meetings, we discuss purchase history and the Member's future plans. Through devout listening and with open discussions, SHI can provide tremendous value in supporting future initiatives and will engage support teams as needed to meet Member's goals and objectives. If awarded, SHI will provide this level of service for all Members who use the Sourcewell contract to procure IT products and services.</p> <p>We are confident that our capabilities and our commitment to meeting our customers' needs is demonstrated in our level of success under our public sector contracts nationwide. For instance, SHI holds the most Participating Addenda and has achieved the most volume under the NASPO SVAR contract. We have met and exceeded service levels for NASPO ValuePoint and for each State during the contract term, and we have been an active participant in helping NASPO ValuePoint and the States to explore new avenues to achieve additional benefits under the contract.</p>

26	Dealer network or other distribution methods.	<p>SHI is proud of our abundant and broad community of distributors and partners, and we work loyally to maintain relationships with both our large IT Distributors (Ingram Micro, Tech Data, and Synnex) as well as smaller, local distributors and manufacturers directly. For every customer transaction, we source from the supplier with inventory in the closest proximity and drop ship directly to our customers' door. Most products are, therefore, delivered within 3-5 business days of order.</p> <p>In order to ensure reduced time to market, we also resource from our own Customer Integration Center, located in Somerset, New Jersey, that provides warehousing and complete configuration capabilities. Regardless of where we resource products, we always find opportunity to save our customers money. In addition to leveraging our partner relationships for savings at the vision and design phases, our sales teams also request information from all of our distributors' stock to obtain the best price for our customers when quoting and sourcing product.</p> <p>In addition, we have sourcing specialists on our procurement team who monitor purchase orders with the partner and distributor community to safeguard that no savings have been missed. In many instances, our sourcing specialists have the ability to aggregate purchases for a specific partner or product across multiple transactions or even across multiple customers to realize a lower overall cost.</p> <p>While SHI does maintain a warehouse/integration center in Somerset, New Jersey, it is our relationships with our major distributors that allow us to provide for efficient product delivery across North America. This model reduces the overhead costs of maintaining additional warehouses, and our distribution model is also important to SHI's own internal cost structure and subsequently allows us to offer our customers a very aggressive pricing model.</p> <p>Our major distribution centers are located strategically in:</p> <ul style="list-style-type: none">• Atlanta, GA• Chicago, IL• Dallas, TX• Fontana, CA• Fort Worth, TX• Jonestown, PA• Swedesboro, NJ Los Angeles, CA• Memphis, TN• Miami, FL• Ontario, CA• South Bend, IN• Suwanee, GA <p>SHI receives electronic feeds from these major distributors as well as the top publishers/OEMs in the industry. We include advertised list price in our catalog and have based our discounts off of this pricing.</p>

<p>27</p>	<p>Service force.</p>	<p>We realize that IT changes constantly and exponentially. As we mentioned elsewhere, although there remains a need for basic IT commodities, the urgency to build solutions that will solve customers' technology and data challenges is more acute than ever. In response to this urgency, we restructured our Service Force to include solution-based support. In fact, we now have specific, technical expertise around our entire portfolio of services and products, ensuring we are able to meet all of Sourcewell Members' IT needs. A sampling of our Service Force for the U.S. and Canada includes these areas:</p> <p>Field Solutions Engineers - In order to provide more technical expertise, SHI currently employs a team of 32 Field Solution Engineers in the US and 2 FSEs serving Canada, and those numbers are increasing in the near future. Our FSEs collaborate directly with Account Executives and are the first point of contact for more in-depth technical discussions.</p> <p>Enterprise Solutions Group - In synchrony with other support teams, SHI's Enterprise Solutions Group (ESG) has the agility and expertise to help design, build, test, and deploy hardware and software solutions. ESG's goal is to help customers execute their mission and educate end-users by getting the right technology to the right people at the right time. Today there are over 250 people dedicated to this division of SHI.</p> <p>Cloud and Innovative Solutions – Tapping into the potential of the Cloud is essential to help Public Sector agencies meet their missions and to facilitate the needs of their citizens as well. In addition to our Enterprise Solutions Group, SHI's Cloud and Innovative Solutions Group (CIS) provides insight into Sourcewell Members' cloud environments, making assessments, evaluations, and recommendations that benefit your specific organization. CIS helps identify over-provisioned or dormant resources, analyze historical usage to determine more favorable pricing models, and provide ongoing monitoring to ensure you're staying on track with a secure, cost-efficient, and optimized cloud environment. SHI delivers industry best practices and custom offerings through our Assess, Design, Build, and Manage methodology in order to integrate leading cloud technologies to Members' environment. Our CIS practice is staffed with approximately 50 senior-level consultants focused on supporting and engaging customers across the continuum of cloud computing.</p> <p>Corporate Training Group by SHI – Providing on-site, online, or on-demand Technical, End-User, and Professional Development Training, our newly acquired Corporate Training Group complements our other services flawlessly. We recognized the need to equip our customers with the skills and knowledge to increase their adoption and consumption of technology, and our CTG team offers full-service training to meet those growing demands – from IT professionals to end-users – we provide training that enables customers to increase their return on investment in technology. With approximately 20 training experts dedicated to our CTG team, we are always ready to provide invaluable, personalized training for Sourcewell Members!</p> <p>Software and Hardware Partner Support Organizations - SHI has the largest team of Software and Licensing Specialists in the industry. These teams are in place to support our customers and sales teams with the expertise to manage the varied features of the Publisher Licensing Programs. Our award winning team of Software and Licensing Specialists is available to assist Sourcewell Members with selecting their licensing programs, executing agreements, and supporting the agreement lifecycle. Today SHI has dedicated teams that support 38 Strategic Software Partners and over 70 Emerging Technology Partners.</p> <p>Service Providers – SHI provides services in one of three ways:</p> <p>(1) SHI-Delivered Services – our internal delivery resources are based both in NJ and across the country. Today we have approximately 270 SHI Employees who deliver various IT Services to our customers.</p> <p>(2) Partner Delivered Services – SHI has the ability to resell partner services. In this case, we rely on either employees of that partner or contractors of that partner. Although it is difficult to clearly quantify the number of resources in this category, as the number of partners that we support in this manner is large, we are happy to provide more detailed information if needed.</p> <p>(3) Service Partner Network – SHI maintains an Elite Partner network of service providers across the U.S. and Canada. These partners are vetted and managed carefully by SHI to ensure customer satisfaction and success. Currently, our Elite Network is comprised of 50 partners; in addition to that network, we also collaborate with external Service Partners at a customer's request. Often, our customers have established relationships with local partners, and in these cases, SHI will eagerly join with that partner in order to provide services on contract.</p> <p>Our capability for services is extensive, and with resources across the country and Canada, SHI facilitates services in almost every IT Solution area.</p>
<p>28</p>	<p>Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.</p>	<p>We begin every day reminding ourselves of one of our principal purposes – to focus on empowering the people who use technology and to maintain integrity in our relationships with our customers.</p> <p>With this purpose, we clearly recognize the need for exceptional Relationship Management (which might include resolving technical issues and responding to product delivery, billing, and requests regarding Statements of Work). We also understand the need for efficient and transparent communication in order to keep Sourcewell Members' projects moving forward smoothly and successfully.</p>

The first step to ensure success in these areas is to define collaborative and clear SLAs that meet Members' needs. It is standard practice for us to respond to email and phone requests within two to four hours. We process orders within 24 hours of receipt (unless additional information is required), and we provide daily updates on any pending requests.

We are confident that our Account Team will fully support both daily needs and provide accessible, courteous, responsive, and seamless customer service. If Members ever require a higher level of support, we encourage them to escalate their request.

The following articulates our standard procedure with response times:

1. Call answered timely: Ninety percent (90%) of calls answered within sixty (60) seconds
 - a. SHI has Team Phone Lines where all members of the support team are logged in, and calls are answered in a round-robin method, by members who are not on a call. In the instance all members are helping other customers, calls will be directed to voicemail. Customers can leave a voice message, which will be returned within 2-4 business hours
 - b. If the customer has an urgent request, they can escalate their request to the Inside Sales Team Manager or Account Executive for immediate assistance.
2. Voicemail response: Four (4) business hours from time customer has recorded message: All voicemails are answered or returned within 2-4 business hours
3. Quotes: Respond and/or resolve to ninety percent (90%) within eight (8) business hours from vendor's receipt of customer's request
 - If quotes are out of a standard catalogue for the customer, they will be fulfilled within 8 business hours. If quotes are requested for items which are third party source/weird ware items, IAMs will take the following action:
 1. Reply to customer request within 2-4 hours, confirming receipt of request
 2. Relay to the customer they are working on their request and send notification of additional time the request may take due to external factors – such as awaiting vendor response/additional specs are required from the customer.
4. New location set up: One to three (1-3) business days from vendor's receipt of customer's request
 - If the shipping address is being adjusted after an order has been placed, it needs to be completed ASAP, and before it ships from SHI or distributor warehouse, to make adjustments.
 - If the item has already shipped and the customer needs to adjust shipment location, the IAMs will set up returns and make arrangements to resubmit to updated location, which should not take longer than 1-3 business days
5. Order entry accuracy: Ninety eight percent (98%) of total monthly volume
6. Orders entered timely (include order confirmation): SHI's standard SLA for order entry is within 24 business hours.
7. Time from in stock product shipment to delivery: within five (5) days ninety percent (90%) of the time
 - Any possible delays based on total quantity ordered or restrictions from the OEM will be communicated with the customer at the time of quote or order placement and SHI will keep the customers informed of estimated delivery.
8. Time from product delivery to installation: This will vary based on product and installation requirements. SHI will work with the customer to develop a timeline/SOW for each installation and ensure that the timeline established is met.
9. Percentage of devices DOA: <1% per quarter: As SHI is not the OEM of the products being requested, this is not in SHI's control. If an item is DOA, SHI will work with OEM to provide a working product ASAP
10. Contact installation location to inform product on the way and to schedule installation date: This will be clearly defined in the SOW and managed by the Account team and/or the PM assigned to the project.
11. Final installation of product: This timeline will be established as part of the SOW and will be closely managed by the PM assigned to the project. SHI will keep the customer informed should any changes to timeline occur.
12. Order received to product shipment: within fifteen (15) days ninety percent (90%) of the time
 - Should we expect a delay due to large quantity, complexity, product constraint, or similar, SHI will communicate the expected timeline with the customer and follow up consistently until the product is delivered.
13. Product shipment to installation complete: This requirement and timeline will be clearly defined in the SOW established between the customer and SHI and managed by the PM assigned to the project.

		<p>It is important to note that SHI is built on a foundation of World Class Support. Adopting the process around this support is the first training all new employees receive when they start their career at SHI.</p> <p>Our Purpose is to deliver exceptional value and experience with passion as we help customers select, deploy, and manage technology; and our World Class Support is based on 4 tenets:</p> <ol style="list-style-type: none"> 1) Acknowledge with a purpose; 2) Anticipate Needs and Issues; 3) Update Proactively; 4) Confirm Completion. <p>We believe consistent, honest, and proactive communication will lead to extraordinary customer satisfaction.</p>
29	Identify any geographic areas of the United States that you will NOT be fully serving through the proposed contract.	<p>SHI will fully serve and actively promote an awarded contract to all Sourcewell Members. With 175 Account Executives who live across the US, including Hawaii and Alaska, SHI is positioned to serve all geographic areas of Sourcewell's proposed contract.</p> <p>SHI's Account Executive(s) will meet with State Agencies, Cities, Counties, and Municipalities to better understand their goals and objectives, and to begin a long-term conversation about purchasing policies; agreements established at the local level; volume licensing management; and key code/order confirmation distribution policies.</p> <p>We will train our AEs in every region to understand the contract, the terms and conditions, and how we can best support Sourcewell Members. In addition, SHI is ready to provide training to educate Sourcewell Members across all geographic areas of a new contract.</p>
30	Identify any Sourcewell Member sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	<p>SHI recognizes the tremendous value that Sourcewell brings to its Members through this cooperative contract. We are excited to train our Account Executives on this contract and will market and promote it to all Sourcewell members without exclusions, and with a focused Purpose and Passion that is incomparable.</p>
31	Define any specific contract requirements or restrictions that would apply to our Members in Hawaii and Alaska and in US Territories.	<p>SHI does not have any contract restrictions for members in Hawaii, Alaska, or the US Territories. In fact, we have account executives who live in both Alaska and Hawaii and are ready to serve Sourcewell members upon award. Both Carlee Chung – our Public Sector Account Executive in Hawaii and Jim Steele – our Public Sector Account Executive Alaska uphold SHI's purpose with a passion and staunch affiliation.</p>

<p>35</p>	<p>Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.</p>	<p>When it comes to IT, procurement is never one simple step. We recognize the series of activities and procedures necessary to support the selection of IT equipment and services. IT procurement involves both strategic and administrative responsibilities, and SHI can facilitate that entire acquisition process. To help you obtain the right products and the best services, we offer a variety of procurement options and always customize them to fit Member's unique needs.</p> <p>All of our products and services are available to Sourcewell Members through an e-procurement ordering process, and current governmental and educational customers have used our eCommerce system with great success and ease! We will happily provide a "tour" of our online ordering system, or you can visit a sample on our website at https://portal.shi.com/Customerservices/SHIMarketing.aspx?ContentID=91416</p> <p>SHI stays current with eCommerce technology, and we've made great investments to UX to ensure customers can purchase, compare, get informed, and stay protected – all from the comfort of their office or home-office. With our Catalogue Customization Options; Approval Routing and Workflow; Reporting and Order Status features; and our PRO Renewal Organizer Timeline, Members can be confident knowing that their IT needs can be met efficiently, effectively, and safely through your personalized SHI eCommerce portal.</p> <p>SHI.com, SHI's procurement platform, provides an efficient and intuitive way to access and procure a customized catalogue of products, and its business-to-business functionality includes innovative Custom Catalogue capabilities that provide personalized views of product information, enabling Sourcewell Members to find and compare products, to view key metrics (like frequently viewed products and contract or standard items), and to simplify purchasing.</p> <p>Catalogues can be as broad or as narrow as Members need! With thousands of manufacturers represented, product catalogues are fully customized to reflect contracted pricing available through SHI, as well as special pricing programs for which Members are eligible, such as licensing programs or other volume programs.</p> <p>SHI's open architecture systems allow us to integrate with virtually any eCommerce platform, whether through market leaders or a proprietary solution. <p>38</p>	<p>Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.</p>	<p>As a reseller and not a manufacturer, SHI naturally has a low impact on the environment. However, we are always mindful both our local community and the larger environment and work to reduce any damaging effects from our organization, while protecting the safety and wellbeing of our staff.</p> <p>Our environmental initiatives focus on four areas:</p> <ul style="list-style-type: none"> • Energy use (office and equipment) • Business travel • Waste management • Asset redeployment, recycling, or proper disposal <p>And we exercise due diligence to:</p> <ul style="list-style-type: none"> • Adhere to local and international environmental legislation • Increase employee awareness • Adopt best practices • Monitor usage <p>SHI’s goal is to consume less energy and reduce our environmental impact. We take action through:</p> <ul style="list-style-type: none"> • Monitoring power consumption • Reducing Scope 2 greenhouse gas emissions at 1% reduction per year, since our power consumption goal and Scope 2 greenhouse gas goal are directly linked together • Establishing a goal of 100% for recycling paper, plastics, glass and cardboard • Using advanced energy-saving systems such as automatic lights and energy-saving computer monitors • Using materials from renewable resources, non-toxic materials and recyclable items

SHI has reduced our travel-related environmental impact by promoting:

- Teleconferencing and other collaborative working tools to limit the number of individual business trips
- A Work-from-Home policy, whenever possible
- Flexible working hours
- Use of public transportation

SHI encourages individual responsibility and supports recycling initiatives in the following ways:

- Monitoring the purchase of cut sheet paper
- Striving to reduce paper consumption by 1% per year
- Providing recycling facilities for paper, printer toners, etc.
- Supporting double-sided printing and photocopying
- Using proper disposal or recycling of IT and electronic equipment in accordance with local regulations
- Donating IT assets to those who would not otherwise have access

SHI is committed to reducing our energy use and to saving Mother Earth through innovative, environmentally-friendly ways. Ranging from rooftop solar panels to zero irrigation landscaping at our Headquarters, our sustainability efforts demonstrate breadth and depth.

Below are just some of the ways SHI has devoted efforts to environmentally conscious actions:

- 327-kilowatt rooftop solar panel arrays at Varga warehouse

We qualified for the Leadership in Energy and Environmental Design (LEED) Commercial Interior Silver certification. This project, along with our building renovation, signifies SHI's tremendous growth and is a physical representation of our dedication to sustainability. Our SHI HQ solar panels, for instance, produce approximately 25% of the electricity for both East and West wings. Please feel free to view our video, which celebrates our green initiatives and shows our solar panels in action, by clicking SHI Green or by visiting <https://youtu.be/eZhNpTKEvFY>.

In addition to incorporating environmentally friendly initiatives into our business strategy to protect the planet and reduce the amount of IT hardware waste each year, we also help our global IT customers reduce, reuse, and recycle their hardware assets through our sustainable IT solutions. Some of our customer/partner initiatives include recycling office equipment and related items in compliance with county, municipal, and EPA guidelines. As a result of our efforts, in March 2013, SHI received its Gold LEED Green Certification.

Asset Recovery for Hardware Products

Many organizations are relying on external collaboration for asset disposal, especially since the Environmental Protection Agency and State Departments of Environmental Protection regulations become more stringent and as disposal practices come under greater scrutiny. SHI can help Sourcewell Members stay ahead of the curve, working diligently with Members to facilitate cost-effective disposal services of all sizes and in all verticals. In fact, our team of experts helps to dispose of or redeploy old technology in a way that not only assures compliance but also keeps corporate data from being compromised.

Our disposal processes provide several benefits, many of which other technology vendors don't provide, including:

- Integration: SHI provides a data-feed designed to be incorporated directly into existing asset management systems rather than in complex spreadsheet or database form;
- Security: Our security partners perform DOD and NIST compliant wipes of hard drives to ensure that no company or customer data is retained on old assets;
- Recycling: Our processing partners are either R2 or e-Steward certified, recycling everything in the asset (metal, glass, plastic, and so on) and disposing of harmful substances compliant with stringent government guidelines;
- Global Locations: With processing locations worldwide, we are committed to expanding our global network to shorten the distance that client assets must be shipped for processing.

Our asset disposal and redeployment services can be customized and used in any combination to meet Members' unique needs, making us an ideal partner for any solution. With our customers always in mind, we will ensure we pick up Members' assets for processing; help remarket, redeploy, donate, or dispose EOL assets; conduct inventory and assessments of all assets; and

- Offer end-of-lease processing;
- Conduct software license harvest and redeployment services;
- Provide a total solution one-stop-shop place for all technology end-of-life needs.

Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
43	Do your warranties cover all products, parts, and labor?	SHI offers all available original manufacturer warranties. The OEM covers all hardware, parts, labor, and accidental; but some will limit the number of claims, charge a deductible per accidental incident, and do not cover spills (depending on the OEM). We will provide additional detail on specific manufacturers as needed.
44	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	SHI offers all available original manufacturer warranties. Some OEM warranties will limit the number of claims, charge a deductible or limit coverage. SHI can provide additional detail on specific manufacturers as needed. If SHI Complete Care is purchased it does not cover water submersion claims, surge protection, intentional damage, or acts of nature.
45	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	For OEM warranties this will vary based on the warranty purchased and SHI can provide these details with specific OEM's.
46	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell Members in these regions be provided service for warranty repair?	The standard OEM warranty would still apply to purchases made in Canada. If a customer has a warranty question on specific products SHI will help connect them to the OEM.
47	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Typically warranty services from an OEM will not cover items from other manufacturers. SHI Complete Care, described below, is vendor neutral and may be able to support in warranty OEM claims for select manufactures. If the customer purchases SHI Complete Care for their new devices, they will be 100% supported during the term of the contract.

48	What are your proposed exchange and return programs and policies?	<p>SHI's return policy is customer-centered – we will always do our best to accommodate returns for any unopened box up to 30 days after receipt. Rarely, a customer might receive an incorrect, damaged or non-working (DOA) product; if a product issue occurs, SHI accepts return of that product within 30 days, with no restocking fees, regardless of the package being opened. After 30 days of receipt, SHI will still make a best-faith effort to accommodate a return.</p> <p>Occasionally, the product manufacturer has a “no returns” policy; in these cases we notify customers at the time of quote to ensure transparency and confidence in purchase. In these specific instances, SHI is unable to accommodate returns. Our return process is simple: In order to request a return, first contact your dedicated sales team, via email, phone, or through the “Request Return Authorization Number” section on the SHI.com website. Your Inside Account Manager will then provide you with a return authorization (RMA) number, along with a shipping label. With the RMA number clearly included on the shipping label, the customer then ships their return to SHI, and we process the return. In some cases, to expedite a return, SHI will arrange to have the return-product picked up directly. Once the return has been fully processed, SHI will credit the customer's invoice. In addition, we send out replacement orders prior to receiving returns in order to expedite the process for the customer.</p> <p>Occasionally, Software Publishers may require a customer to fill out a Letter of Destruction. In these cases, SHI provides the letter to customer, who signs and returns it to us. To help simplify and expedite the process, SHI takes care of the rest – processing the Letter of Destruction directly with the Software Publisher.</p> <p>At any point, if customers encounter issues with their products, the SHI Account Team is accessible and eager to help!</p>

49	Describe any service contract options for the items included in your proposal.	<p>SHI will pass on any included Manufacturer warranties at the time of purchase. In addition, we will educate the end-user on any and all available extended warranty, maintenance, and service programs at the time of quote. Should the customer have the need to use the warranty SHI can facilitate the interaction between the customer and the OEM. We will gladly provide any contact information or assist in escalating with the OEM when necessary.</p> <p>In addition, SHI can provide warranty options outside of what is available from the original manufacturer for a separate fee.</p> <p>We offer several options to support original Manufacturer warranties. These standard warranties typically offer limited, short-term coverage and can result in unexpected downtime and expensive repairs. Our Enterprise Warranty Services will extend the life of Member's technology investment and will keep their systems – and their business – running at peak performance.</p> <p>The benefits of our Enterprise Warranties include</p> <ul style="list-style-type: none"> • Coverage up to 5 years; • 24/7 technical support; • U.S.-based call center; • Global support capabilities; • 100% coverage for commercial use, parts, labor, and accidental damage; • \$0 deductible. <p>In addition, SHI provides comprehensive, flexible coverage for Product Protection that goes beyond a manufacturer's limited warranty and that provides</p> <ul style="list-style-type: none"> • 100% coverage on parts and labor, normal wear and tear, and power surges; • "No Lemon" guarantee; • Replacement for products that are beyond repair; • No deductibles, hidden fees, or surprise charges; • Commercial use. <p>Members' SHI Coverage can begin on the date of purchase or after the manufacturer's warranty expires, and coverage is not affected by what the limited manufacturer warranty offers. Our Warranty Services alleviate multi-year budgeting constraints and deliver service when and where Members need it! Payment Terms and Financing Options

Line Item	Question	Response *
50	What are your payment terms (e.g., net 10, net 30)?	Net 30

51	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	<p>Purchasing new hardware or software can be an expensive investment for even the most profitable organization. However, purchasing is not the only option: leasing and financing with SHI is an excellent alternative to buying IT products.</p> <p>The leasing/financing process is relatively simple. Our pricing models include monthly, quarterly, or annual terms, and once all documents are approved and signed, SHI ships products directly to the customer.</p> <p>Differences between Hardware Leasing and Software Financing Typically, our two lease options include Hardware (equipment) and finance Software.</p> <p>Hardware Leasing: SHI offers the following types of hardware leasing: Fair Market Value Lease (FMV) – FMV allows customers to use equipment for a specific term with the return of that equipment at the end of the contract. Customers can extend for a period or purchase equipment at the Fair Market Value. FMV is the most flexible option, and usually, at the end of the lease, we send equipment to our refurbishment partner for resale.</p> <p>\$1 Buy Out Lease - Some customers prefer to own the equipment at the end of the term. This option is a capital lease put on the Lessee's balance sheet as a capital expense.</p> <p>The benefits to leasing hardware with SHI include :</p> <ul style="list-style-type: none"> • All equipment costs are covered with no need to obtain additional financing elsewhere. • Cash is available for income-producing investments. • Lease payments are fixed and easy to budget. • Technology doesn't become obsolete. • Risks are reduced, as add-ons and replacements are fast and easy. • Paperwork is reduced since the lessor handles all the invoices. • Diversity spending. The Lessee can have equipment and even other vendors' products and services included in the lease and receive diversity credits. • Planned Replacement. Leasing allows the customer to have a built-in replacement schedule. • Warranty and maintenance costs are reduced. • Leasing matches the expense to the benefit. • Customers do not need to dispose of equipment. • Payments are predictable and are not subject to interest rate fluctuations. <p>Software Financing SHI offers Installment Payment Agreement (IPA), which provides ownership at the end term for transactions that are software and services based.</p>

52	<p>Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell Members' purchase orders.</p>	<p>We strive to help our customers execute their mission by getting the right technology, to the right people, at the right time. Once customers submit their requests for quotation to the Inside Account Team, a dedicated Inside Account Manager (IAM) will research the product and create a quotation based on the terms and conditions of the contract. The quote can then be published to shi.com, where the customer can retrieve the quote to place the order electronically with SHI.</p> <p>We also support ordering by phone, online ordering and email orders. All product offerings are available for online ordering, including non-catalogue items which are supported via our published quote feature. Published quotes are custom quotes the Inside Team creates and publishes to the website so the customer can log into their web catalogue and complete their purchase.</p> <p>The Inside Team creates customer quotes in Sales Center, an internal quote tool that is connected to our distributor network providing access to the most current inventory and pricing when our customers need a quote.</p> <p>Orders are entered into our A/X Order Entry System and updates for order confirmation and tracking are automatically generated and sent to the end user who placed the order. Customers may also track orders using their login on shi.com</p> <p>Our order management system is a complete order tracking and order maintenance system. All of the information resides on IAM desktops. Each day, we receive the tracking numbers for all products shipped from our distributors via EDI. These tracking numbers feed into the Sales Orders and are ready for immediate access by the designated Inside Account Manager. In addition, we provide this tracking information directly to our customers through Your Home at SHI. Authorized Sourcewell members can log onto our web site to check order status and tracking data direct from the carriers.</p> <p>We fully understand Members' need for flexibility in reporting, as well as the need for reports from the highest organizational level to the most granular. We have created our databases to remain flexible enough to be able to incorporate any organizational structure and to provide reports on any level within the organization. We begin with the most granular reporting level, by division or by bill to or by another criterion specified by Sourcewell. We then group the ordering units into the next level within the Member organization. The entities within that level will be grouped to form the next reporting level, and so on until we reach the enterprise-wide level. In addition to providing reports based on the organizational levels within Sourcewell, we also provide reports based on any combination. These features allow us to meet the reporting requirements of Sourcewell as well as individual Members.</p>
53	<p>Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell Members for using this process?</p>	<p>SHI accepts Credit Cards for purchases. Purchases up to \$50,000 will not incur any additional fees. A credit card transaction fee will be incurred for purchases over \$50,000.</p>

Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
-----------	----------	------------

54	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	<p>We propose a 4.5% discount off of SHI Advertised List Price for all products purchased under this contract and believe presenting one discount across all product categories makes this contract more straightforward and efficient. It is important to note that this proposed discount is a minimum one, and there are many instances in which we can – and will – provide a greater discount. Whenever possible, we pass discounts and savings to our customers.</p> <p>Sourcewell can access detailed pricing data via our online catalog found at https://www.publicsector.shidirect.com/</p> <p>We generally establish our Service Rates on a per-service basis, determined collaboratively with customers based upon their needs, and - when relevant - with Service Partners; we establish rates for services on individual SOWs, with SHI project management fees added as applicable to ensure project success.</p> <p>We are happy to provide more detailed information regarding service pricing upon request and have attached to this proposal a Sample Pricing Form, which includes reasonable estimates, for your review.</p> <p>We have attached a pricing document for your reference in the document upload section.</p>
55	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	SHI is offering 4.5% discount off of Advertised List for all products.
56	Describe any quantity or volume discounts or rebate programs that you offer.	In many cases, SHI Advertised List Price already reflects a substantial discount off of Manufacturer Published List prices. Given the breadth of manufacturers and products that we offer, there will be many opportunities for us to secure additional discounts for eligible contract users. We work to provide your contract users with the most advantageous pricing available, above and beyond the minimum discounts offered, whenever possible.
57	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	All products will be considered contract purchases and therefore offered at a 4.5% discount.
58	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Given the overall breadth and customizable solutions offered under this contract it would be hard to detail every item that will not come standard with a given purchase. However, some additional charges we do address are non-standard shipping options, detailed in question 59 and credit card fees detailed in question 53. In addition, installation, project management, training and additional set-up services would not be part of a standard cost unless a customer specifically requests these services.
59	If freight, delivery, or shipping is an additional cost to the Sourcewell Member, describe in detail the complete freight, shipping, and delivery program.	<p>SHI is able to ship products via any method the customer desires. These include:</p> <p>Standard Delivery - product is delivered to a fixed delivery point (such as a warehouse). Often times, shipping is free on standard delivery orders. Exceptions include very large pallets (servers that are racked/stacked), and any order that requires custom configuration.</p> <p>Inside Delivery - product is delivered to a location inside of a customer's building. SHI's logistics company is responsible for unloading the delivery vehicle. Loading dock may or may not be available. There is a fee associated with Inside Delivery. The fee is based upon the size and weight of the shipment and will be priced out at the time of quoting.</p> <p>Deskside Delivery - SHI's logistics company delivers the product directly to the end users' desk location within the customer's building. Loading dock may or may not be available. There is a fee associated with Deskside Delivery. The fee is based upon the size and weight of the shipment and will be priced out at the time of quoting.</p> <p>Overnight and Second-Day Delivery - this option is available for any non-custom items upon request. There is a fee for expedited delivery. Shipping prices are determined by size and weight of the delivery and can be discussed at time of quote.</p>
60	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	For Alaska, Hawaii, and Canada the perimeters set forth in answer 59 apply. For offshore delivery it will depend on the products and locations where it is being delivered.

61	Describe any unique distribution and/or delivery methods or options offered in your proposal.	As detailed in response to answer 26 above, we work loyally to maintain relationships with both our large IT Distributors (Ingram Micro, Tech Data, and Synnex) as well as smaller, local distributors and manufacturers directly. We receive electronic feeds from these distributors as well as the top publishers/OEMs in the industry. Our strong affiliations allow us to source from the supplier with inventory in the closest proximity and drop ship directly to our customers' door. Most products are, therefore, delivered within 3-5 business days of order.

Audit and Administrative Fee

Line Item	Question	Response *
63	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell Members obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	We take contract compliance very seriously, and to that end, we have a team within our Inside Sales Organization that is focused solely on this aspect of the business. Upon award, Denise convenes the ISO team to review the entire response and resulting contract. They create a document detailing all the specific facts regarding an SLA or a contractual obligation (reporting, pricing, and so on). After the document is complete, all supporting team members become trained around the contract. Once the contract is live, the compliance team conducts random quote audits to ensure that the contracted pricing is being honored. In addition, the team runs monthly reports to check all orders that have been placed. In the rare instance that an error is found, the customer is notified and the issue is immediately resolved. A team that is separate and distinct from our sales organization is responsible for reporting and submission of administration fees. We will capture the Sourcewell contract number upon order entry (this contract number is tied to the customer in our order entry system). When the usage report is due, our Sales Analyst team will pull all contract orders and send that data directly to Sourcewell. Once agreement is established, the Sales Analyst will request and send a check for the correct amount.
64	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	SHI proposes a 1% Administrative Fee. We believe this nominal fee keeps the contract competitive and even more marketable.

Industry Specific Questions

Line Item	Question	Response *
65	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	In our experience, there are a few key indicators of success for contracts of this type: 1) Overall sales revenue – the first, and most obvious, is simply the amount of sales that are being done through the contract. We look for these to grow each month. 2) Number of entities using the contract – we believe that in order to be viewed as a successful partner to Sourcewell we need to be adding net new buying entities to the contract. 3) Number of AEs who are using the contract – In addition to the number of public entities who use the contract, we also track the number of Account Executives at SHI who make use of the contract. We track this metric regularly and are always looking for 100% participation with our consortia contracts. 4) Customer Feedback – we rely on our customers to provide feedback with regards to doing business with SHI and believe this contract's success can also be measured by customer feedback. Providing our customers flexible and viable contract options makes their jobs easier. When we lead with Sourcewell and educate Members on value, we expect we will get positive feedback.
66	Describe your capability to report Sourcewell member purchases of products with environmentally preferred attributes (e.g., eco-labeled, rated or certified).	As a reseller SHI can only report the information given to us by the OEM or publisher community. We will work with Sourcewell and the publisher community to report as needed.

67	Describe your capability to identify third-party issued eco-labels, ratings or certifications for the equipment or products within your catalog related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	If requested, SHI can point customers to the OEM website or to the publishers directly to obtain this information.
68	Describe your strategy related to the implementation and management of multiple cooperative purchasing contract awards, if applicable.	<p>SHI has extensive experience administering and supporting consortia contracts quite similar to Sourcewell, and we are confident that our strategy to implement and manage multiple contracts is both reliable and robust. Most importantly, we have made the conscious decision to collaborate with only a few select Consortia partners in order to provide proactive, personalized support to those Consortia members, rather than attaining many partnerships and diffusing ourselves reactively.</p> <p>Our strategy to implement and manage these few contracts is simple: we take great care to meet the needs of each participating entity, whether that be an individual agency, city, county, township, school district, or higher education institution. Account Teams will meet regularly to audit the contract and to discuss areas in which SHI offers, or can offer, additional services in support of Sourcewell Members.</p> <p>Furthermore, SHI's Account Executives regularly meet with Sourcewell Members to discuss their purchase history, Volume Licensing Agreements, and upcoming projects, and needs. We listen attentively and use our Customer Business Review process to articulate Members' purchasing history and to identify opportunities for consolidation or more efficient use of pricing agreements.</p> <p>As appropriate, we will also hire and train additional Account Executives to ensure suitable coverage for the success of all Sourcewell Members.</p> <p>Finally, SHI dedicates a team to oversee our marketing plan for Sourcewell to ensure maximum participation, providing for a smooth experience for the current contract users as well as entities who join the contract during the agreement term.</p> <p>Our strategy for success with multiple purchasing contracts is further comprised of these steps:</p> <ul style="list-style-type: none"> • Account Executives for each State and Region establish relationships with Members and IT administrators within the organization and update our CRM to record that contact. Each member receives SHI contact information, website information, and contract guidelines. • SHI's Inside Sales Team members give Members a tour of our website (shi.com), where they can create quotes, purchase items, obtain order status, and generate reports of their purchases. • SHI's marketing team subscribes our new CRM contacts to SHI's monthly newsletter and other correspondence. • SHI participates in statewide and local vendor events. SHI Account Executives and publisher partners meet with all relevant Members and discuss SHI's support plan and our partners' solutions. • SHI works with each State to create timely and meaningful Tech Days for individual state and local entities to attend to learn about new solutions for their IT environments. <p>Each facet of our approach converges to ensure that SHI meets (and then exceeds!) both the Scope of Work and Terms and Conditions for each Member.</p> <p>As an example of our successful strategy, Jennifer Jensen, a NASPO SVAR customer from the City of Scottsdale who has worked closely with us praised:</p> <p>"...working with SHI to procure our software and maintenance has been a great experience. Our Account Manager is very hands on and [our] inside sales team is fast and efficient. They are responsive to our requests, have answered tough licensing questions (they have product specialists besides the regional teams who can dive deeper into the product if need be), keep a record of our purchases and our maintenance renewal dates, and have made the quote/PO/invoice process smooth. They are quick to communicate that they have received our requests and provide updates as the information becomes available."</p>
69	Identify any reseller certification(s) (or similar third-party validation of technical expertise) that your organization has attained, if any.	<p>SHI has the experience and vendor partnerships in place to bring value to Sourcewell members. As detailed within our proposal, all of the leading manufacturers have established SHI as an authorized partner. PROPOSER ASSURANCE OF COMPLIANCE

PROPOSER'S AFFIDAVIT

The undersigned, authorized representative of the entity submitting the foregoing proposal (the "Proposer"), swears that the following statements are true to the best of his or her knowledge.

1. The Proposer is submitting its proposal under its true and correct name, the Proposer has been properly originated and legally exists in good standing in its state of residence, the Proposer possesses, or will possess before delivering any products and related services, all applicable licenses necessary for such delivery to Sourcewell member agencies. The undersigned affirms that he or she is authorized to act on behalf of, and to legally bind the Proposer to the terms in this Contract.
2. The Proposer, or any person representing the Proposer, has not directly or indirectly entered into any agreement or arrangement with any other vendor or supplier, any official or employee of Sourcewell, or any person, firm, or corporation under contract with Sourcewell, in an effort to influence the pricing, terms, or conditions relating to this RFP in any way that adversely affects the free and open competition for a Contract award under this RFP.
3. The contents of the Proposer's proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or agent of the Proposer and will not be communicated to any such persons prior to the official opening of the proposals.
4. The Proposer has examined and understands the terms, conditions, scope, contract opportunity, specifications request, and other documents in this solicitation and affirms that any and all exceptions have been noted and included with the Proposer's Proposal.
5. The Proposer will, if awarded a Contract, provide to Sourcewell Members the /products and services in accordance with the terms, conditions, and scope of this RFP, with the Proposer-offered specifications, and with the other documents in this solicitation.
6. The Proposer agrees to deliver products and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
7. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
8. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statute §13.591, Subd. 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals generally become public data. Minnesota Statute §13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

The Proposer understands that it is the Proposer's duty to protect information that it considers nonpublic, and it agrees to defend and indemnify Sourcewell for reasonable measures that Sourcewell takes to uphold such a data designation.

By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation.
