WILDLIFE EDUCATION: Wildlife education is the process of influencing people’s attitudes, emotions, knowledge, and behaviors about wildlife and wild places with the purpose of introducing people to wildlife, promoting awareness of biodiversity, and developing conservation-minded and sustainable behavior. This is done through the efforts of trained/skilled educators and interpreters, who use a variety of techniques, methods and assessments to impart information. Wildlife education is distinct from entertainment-oriented exhibitions in that its primary purpose is not to entertain but rather to provide a deeper understanding of and connection to wildlife. Wildlife education does not include the use of wildlife in performances that: (a) are foreign to their natural behavior (or otherwise not designed to simulate their natural interactions within their environment); (b) introduce painful physical restraint or deprivation inconsistent with practices employed by wildlife biologists, veterinarians or other licensed or trained wildlife caretakers; (c) force interactions with other wildlife contrary to normal conditions in the wild; or (d) otherwise unnecessarily induce significant stress, injury or illness to wildlife as a reasonably foreseeable consequence of the performance. Wildlife education includes, but is not limited to, events to provide the public with opportunities to experience wildlife directly and vicariously through outreach programs, on-site tours, demonstrations, and community events. Wildlife educational programming is typically, but not exclusively, provided by local government agencies, non-profit organizations that provide rehabilitation and release or sanctuary of animals, or trained professionals who are actively engaged in conservation and educational programs and possess the proper permits from the Illinois Department of Natural Resources, U.S. Fish and Wildlife Service, or the U.S. Dept of Agriculture.

WILDLIFE: Any animal that is normally born in the wild and able to live on its own without human assistance, excluding livestock or animals considered to be domesticated.
