

April 27, 2009

Attention: Lake County

We are asking the County of Lake to grant us a variance on improving our subdivision, Bull Creek Drive for another year. Several options have been pursued such as obtaining several bids. These bids have exceeded our loan amount due to higher asphalt prices. Also, our end loan through our current bank has only allowed to give us one year. In addition, we had the property listed over the past three years and have not received an offer. We plan on making attempts to talk to more banks and hope the market will return and asphalt will go down by next year.
