

## August, 2008 Return to Medical Professional Cases

Those without "Immediate Cause" are awaiting copies of death certificates with the  
Medical Professional's diagnosis of cause of death.

| Zip   | Immediate Cause                       | Due To                        | Due To                      |
|-------|---------------------------------------|-------------------------------|-----------------------------|
| 53104 | Acute Coronary Syndrome               | Hypertension                  |                             |
| 60002 | Gastroesophageal Carcinoma            | Hiatal Hernia                 |                             |
| 60002 | Dementia                              |                               |                             |
| 60002 | Septic Shock                          | Chronic Renal Failure         |                             |
| 60002 | Myocardial Infarction                 | Coronary Artery Disease       |                             |
| 60002 | Septicemia                            | Gangrene of Lower Extremities | Renal Failure               |
| 60002 | Breast Cancer                         |                               |                             |
| 60002 | Malignant Melanoma with metastasis    |                               |                             |
| 60002 | Aspiration Pneumonia                  | Congestive Heart Failure      |                             |
| 60002 | Gastric Cancer                        |                               |                             |
| 60002 | Hepatic Coma                          | Portal Vein Thrombosis        | Hepatitis B                 |
| 60002 | Coronary Artery Disease               | Hyper Cholesterol             | Diabetes Mellitus           |
| 60002 | Small Cell Lung Cancer                |                               |                             |
| 60004 | Acute Coronary Syndrome               | Congestive Heart Failure      | Coronary Atherosclerosis    |
| 60008 | End Stage Renal Disease               | Breast Cancer                 |                             |
| 60010 | Non Small Cell Lung Cancer            |                               |                             |
| 60010 | Acute Pneumonia with Sepsis           | Acute Respiratory Failure     | Acute Myocardial Infarction |
| 60010 | Atrial Fibrillation                   | Congestive Heart Failure      | Respiratory Failure         |
| 60010 | Pneumonia                             |                               |                             |
| 60010 | Alzheimer Dementia                    |                               |                             |
| 60010 | Arteriosclerotic Heart Disease        | Hypertension                  |                             |
| 60010 | Chronic Obstructive Pulmonary Disease |                               |                             |
| 60010 | Medical Complications of              | Ishchemic Heart Disease       |                             |
| 60010 | Aspiration Pneumonia                  | Congestive Heart Failure      |                             |
| 60010 | Hypertension                          |                               |                             |
| 60010 | Squamous Cell Lung Carcinoma          | Tobacco Abuse                 |                             |
| 60010 | Pending                               |                               |                             |
| 60013 | Mesothelioma Left Pleura              | Lung Cancer                   |                             |
| 60013 | Squamous Cell Cancer of Lung          |                               |                             |
| 60013 | Failure to Thrive                     | Dementia                      |                             |
| 60013 | Myocardial Infarction                 | Hypertension                  |                             |
| 60013 | Hepatic Cirrhosis                     |                               |                             |
| 60013 | Pending                               |                               |                             |
| 60015 | Sepsis                                |                               |                             |
| 60015 | Seizure Disorder                      |                               |                             |
| 60015 | Cardiac Arrest                        | Alzheimers                    | Type 2 Diabetes             |
| 60015 | Congestive Heart Failure              | Pneumonia                     | Atrial Fibrillation         |
| 60015 | Gastrointestinal Bleed                |                               |                             |
| 60015 | Septic Shock                          |                               |                             |
| 60015 | Metastatic Breast Cancer              |                               |                             |
| 60015 | Lung Cancer with pulmonary metastases |                               |                             |
| 60015 | Congestive Heart Failure              | Coronary Artery Disease       | Hypertension                |
| 60015 | Cerebral Infarction                   |                               |                             |

| Zip   | Immediate Cause                       | Due To                                  | Due To                         |
|-------|---------------------------------------|-----------------------------------------|--------------------------------|
| 60015 | Lewy Body Dementia                    |                                         |                                |
| 60015 | Advanced Senile Dementia              | Urinary Tract Infection                 | Dysphagia                      |
| 60016 | Sepsis                                |                                         |                                |
| 60018 | Lung Cancer Metastatic                |                                         |                                |
| 60020 | Sepsis                                | Cirrhosis                               | Alcoholism                     |
| 60020 | Cerebral Thrombosis                   | Cerebral Arteriosclerosis               |                                |
| 60020 | Chronic Obstructive Pulmonary Disease |                                         |                                |
| 60020 | Pulmonary Edema                       | Uterine Cancer with Mets                |                                |
| 60022 | Pneumonia                             | Cerebral Stroke                         | Cerebrovascular Disease        |
| 60022 | Mantel Cell Lymphoma                  |                                         |                                |
| 60025 | Metastatic Pancreatic Cancer          |                                         |                                |
| 60030 | Lymphoma                              |                                         |                                |
| 60030 | Unknown                               |                                         |                                |
| 60030 | Cardiac Arrest                        | Pulmonary Emboli                        |                                |
| 60030 | Cardiorespiratory Failure             | Cardiac Arrhythmia                      |                                |
| 60030 | Congestive Heart Failure              | Arteriosclerosis                        |                                |
| 60030 | Hypotension                           | Anemia                                  | Dementia                       |
| 60030 | Acute Myelogenous Leukememia          | Pneumonia                               | Pancytopenia                   |
| 60030 | Strokes                               |                                         |                                |
| 60030 | Breast Cancer                         |                                         |                                |
| 60030 | Multiple Myeloma                      |                                         |                                |
| 60031 | Metastatic Colon Cancer               |                                         |                                |
| 60031 | Congestive Heart Failure              | Recurrent Strokes                       | Renal Failure                  |
| 60031 | Metastatic Adenocarcinoma             |                                         |                                |
| 60031 | Stroke                                |                                         |                                |
| 60035 | Cerebral Infarction                   |                                         |                                |
| 60035 | Pneumonia                             | Dysphagia                               | Advanced Alzheimer's Dementia  |
| 60035 | Squamous Cell Carcinoma               |                                         |                                |
| 60035 | Cerebral Infarction                   |                                         |                                |
| 60035 | Pneumonia                             | Mesothelioma                            |                                |
| 60035 | Failure to Thrive                     |                                         |                                |
| 60035 | Cardiopulmonary Arrest                | Presumed Pulmonary Embolus              |                                |
| 60035 | Congestive Heart Failure              | End Stage Renal Disease                 | Uncontrolled Diabetes Mellitus |
