Joint Purchase Information

Scope of Work:
 The Enterprise Technology Department has identified the need for consulting support for cyber security remediation and penetration testing. The County faces cyber-attacks that are evolving in sophistication and potential impact, threatening data breaches as well as disruption of critical operations. To secure the County's systems, Enterprise Technology is seeking assistance to complete penetration testing, conduct a vulnerability assessment, identify critical data, create a plan to address risks, and develop a policy framework.

Procurement Method:
 IT identified a cooperative purchasing contract with EC America/MTM Technologies, through the Government Services Administration (GS-35f-0511T) to procure the needed services and equipment that was competitively solicited and awarded.

Department Recommendation:

The Purchasing Division vetted Government Services Administration (GS-35f-0511T) and determined that it met the requirements pursuant to State of Illinois Joint Purchasing Act and the Lake County Purchasing Ordinance. Lake County may participate in joint purchasing agreements for the procurement of goods with one or more public procurement units in accordance with an agreement entered into between the participants.
