Park City Stormwater Improvement Project Groundbreaking

Wednesday, June 21, 2023
Time: 11 AM

Location: Betty Limbrunner Park

Dixie Ave, Park City, IL

(See Map Below)

The Lake County Stormwater Management Commission and Park City Mayor, Steve Pannell, invite you to attend a groundbreaking event to mark the start of construction on the Park City Flood Mitigation Storm Sewer Project on Wednesday, June 21 at 11 a.m.

This long-awaited historic infrastructure improvement project will provide flood damage reduction benefits to more than 800 properties. Grant funds will be utilized for the construction of large box culverts and storm sewer system upgrades within Park City, extending from Illinois Route 120 south to the Greenbelt Forest Preserve. Funding will also be used for modifications and the replacement of the stormwater system restrictor plate at the Casimir Pulaski Drive culvert.

Come meet the Lake County Stormwater Management Commission (SMC) team who will lead the way, along with Mayor Pannell, Lake County Board members, and state and legislators who tirelessly advocated for project funding in collaboration with SMC.

Partial funding for this project is provided by the Illinois Department of Commerce and Economic Opportunity (DCEO).

Parking is available at the event location. Please take the suggested route of Washington St. to Teske Blvd. to enter the parking lot at the appropriate location. In the event of inclement weather, a notice will be sent out the day before via email.
