

## Antibiotic Stewardship

This workbook reviews whether antibiotics were prescribed at the encounter where a patient presented with certain diagnosis. Encounters from the last 365 days are included (rolling). Encounters are excluded if they contain certain diagnosis (listed below) that justify antibiotic use.

**Diagnosis Included** (encounters with these diagnosis should not have an antibiotic associated with them):

*Acute Pharyngitis:* J02.9

*Upper Respiratory Infection:* J06.9

*Influenza:* J10.1

**Encounter Excluded if Contains Any of these Diagnosis** (encounters with these diagnosis could justify the use of an antibiotic):

*Acute Sinusitis (Patients <18):* J01.9, J01.91, J01.1, J01.11, J01.2, J01.21, J01.3, J01.31, J01.00, J01.01, J01.8, J01.81

*Strep Throat:* J02.0

**Antibiotics Considered:**

amoxicillin, amoxicillin/potassium clav, ampicillin sodium/sulbactam Na, azithromycin, efadroxil, cefdinir, cefepime HCl in dextrose 5 %, cefixime, ceftriaxone sodium, CEFUROXIME AXETIL, cephalixin, CIPROFLOXACIN HCL, ciprofloxacin HCl/dexameth, ciprofloxacin/hydrocortisone, clarithromycin, dicloxacillin sodium, doxycycline hyclate, doxycycline monohydrate, erythromycin base, erythromycin base in ethanol, erythromycin ethylsuccinate, minocycline HCl, moxifloxacin HCl, ofloxacin, penicillin V potassium, sulfamethoxazole/trimethoprim, tetracycline HCl
