Subject: Update on Community Project Funding

Hello Kurt,

I hope this email finds you happy and healthy this holiday season! We wanted to give you a quick update on the status of Congresswoman Underwood's Community Project Funding priorities including the Sylvan Lake Dam Modifications.

In early December, Congress passed a Continuing Resolution that extends into February. We were very much hoping that the FY22 spending package could be resolved before the end of this year, but that is not likely to happen. However, negotiations are still ongoing and we expect to have an update for you no later than March 2022. We are still committed to ensuring funding for your project and all of our CPF requests make it all the way through the process.

Please let us know if you have any questions!

Michelle Thimios ([She/Her](#)) | *District Director*
Representative Lauren Underwood (IL-14)
