Talbot Avenue Drainage Improvement Groundbreaking

Tuesday, May 23, 2023
Time: 10 AM

Location: Intersection of Talbot and Green Avenue

(See Map Below)

The Lake County Stormwater Management Commission and Shields Township invite you to attend a groundbreaking event to celebrate the start of construction at the Talbot Avenue Drainage Improvements Project site on Tuesday, May 23 at 10 a.m.

With the design and engineering phase of the project complete, work is set to begin in unincorporated Shields Township to replace an undersized storm sewer and overland flow path between Talbot Avenue and Atkinson Road. The work involves excavating and exposing approximately 100 feet of storm sewer, expanding an existing stormwater channel, soil grading and site restoration with native landscaping. The project will also repair and replace existing drainage structures, concrete curbs, pavement, and an aggregate trail. Once complete, the

project will provide flood mitigation benefits for two roadways and fourteen residential properties.

Partial funding for this project is provided by the Illinois Department of Commerce and Economic Opportunity.

Parking is available at the event. Please enter off Waukegan Road onto Talbot Avenue.

In the event of inclement weather, the groundbreaking ceremony will be celebrated indoors at [The Offices of Shields Township, 906 West Muir Avenue, Lake Bluff](#) which is located on the 2nd floor of the Safe Haven School. Parking is available behind the school, at the park. If the alternate location is needed, a notice will be sent via email to confirm the location change on May 22.
