

STORMWATER MANAGEMENT COMMISSION

MEMORANDUM

TO: Lake County Stormwater Management Commission
FROM: Sharon Østerby, Water Resource Professional
RE: Adoption of the Lake County All Natural Hazards Mitigation Plan 2022 Update
DATE: May 4, 2023

ACTION REQUESTED: ADOPTION

SMC and the Lake County Emergency Management Agency are seeking adoption of the multi-jurisdictional Lake County All Natural Hazards Mitigation Plan (ANHMP) update approved by the Illinois Emergency Management Agency and Federal Emergency Management Agency.

- IEMA and FEMA have conditionally approved the plan contingent upon adoption by the County and participating communities/local units of government.
- The Lake County ANHMP and this 5-year update are required by FEMA for participating communities to be eligible for mitigation grant funds from FEMA.
- The multi-jurisdictional approach provided a cost-effective way for Lake County communities to participate in and benefit from the update process.
- 52 communities, including Lake County, participated and will adopt the plan to be eligible.
- Upon SMC approval of the ANHMP 2022 update, SMC will send out an email notification to communities to begin the local process for adoption.

Anticipated adoption process:

May 4 , 2023	SMC adoption
May 31, 2023	PB&Z Committee approval
June 9, 2023	Committee-of-the-Whole approval
June 13, 2023	County Board adoption
May-August 2023	Municipal adoption
