

# **LAKE COUNTY STANDARDS OF CONDUCT FOR APPOINTED OFFICIALS TO BOARDS AND COMMISSIONS**

The Standards fall into five key areas:

The Standards outlined below establishes criteria for appointees to abide by. Each appointee is required to sign the attached certificate acknowledging they agree to follow the Standards of Conduct in order to serve on a board or commission.

## **FISCAL RESPONSIBILITY**

Lake County government prides itself on its strong record of fiscal responsibility. It is important that appointed units of government are prudent stewards of public money regardless if it is generated through local taxes, state and/or federal grants or other means.

While each appointed unit of government's scope, responsibilities and budgets are different, the following actions are mandatory for appointees:

## **TRANSPARENCY**

Transparency and responsiveness are important values that foster open government and community engagement.

The following actions are important in order to ensure appointed units of government are accountable to the Lake County Board and the public.

- 2) In April of 2011, the Lake County Board enhanced its Ethics Ordinance beyond what is required by Illinois Law to prohibit board members from influencing hiring decisions or vendor selection. The ordinance states:

### BEST PRACTICE

#### Adoption of Financial Policies (2001) (BUDGET)

**Recommendation.** The Government Finance Officers Association (GFOA) recommends that, at a minimum, financial policies in the following areas be developed by professional staff and formally adopted by the jurisdiction's governing board ***as well as the governing boards of those component units; state, provincial and municipal corporations and organizations; and other bodies under their jurisdiction.***

- Financial Planning Policies
- Revenue Policies
- Expenditure Policies

The jurisdiction's adopted financial policies should be used to frame major policy initiatives and be summarized in the budget document.

It is further recommended that these policies, along with any others that may be adopted, be reviewed during the budget process. Professional staff should review the policies to ensure continued relevance and to identify any gaps that should be addressed with new policies. The results of the review should be shared with the governing board during the review of the proposed budget.

**Policy categories that should be considered for development, adoption and regular review are as follows:**

#### ***Financial Planning Policies***

These policies address both the need for a long-term view and the fundamental principle of a balanced budget. At a minimum, jurisdictions should have policies that support:

1. **Balanced Budget** - A jurisdiction should adopt a policy(s) that defines a balanced operating budget, encourages commitment to a balanced budget under normal circumstances, and provides for disclosure when a deviation from a balanced operating budget is planned or when it occurs. (NACSLB Practice 4.5)
2. **Long-Range Planning** - A jurisdiction should adopt a policy(s) that supports a financial planning process that assesses the long-term financial implications of current and proposed operating and capital budgets, budget policies, cash management and investment policies, programs and assumptions. (NACSLB Element 9, GFOA Recommended Practice)<sup>1</sup>
3. **Asset Inventory** - A jurisdiction should adopt a policy(s) to inventory and assess the condition of all major capital assets. This information should be used to plan for the ongoing financial commitments required to maximize the public's benefit. (NACSLB Practice 2.2)<sup>2</sup>

### **Revenue Policies**

Understanding the revenue stream is essential to prudent planning. Most of these policies seek stability to avoid potential service disruptions caused by revenue shortfalls. At a minimum jurisdictions should have policies that address:

1. **Revenue Diversification** - A jurisdiction should adopt a policy(s) that encourages a diversity of revenue sources in order to improve the ability to handle fluctuations in individual sources. (NACSLB Practice 4.6)
2. **Fees and Charges** - A jurisdiction should adopt policy(s) that identify the manner in which fees and charges are set and the extent to which they cover the cost of the service provided. (NACSLB Practice 4.2)
3. **Use of One-time Revenues** - A jurisdiction should adopt a policy(s) discouraging the use of one-time revenues for ongoing expenditures. (NACSLB Practice 4.4)
4. **Use of Unpredictable Revenues** - A jurisdiction should adopt a policy(s) on the collection and use of major revenue sources it considers unpredictable. (NACSLB Practice 4.4a)

### **Expenditure Policies**

The expenditures of jurisdictions define the ongoing public service commitment. Prudent expenditure planning and accountability will ensure fiscal stability. At a minimum, jurisdictions should have policies that address:

1. **Debt Capacity, Issuance, and Management** - A jurisdiction should adopt a policy(s) that specifies appropriate uses for debt and identifies the maximum amount of debt and debt service that should be outstanding at any time. (NACSLB Practice 4.3, 4.3a, GFOA Recommend Practices pp.90-92)
2. **Reserve or Stabilization Accounts** - A jurisdiction should adopt a policy(s) to maintain a prudent level of financial resources to protect against the need to reduce service levels or raise taxes and fees due to temporary revenue shortfalls or unpredicted one-time expenditures. (NACSLB Practice 4.1)<sup>34</sup>
3. **Operating/Capital Expenditure Accountability** - A jurisdiction should adopt a policy(s) to compare actual expenditures to budget periodically (e.g., quarterly) and decide on actions to bring the budget into balance, if necessary. (NACSLB Practice 7.2)
