

December 15, 2014

To the Financial and Administrative Committee
Lake County
Waukegan, Illinois

Thank you for using Baker Tilly Virchow Krause, LLP as your auditor. SAS No. 114, "The Auditor's Communication with Those Charged with Governance," requires us to communicate certain things to you during the planning and completion phases of the audit. The following items are presented to you for your consideration. You do not need to take any action on this letter unless you wish to contact us with relevant information as noted later in this document.

- a. The auditor is responsible for forming and expressing an opinion about whether the financial statements that have been prepared by management with the oversight of those charged with governance are presented fairly, in all material respects, in conformity with generally accepted accounting principles.
- b. The audit does not relieve management or those charged with governance of their responsibilities.
- c. An audit performed in accordance with generally accepted auditing standards is designed to obtain reasonable but not absolute assurance that the statements are free of material misstatement.
- d. Our consideration of Internal Control is to determine a basis for designing audit procedures and not for the purpose of expressing an opinion on internal control.
- e. The auditor is responsible for communicating significant financial statement related matters to those charged with governance; however, the auditor is not required to design procedures to find such matters.
- f. The financial statement document may also contain other information for which we have the following responsibility:
 - 1) Supplementary Information – "In relation to" audit coverage
 - 2) Required Supplementary Information – Limited procedures
 - 3) Other Information – No audit coverage

With regard to the audit of your November 30, 2014 financial statements, the following points are an overview of our scope and timing:

- a. We address the significant risks of material misstatement, whether due to fraud or error, through our detailed audit procedures.

- b. We will obtain an understanding of the five components of internal control sufficient to assess the risk of material misstatement of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures. We will obtain a sufficient understanding by performing risk assessment procedures to evaluate the design of controls relevant to an audit of financial statements and to determine whether they have been implemented. We will use such knowledge to:
 - > Identify types of potential misstatements.
 - > Consider factors that affect the risks of material misstatement.
 - > Design tests of controls, when applicable, and substantive procedures.

We will not express an opinion on the effectiveness of internal control over financial reporting or compliance with laws, regulations, and provisions of contracts or grant programs. For audits done in accordance with *Government Auditing Standards*, our report will include a paragraph that states that the purpose of the report is solely to describe the scope of testing of internal control over financial reporting and compliance and the result of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance and that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance. The paragraph will also state that the report is not suitable for any other purpose.

- c. The concept of materiality recognizes that some matters, either individually or in the aggregate, are important for fair presentation of financial statements in conformity with generally accepted accounting principles while other matters are not important. In performing the audit, we are concerned with matters that, either individually or in the aggregate, could be material to the financial statements. Our responsibility is to plan and perform the audit to obtain reasonable assurance that material misstatements, whether caused by errors or fraud, are detected.
- d. We address the significant risks or material noncompliance, whether due to fraud or error, through our detailed audit procedures.
- e. We will obtain an understanding of the five components of internal control sufficient to assess the risk of material noncompliance related to the federal awards whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures. We will obtain a sufficient understanding by performing risk assessment procedures to evaluate the design of controls relevant to an audit of the federal awards and to determine whether they have been implemented. We will use such knowledge to:
 - > Identify types of potential noncompliance.
 - > Consider factors that affect the risks of material noncompliance.
 - > Design tests of controls, when applicable, and other audit procedures.

Our audit will be performed in accordance with U.S. generally accepted auditing standards, *Government Auditing Standards*, and OMB Circular A-133.

We will not express an opinion on the effectiveness of internal control over financial reporting or compliance with laws, regulations, and provisions of contracts or grant programs. For audits done in accordance with *Government Auditing Standards* and OMB Circular A-133, our report will include a paragraph that states that the purpose of the report is solely to describe (a) the scope of testing of internal control over financial reporting and compliance and the result of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance, (b) the scope of testing internal control over compliance for major programs and major program compliance and the result of that testing and to provide an opinion on compliance but not to provide an opinion on the effectiveness of internal control over compliance and, (c) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance and OMB Circular A-133 in considering internal control over compliance and major program compliance. The paragraph will also state that the report is not suitable for any other purpose.

- f. The concept of materiality recognizes that some matters, either individually or in the aggregate, are important for reporting material noncompliance while other matters are not important. In performing the audit, we are concerned with matters that, either individually or in the aggregate, could be material to the entity's federal awards. Our responsibility is to plan and perform the audit to obtain reasonable assurance that material noncompliance, whether caused by error or fraud, is detected.
- g. In connection with our audit, we intend to place reliance on the audit of the financial statements of the Lake County Forest Preserve District, a discretely presented component unit of Lake County, as of June 30, 2014 and for the year then ended completed by McGladrey, LLP. All necessary conditions have been met to allow us to make reference to the component auditors.

We are very interested in your views regarding certain matters. Those matters are listed here:

- a. We typically will communicate with your top level of management unless you tell us otherwise.
- b. We understand that the governing body has the responsibility to oversee the strategic direction of your organization, as well as the overall accountability of the entity. Management has the responsibility for achieving the objectives of the entity.
- c. We need to know your views about your organization's objectives and strategies, and the related business risks that may result in material misstatements.
- d. Which matters do you consider warrant particular attention during the audit, and are there any areas where you request additional procedures to be undertaken?
- e. Have you had any significant communications with regulators or grantor agencies?
- f. Are there other matters that you believe are relevant to the audit of the financial statements?

Page 4

Also, is there anything that we need to know about the attitudes, awareness, and actions of the governing body concerning:

- a. The entity's internal control and its importance in the entity, including how those charged with governance oversee the effectiveness of internal control?
- b. The detection or the possibility of fraud?

Also, is there anything that we need to know about the attitudes, awareness, and actions of the governing body concerning:

- a. The entity's internal control and its importance in the entity, including how those charged with governance oversee the effectiveness of internal control?
- b. The detection or the possibility of fraud?

We also need to know if you have taken actions in response to developments in financial reporting, laws, accounting standards, governance practices, or other related matters, or in response to previous communications with us.

With regard to the timing of our audit, here are some general observations. We typically perform preliminary audit work during the months of November or December. Our final fieldwork is scheduled during the spring to best coincide with your readiness and report deadlines. After fieldwork, we wrap up our audit procedures at our office and may issue drafts of our report for your review. Final copies of our report and other communications are issued after approval by your staff. This is typically 6-12 weeks after final fieldwork, but may vary depending on a number of factors.

Keep in mind that while this new communication may assist us with planning the scope and timing of the audit, it does not change the auditor's sole responsibility to determine the overall audit strategy and the audit plan, including the nature, timing, and extent of procedures necessary to obtain sufficient appropriate audit evidence.

We welcome the opportunity to hear from you if you have questions or wish to provide other feedback. Please contact your engagement partner, Heather Acker, at 312 729 8188 or email at heather.acker@bakertilly.com. We look forward to hearing from you.

Sincerely,

BAKER TILLY VIRCHOW KRAUSE, LLP
