

serves as the coordinating unit and Lead Agency for the administration of the Lake County Consortium. Lake County Community Development administers the HOME Program.

Lake County Community Development also administers the Emergency Solutions Grant (ESG) Program and serves as the collaborative applicant for Lake County's Continuum of Care. The Cities of North Chicago and Waukegan collaborate with Lake County on county-wide homeless planning and grant administration activities.

2. Summary of the objectives and outcomes identified in the Plan

The *Consolidated Plan* is a county-wide plan identifying housing and community development needs, goals, and strategies for the Consortium of entitlement jurisdictions within Lake County, Illinois (Lake County and the Cities of North Chicago and Waukegan) from May 1, 2015 to April 30, 2019.

Prioritized goals within the *Consolidated Plan* identify available funding activities, given an annual distribution of U.S. Housing and Urban Development (HUD) funds through the Community Development Block Grant (CDBG), HOME Investment Partnership (HOME), and Emergency Solutions Grant (ESG) Programs. Funding these activities supports the three principle objectives of the Department of Housing and Urban Development (HUD) promoting: decent housing, a suitable living environment, and expanded economic opportunities.

Based on the data analysis conducted as part of the *Consolidated Plan* and information collected through community participation and consultation, the County has identified three areas of priority need within Lake County. These priority needs include: 1) Development and preservation of low-cost, affordable housing options; 2) General strengthening of older, low-income neighborhoods throughout the county; and 3) Job creation and retention.

The County has established the following 10 goals to address these priority needs:

1. **To acquire and/or rehab existing buildings in order to provide a decent home and a suitable living environment for low- and moderate-income households and special needs populations. To conserve Lake County's affordable and mixed-income housing stock in order to provide a decent home and a suitable living environment for low- and moderate-income households and special needs populations.**
2. To expand Lake County's affordable and mixed-income housing stock in order to provide a decent home and a suitable living environment for low- and moderate- income households and special needs populations.
3. To end homelessness in Lake County.
4. To provide direct assistance to facilitate and expand homeownership among and/or to provide rental assistance to persons of low- and moderate-income.
5. To revitalize deteriorating or deteriorated neighborhoods.

SP-10 Geographic Priorities - 91.415, 91.215(a)(1)

General Allocation Priorities

Describe the basis for allocating investments geographically within the state

The County developed its geographic priorities based on a two-pronged approach:

1. **Revitalize areas of greatest need.** In addition to the entitlement communities of North Chicago and Waukegan, several areas of Lake County are home to a concentrated number of low/moderate income households whose neighborhoods would benefit from community development, including commercial revitalization, housing and infrastructure rehabilitation plus more adequate amenities. Indicated in HUD data as census tracts where over 55% of households are at or below 50% of area median income (AMI) and located in Beach Park, Fox Lake, Mundelein, Park City, the Round Lake area, Warren Township, Wauconda Township and Zion, these target areas are identified in green in the map below. In further articulating each area's specific needs/barriers, place-based strategies and opportunities, Lake County will work with local governments. A recommended action for Lake County in its Analysis of Impediments to Fair Housing Choice (p. 140) is to "Use CDBG funds to make areas with existing affordable housing more attractive by investing in public facilities, infrastructure, and economic development there."
2. **Assist in expanding the supply of housing near transit and employment centers, especially outside areas where there are already heavy concentrations of affordable housing.** Another recommended action for Lake County in its Analysis of Impediments to Fair Housing Choice (p. 146) is "The County could prioritize the allocation of CDBG and HOME funds to (housing) projects near public transportation and employment centers." To this end, the County is articulating areas "near transit and employment centers, especially outside areas where there are already heavy concentrations of affordable housing" as a geographic priority for affordable and special needs housing. Areas proximate to employment, retail and medical facilities –or easily accessible by public transportation – often lack affordable housing, so those areas are a priority for affordable housing in this *Consolidated Plan*.

Geographic Priority Areas

1. **Revitalize areas of greatest need:** The Housing & Community Development Commission (HCDC) is considering applying scoring bonuses for activities in census tracts where over 55% of households are at or below 50% of area median income (AMI), as noted by the green (darker) areas in this map of HUD-eligible areas.
