The attached salary schedule is for reference purposes, it includes both health department and non-health department positions. The Health department currently follows different compensation policies and procedures than other County departments.

Pursuant to Illinois Statute, 55 ILCS 5/-5-25013, and as a result their unique circumstances, related in part to grant funded positions, the Health department will develop compensation policies to administer and maintain the pay schedule. These policies will be more consistent with the Health Department's current processes and unique circumstances and, at the same time, be similar to the proposed compensation programs and policies for other County employees.
