Lake County Board of Zoning Appeals
George Bell, Chairman
500 W. Winchester Road
Libertyville, IL 60048

Dear Board of Zoning Appeals:

We recently received your Notice #7086 regarding Fremont Township's request for a variance on the permitted impervious surface area ratio. The Fremont Township Office and Highway Department have long been excellent neighbors to St. Mary of the Annunciation and we have shared a good relationship for many decades. St. Mary strongly supports the Township's request for this variance.

The improvements that the Township desires will produce benefits for the entire community and will not negatively impact the adjoining properties, of which we are a large one. We hope you will be able to approve this variance request.

Sincerely,

Rev. Jerome Jacob
Pastor

Howard W. Fischer
Director of Parish Operations
