Route Length		Mi FT		(Structure No)
Termini				
Description: Design of a signalized intersection imp	rove	ement project at Winchester Road and Illin	nois	Route 83 in Lake County, Illinois.
		Agreement Provisions		
The Engineer Agrees ,				
<ol> <li>To perform or be responsible for the proposed improvements herein be</li> </ol>		erformance of the following engineering s described, and checked below:	ervio	ces for the LA, in connection with the
a. 🛛 Make such detailed surveys	sas	are necessary for the preparation of deta	iled	roadway plans
<ul> <li>b.  Make stream and flood plain of detailed bridge plans.</li> </ul>	n hy	draulic surveys and gather high water da	ta, a	nd flood histories for the preparation
analyses thereof as may be	req	n soil surveys or subsurface investigation uired to furnish sufficient data for the des ade in accordance with the current requir	ign (	of the proposed improvement.
		n traffic studies and counts and special in sign of the proposed improvement.	ters	ection studies as may be required to
e. Prepare Army Corps of Eng	<del>jine</del>	ers Permit, <b>Lake County Stormwater Mar</b> Water Resources Permit, Bridge waterwa	age	ment Commission Permit, Department
		water Resources Fermit, bridge waterwa ailroad Crossing work agrooments.	<del>ly sk</del>	<del>ски, аниж опанногонанус экски,</del>
		ign and Hydraulic Report, (including ecor vay overflows and bridge approaches.	omi	c analysis of bridge or culvert types)
with one (1) copy of each do	cum	tailed plans, special provisions, proposals tent in both hardcopy and electronic form furnished to the LA by the ENGINEER a	ıat.	Additional copies of any or all
		drafts in <b>duplicate</b> of all necessary right- nannel change agreements including prin		
i. Assist the LA in the tabulati	on a	and interpretation of the contractors' propo	osals	3

<ul> <li>J. Prepare the necessary environmental documents in accordance with the procedures adopted by the DEPARTMENT's Bureau of Local Roads &amp; Streets.</li> </ul>
k. Prepare the Project Development Report when required by the DEPARTMENT.
1. Services as included and/or defined in the attached Scope of Services.
That all reports, plans, plats and special provisions to be furnished by the ENGINEER pursuant to the AGREEMENT, will be in accordance with current standard specifications and policies of the LA of the DEPARTMENT. It is being understood that all such reports, plats, plans and drafts shall, before being finally accepted, be subject to approval by the LA and the DEPARTMENT.
To attend conferences at any reasonable time when requested to do so by representatives of the LA or the Department.
In the event plans or surveys are found to be in error during construction of the SECTION and revisions of the plans or survey corrections are necessary, the ENGINEER agrees that the ENGINEER will perform such work without expense to the LA, even though final payment has been received by the ENGINEER. The ENGINEER shall give immediate attention to these changes so there will be a minimum delay to the CONTRACTOR.
That basic survey notes and sketches, charts, computations and other data prepared or obtained by the ENGINEER pursuant to this AGREEMENT will be made available, upon request, to the LA or the DEPARTMENT without cost and without restriction or limitations as to their use.
That all plans and other documents furnished by the ENGINEER pursuant to this AGREEMENT will be endorsed by the ENGINEER and will show the ENGINEER's professional seal where such is required by law.
e L ree ,
To pay the ENGINEER as compensation for all services rendered in accordance with this AGREEMENT according to the following method indicated by a check mark:
a. A sum of money equal to percent of the awarded contract cost of the proposed improvement as approved by the DEPARTMENT.
b. A sum of money equal to the percent of the awarded contract cost for the proposed improvement as approved by the DEPARTMENT based on the following schedule:
Schedule for Percentages Based on Awarded Contract Cost
Awarded Cost Percentage Fees Under \$50,000 (see note)
Note: Not necessarily a percentage. Could use per diem, cost-plus or lump sum.
To pay for all services rendered in accordance with this AGREEMENT at the actual cost of performing such work plus percent to cover profit, overhead and readiness to serve - "actual cost" being defined as material cost plus payrolls, insurance, social security and retirement deductions. Traveling and other out-of-pocket expenses will be reimbursed to the ENGINEER at the ENGINEER's actual cost. Subject to the approval of the LA, the ENGINEER may sublet all or part of the services provided in section 1 of the ENGINEER AGREES. If the ENGINEER sublets all or part of this work, the LA

"Cost to Engineer" to be verified by furnishing the LA and the DEPARTMENT copies of invoices from the party doing the work. The classifications of the employees used in the work should be consistent with the employee classifications for the services performed. If the personnel of the firm, including the Principal Engineer, perform routine services that should normally be performed by lesser-salaried personnel, the wage rate billed for such services shall be commensurate with the work performed. \*See the attached Cost Estimate of Consultant Services 152.34\*1.145 = 174.43

The Total Not-to-Exceed Contract Amount shall be \$313,059.76

2.

3.

4.

5.

6.

2.

will pay the cost to the ENGINEER plus an additional service charge of up to five (5) percent.

- 3. That payments due the ENGINEER for services rendered in accordance with this AGREEMENT will be made as soon as practicable after the services have been performed. in accordance with the following schedule:
  - a. Upon completion of detailed plans, special provisions, proposals and estimate of cost being the work required by section 1 of the ENGINEER AGREES to the satisfaction of the LA and their approval by the DEPARTMENT, 90 percent of the total fee due under this AGREEMENT based on the approved estimate of cost.
  - b. Upon award of the centract for the improvement by the LA and its approval by the DEPARTMENT, 100 percent of the total fee due under the AGREFMENT baced on the awarded centract cost, less any amounts paid under "a" above.

By Mutual agreement, partial payments, not to exceed 90 percent of the amount earned, may be made from time to time as the work progresses.

- 4. That, should the improvement be abandoned at any time after the ENGINEER has performed any part of the services provided for in sections 1 and 3 of the ENGINEER AGREES and prior to the completion of such services, the LA shall reimburse the ENGINEER for the ENGINEER's actual costs plus 174.43 percent incurred up to the time the ENGINEER is notified in writing of such abandonment -"actual cost" being defined as in paragraph 2 of the LA AGREES.
- 5. That, should the LA require changes in any of the detailed plans, specifications or estimates except for those required pursuant to paragraph 4 of the ENGINEER AGREES, after they have been approved by the DEPARTMENT, the LA will pay the ENGINEER for such changes on the basis of actual cost plus 174.43 percent to cover profit, overhead and readiness to serve -"actual cost" being defined as in paragraph 2 of the LA AGREES. It is understood that "changes" as used in this paragraph shall in no way relieve the ENGINEER of the ENGINEER's responsibility to prepare a complete and adequate set of plans and specifications.

### It i ta reed,

- 1. That any difference between the ENGINEER and the LA concerning their interpretation of the provisions of this Agreement shall be referred to a committee of disinterested parties consisting of one member appointed by the ENGINEER, one member appointed by the LA and a third member appointed by the two other members for disposition and that the committee's decision shall be final.
- 2. This AGREEMENT may be terminated by the LA upon giving notice in writing to the ENGINEER at the ENGINEER's last known post office address. Upon such termination, the ENGINEER shall cause to be delivered to the LA all surveys, permits, agreements, preliminary bridge design & hydraulic report, drawings, specifications, partial and completed estimates and data, if any from traffic studies and soil survey and subsurface investigations with the understanding that all such material becomes the property of the LA. The ENGINEER shall be paid for any services completed and any services partially completed in accordance with section 4 of the LA AGREES.
- That if the centract for construction has not been awarded one year after the acceptance of the plans by the LA and their
  approval by the DEPARTMENT, the LA will pay the ENGINEER the balance of the engineering fee due to make 100
  percent of the total fees due under this AGREEMENT, based on the estimate of cost as prepared by the ENGINEER and
  approved by the LA and the DEPARTMENT.
- 4. That the ENGINEER warrants that the ENGINEER has not employed or retained any company or person, other than a bona fide employee working solely for the ENGINEER, to solicit or secure this contract, and that the ENGINEER's has not paid or agreed to pay any company or person, other than a bona fide employee working solely for the ENGINEER, any fee, commission, percentage, brokerage fee, gifts or any other consideration, contingent upon or resulting from the award or making of this contract. For Breach or violation of this warranty the LA shall have the right to annul this contract without liability.

IN WITNESS WHEREOF, the parties have caused the AGREEMENT to be executed in triplicate counterparts, each of which

shall be considered as an original by their duly authorized officers.

### SCOPE OF SERVICES CLARIFICATION-INTERSECTION IMPROVEMENTS

ENGINEER: Strand Associates, Inc.®

ROUTE: Winchester Road at Illinois 83

LOCAL AGENCY (LA): Lake County Division of Transportation

LA CONTACT: Phil Ruiz, P.E.

# **Project Understanding**

Provide design services of a signalized intersection improvement project at Winchester Road and Illinois Route 83 in Lake County, Illinois.

It is anticipated that this project will use local funds and will follow Illinois Department of Transportation (DEPARTMENT) Bureau of Local Roads and Streets (BLRS) requirements and DEPARTMENT District One Traffic Signal Design Guidelines.

# **Scope of Services**

The Scope of Services is as follows:

# Administration

- 1. Track project schedule, budget, and task completion by the ENGINEER.
- 2. Develop and submit (to the LA) monthly invoices on LA-required forms.
- 3. Communicate with LA, DEPARTMENT, and subconsultants.

# Topographical Survey and Base Map

- 1. See Claassen, White & Associates, P.C. scope of services.
- 2. Develop base map using Microstation and Geopak.

# Soil Borings and Subsurface Soils Investigation

- 1. See SEECO Consultants Inc. Scope of Services.
- 2. Review Roadway Geotechnical Report prepared by SEECO Consultants, Inc.

# **Utility Communication**

- 1. Review potential utility conflicts within the project limits.
- 2. Draft letters to utility companies explaining potential conflicts to include with prefinal and final plans.
- 3. Communicate design and scheduling changes for the project with utility companies.

# **Land Acquisition**

- 1. See Claassen, White & Associates, P.C. scope of services for Plat of Highways and legal descriptions.
- 2. See Hampton, Lenzini and Renwick scope of services for land acquisition negotiation and appraisal services.
- 3. See Polach Appraisal Group, Inc. scope of services for appraisal review services.
- 4. See Wheatland Title Guaranty for scope of services for titles.

### **Environmental Surveys**

- 1. Prepare and submit Environmental Survey Request and associated exhibits.
- 2. Complete DEPARTMENT Level 1 and 2 special waste screenings according to the DEPARTMENT's BLRS and Bureau of Design and Environment manuals.
- 3. Review Preliminary Environmental Site Assessment prepared by SEECO Consultants Inc.

4. See SEECO Consultants Inc. scope of services.

# **Permitting**

- 1. The following permits will be prepared and submitted.
  - a. NPDES Stormwater Permit
  - b. Notice of Intent (IEPA)
  - c. DEPARTMENT Utility Permit
- 2. LA will perform the wetland mitigation and banking coordination.
- 3. Lake County Stormwater Management Commission (LCSMC) will perform the wetland delineations, preliminary jurisdictional determinations, and communicate with the US Army Corps of Engineers for a final determination on the jurisdiction of the wetlands
- 4. The project is anticipated to be processed through LCSMC as a Countywide Permit #1. Therefore, watershed and wetland permit applications to LCSMC will not be necessary.

# Traffic Analysis and Traffic Signal Design

- 1. Submit request to DEPARTMENT for traffic signal warrants.
- 2. Perform twelve-hour traffic count and traffic signal warrant analysis.
- 3. Submit request to Chicago Metropolitan Agency for Planning for 2040 traffic volume projections.
- 4. Model existing and no-build future conditions with Synchro.
- 5. Model future conditions for up to three alternatives with Synchro.
- 6. Prepare and submit prefinal and final Intersection Design Study.
- 7. Prepare and submit prefinal and final permanent traffic signal design including PASSAGE details provided by the LA.

# Roadway Design

- 1. Design roadway horizontal alignments and vertical profiles.
- 2. Design three alternative horizontal alignments for Winchester Road.
- 3. Prepare letter summarizing alternatives analysis of the three alignments.
- 4. Perform hot-mix asphalt pavement design.
- 5. Develop cross sections every 50 feet and at the centerlines of entrances, side streets, and crossroad culverts for the selected alternative.

# Drainage Design

Design roadside ditches.

- 1. Design one cross culvert and two entrance culverts.
- 2. It is anticipated a rural cross section will be designed and storms sewer will not be designed.

### Plans, Special Provisions, and Estimates

- 1. Plans
  - a. Provide plans in accordance with the DEPARTMENT's BLRS and Bureau of Design and Environment Manuals and the LA Plan Preparation Guidelines.

# b. Provide the following sheets:

Sheet Name	No. of Sheets
Cover Sheet	1
General Notes and Commitments	1
Summary of Quantities	6
Typical Sections	2
Schedule of Quantities	6
Alignment, Ties, and Benchmarks	7
Removal Plan	4
Plan and Profile Sheets	7
Maintenance of Traffic Plans	4
Temporary Erosion and Sediment Control	4
Drainage & Utility Plan and Profile	7
Signing Details	1
Pavement Markings and Signing Plan	4
Landscape and Permanent Erosion and Sediment Control	4
Traffic Signal Plans	3
PASSAGE (Provided by LA)	2
Soil Boring Details	1
DEPARTMENT District One Details	8
Roadway Cross Sections	62 sections

- c. Prepare plans at 1:20 scale. Plans will show proposed roadwork, removal items, pavement markings, and drainage improvements.
- d. Prepare final cross sections every 50 feet and at the centerlines of entrances, side streets, and crossroad culverts.
- e. Prepare and submit special provisions and opinion of probable construction cost at prefinal and final submittals. Prepare and submit opinion of probable construction cost and estimate of time at final submittal.

# Quality Assurance / Quality Control

- 1. Provide quality control throughout the project.
- 2. Review major deliverables, including the plans, opinion of probable construction cost, special provisions and estimate of time at approximately 30 percent and 90 percent completion prior to each submittal.

# Meetings and Agency Communication

- 1. Plan, prepare, and attend two progress meetings with the LA.
- 2. Plan, prepare, and attend one DEPARTMENT meeting.
- 3. Plan, prepare, and attend one meeting including Fremont Township, Village of Mundelein, Village of Grayslake, and Alter Group.
- 4. Attend one pre-construction meeting.
- 5. Prepare up to six request for information responses.

RE: Lake County DOT IL-83 and Winchester Road

Phase 1 / Topography

Limits: 1,200 LF North along IL-83 1,600 LF South along IL-83

200 LF West along W.Winchester Road 1,000 LF East along Winchester Road

Phase 2 / Land Acquisition for 7 parcels

### Scope of Work

- Plat of Highways for 7 parcels (estimated 3 sheets, 7 acquisitions and 7 temporary easements) with legal descriptions per IDOT standards.
- Phase 1 Topography per IDOT Standards.
- Topography limits based on exhibits provided for the project, cross sections will be taken every 50 feet and will extend 20 feet beyond right of ways.
- Will provide Horizontal Control per RTK GPS methods with ties diagrams.
- Will provide Vertical Control per RTK GPS methods and digital leveling, will provide benchmarks and descriptions in word format.
- Will provide control report.
- Will provide Microstation Base CAD file per IDOT standards with topography and TIN (Phase 1 portion).
- Will provide PDF and paper copies for preliminary submittal (Phase 2 / Plat of Highways).
- Will provide Mylars for final submittal (Phase 2 / Plat of Highways).
- Title supplied by Strand Associates Inc.

### **PROPOSAL**

Preliminary Environmental Site Assessment for the IL Rte. 83 and Winchester Ave. Improvements, Lake County, IL

Dear Ms. Gabrisko,

Pursuant to your request, SEECO Consultants, Inc. (SEECO) is pleased to present our proposal for the above referenced project. In preparing our proposal, we have reviewed the information supplied and have drawn upon our experience on similar projects. Extent of project limits will be Illinois Route 83 from 1500' south to 1200' north of the Winchester Road T intersection and Winchester Road from the T Intersection to 500' east.

SEECO proposes to perform a Preliminary Environmental Site Assessment (PESA) of this Right of Way (ROW) in accordance with criteria from Bureau of Design and Environment Manual, Chapter 27, Dec. 2015 Edition and Bureau of Local Roads "A Manual for Conducting Preliminary Site Assessments for Illinois Department of Transportation Infrastructure Projects-2012." A cursory visual assessment will be made of adjoining properties at the time of reconnaissance of the ROW in question.

To perform the Study, SEECO will perform the following tasks:

- Field Reconnaissance to observe if readily visible signs of environmental concerns are present, including photographic documentation;
- Review of selected governmental agency records to determine if there is recorded evidence of environmental concerns with the subject property or with surrounding facilities. Some of these records may be obtained through a commercially available environmental database. The records to be reviewed include, but are not limited to:

CERCLIS List & State Equivalent
RCRA List & State Equivalent
National Priorities List & State Equivalent
ERNs List
UST Permitted Locations
LUST Incident Reports
State Solid Waste Landfill Inventory
USGS Topographic Map
Aerial Photographs
U.S. Department of Interior Wetlands Inventory Maps
Illinois Hydrological Investigations Atlas

# **PROPOSAL**

Preliminary Environmental Site Assessment for the IL Rte. 83 and Winchester Ave. Improvements, Lake County, IL Felbruary 24, 2017 Page 2

 Interview/discussion with the readily available local authorities (i.e. Fire Department, HAZMAT Personnel, etc.) for knowledge of past property uses and/or environmental incidents;

Upon completion of all activities and record searches, a Report of Findings will be prepared. This report will include site location and features maps, government agency records review, field reconnaissance, and other activities performed including conclusions and recommendations. The level(s) of PESA Risk Findings will be identified. Included will be determinations of Potential Impacted Properties (PIPs) locations, if any, and if a preliminary site investigation (PSI) is required.

One (1) paper copy of the report and one (1) electronic copy will be provided. The PESA will be strictly confidential between SEECO and Strand Assoc. Invoicing terms are net 30 days from date of invoice.

The Lump Sum cost for these services as stated herewith will be as follows:

Preliminary Environmental Site Assessment

\$6,720.00

If this proposal is acceptable, please indicate by preparing a subconsultant agreement. We appreciate the opportunity to offer our services and are looking forward to working with you on this project.

Respectfully submitted,

SEECO Consultants Inc.

### **PROPOSAL**

Subsurface Exploration, Laboratory Testing and Geotechnical Engineering and Analysis for the Proposed Route 83 and Winchester Road Improvement, Lake County, IL

Dear Ms. Gabrisko,

Pursuant to your request, SEECO Consultants, Inc. is pleased to present our proposal for the above referenced project. In preparing our proposal, we have reviewed pertinent information and have discussed the project with you.

The scope of work SEECO is proposing is as follows:

- Perform a total of nine (9) borings to 10' for the proposed widening. Additionally, 8 pavement
  cores will be obtained to determine the existing pavement cross-section. The boreholes will be
  located at locations consistent with the improvements in widening areas and will be field staked
  by SEECO.
- Representative soil samples will be collected and field screened for the presence of volatile organic vapors using a photo ionization detector (PID). Visual and olfactory senses will also be used to screen the soil samples for the presence of petroleum hydrocarbons. If no samples display an elevated PID reading, and pH test results meet the MAC Table, then the soil will be assumed to be, to the best of our knowledge, clean, uncontaminated fill material. This information will be documented on the IEPA LPC-662 form. One form will be prepared. If soil is found to be apparently contaminated material, further testing and reporting will be necessary with a Preliminary Site Investigation. A Preliminary Site Investigation will require a supplement to our service fee. Screening or prescreening of samples is no guarantee that a landfill facility will accept/not reject materials. Nor is it a determination that the site is entirely clean of contaminants per IEPA standards. Preparation of LPC 662 or 663 Forms is no guarantee that material will be accepted by landfills or CCDD facilities.
- The resulting soil samples will be returned to SEECO's laboratory for further testing and analysis.
   Visual Classification, Moisture Content and Unconfined Compressive Strength utilizing a Rimac will be performed on all applicable samples. Representative samples will be tested for plasticity, grain size distribution and pH.
- Upon completion of the field exploration and laboratory testing a written geotechnical report will be prepared under the direction of a Registered Professional/Structural Engineer of Illinois. The report will address encountered subsurface soil conditions, laboratory data, pavement

February 24, 2017 Page 2

### **PROPOSAL**

Subsurface Exploration, Laboratory Testing and Geotechnical Engineering and Analysis for the Proposed Route 83 and Winchester Road Improvement, Lake County, IL

recommendations and general construction considerations. Soil boring profiles will be added to profile drawings supplied to us by you. This report will be prepared as an IDOT RGR.

 It is anticipated that right of entry and access locations to the site will be provided to us. Boring locations may be offset as required. No utility R.O.W. conflicts are anticipated. SEECO will not be responsible for restoration costs, if any. This contract is not assignable. No permits or bonds are required..

The cost for these services will be \$17,980.00 per the attached Unit Price Fee Schedule.

We will proceed with the work as outlined after we receive a signed subconsultant agreement from Strand Associates, Inc.

If there are any questions with regard to this proposal, I would be glad to discuss them with you. We are very interested in providing you with our services on this project and assure you of our utmost cooperation.

Respectfully submitted,

SEECO Consultants, Inc.

Re: Proposal for Negotiation Services

Lake County Division of Transportation

Route: Illinois Route 83 Section: at Winchester Road

Dear Mr. Grigas:

We have reviewed the information provided. Our proposal for negotiation services is as follows:

Scope of Service: Provide negotiation services for the acquisition of seven (7) parcels consisting of fee simple acquisitions and/or temporary construction easements. Negotiations will be performed in compliance with IDOT Land Acquisition Policies and Procedures. Negotiation services will also include obtaining rightof-way certification by IDOT. Negotiation and certification services will be performed by Colette Tuman, IDOT-approved fee negotiator. Negotiations will begin upon receiving authorization to proceed, the project receiving Design Approval from IDOT, and upon the review appraisal receiving approval by IDOT Bureau of Land Acquisition.

Fee for Negotiation and Right-of-Way Certification Services:

**Property** 

Proposed Fee

Seven (7) Parcels: Illinois Route 83 at Winchester Road

\$31,500.00 (\$4,500 Per Parcel)

If additional parcels requiring negotiation and certification services are added to the project, the proposed fee will be \$4,500 per additional parcel.

Yours truly,

HAMPTON, LENZINI AND RENWICK, INC.

Mr. Marc Grigas, P.E. Strand Associates, Inc. 1170 S. Houbolt Road Joliet, IL 60431

> Re: Proposal for Appraisal Service IL Route 83 & Winchester Road

> > Seven parcels

Dear Mr. Grigas

We have reviewed the information provided. Our proposal for appraisal service is as follows:

Scope of Service: Provide an appraisal report with a value estimate of compensation to the property owner for the property to be acquired. The report will be prepared in compliance with the Uniform Standards of Professional Appraisal Practice (USPSP). The report will be prepared by David M. Rogers, R/W-AC and Neil K. Steffens, MAI, SRA. Both are Illinois Certified General Appraisers. The valuation of the property acquisitions will be prepared on the appropriate IDOT form, LA33A. Reports will be completed within approximately four weeks after authorization to proceed.

Fee for Appraisal Service:

<u>Property</u>		Proposed Fee
Parcel 1		\$2,000
Parcel 2		\$2,000
Parcel 3		\$2,000
Parcel 4		\$2,000
Parcel 5		\$2,000
Parcel 6		\$2,000
Parcel 7		<u>\$2,000</u>
	Total	\$14,000

If these services are acceptable, please forward me a subconsultant agreement.

Yours truly,

Hampton Lenzini and Renwick, Inc.

ReJena Lyon, PE, PLS **Executive Vice President**

### PROPOSAL FOR PROFESSIONAL SERVICES

AT THE REQUEST OF:

Marc A. Grigas, P.E. Strand Associates, Inc. 1170 S. Houbolt Rd. Joliet, IL 60431

### WITH REFERENCE TO THE FOLLOWING DESCRIBED PROPERTY:

Intersection of IL Route. 83 and Winchester Road Lake County, IL Seven Fee Acquisition Parcels and Seven Temporary Easements

**POLACH APPRAISAL GROUP, INC.**, HEREBY PROPOSES TO PERFORM THE FOLLOWING PROFESSIONAL SERVICES:

### Appraisal Review

Inspection of the seven subject properties and surrounding area; research with respect to the subject properties; review and inspection of market data research; analysis of the subject properties and the market data; review of the submitted appraisal reports in connection with the proposed partial acquisitions and temporary easements on each subject property. Preparation of a review appraisal report for each of the seven subject properties in accordance with Lake County Department of Transportation, LCDQT, and IDOT Land Acquisition Policies and Procedures.

The time of completion will be (21) twenty-one days from the date the appraisal report to be reviewed is received.

The fees for these services will be \$850 per parcel or a total of \$5,950.

This proposal is subject to receipt and approval of an acceptable sub-consultant agreement.
