Discussion of the Strategic Plan.

Chairman Lawlor discussed the importance of the County's strategic plan and keeping it current.

Strategic Plan Consultant Michelle Kennedy facilitated the discussion.

The Board discussed the data and input gathered, including the significance and implications of any new conditions, trends, opportunities, challenges, and problems that have emerged for the County since the plan was last updated in 2015. The discussion focused around these questions: a. What trends/issues/concerns caught the Board's attention? b. Which of these trends/issues/concerns are the most important in shaping the County's thinking about its strategic direction for Lake County.

The Board participated in a group exercise and shared input to create a long-term aspirational vision for Lake County that describes a long-term future for Lake County. In small groups, board members shared their own personal "legacy" of achievement and shared their thoughts on the path forward for achieving this vision.
