Bid / RFP Information

Intent:

Symantec Managed Security Services will assist in overcoming the numerous cyberthreats the County is experiencing.

Scope of Work:

Managed Security Services would include Symantec monitoring the County's IT systems 24x7, using analytics to identify suspicious activity, using security analysts to investigate any potential breaches, and helping the County respond to such breaches.

Department Recommendation: Utilize the US Communities contract to procure the Symantec Managed Security Services from Insight as awarded below:
