Scope of Work:

Lake County issued a Statement of Interest for Professional Architectural and Engineering Services to identify qualified, professional architectural and engineering firms to provide services for a variety of projects to be undertaken by Lake County Public Works. Firms were asked to submit their qualifications based on 15 project areas.

Staff ranked the submitted qualifications and shortlisted three firms to submit detailed proposals to provide general engineering consulting services. Donohue & Associates, Inc. was selected as the most qualified and a price for the services was negotiated.

The term of the contract will be two years with three one-year renewal options to allow for future projects with services based on approved contracted rates. The future anticipated annual spend is estimated at \$275,000.

Evaluation of Proposals:

Lake County will review submissions and conduct negotiations in accordance with the Local Government Professional Services Selection Act (50 ILCS 510/). The following qualifications will be considered by the County:

- A. Proven experience in design and successful implementation of similar projects.
- B. The strength of value engineering approach, and the proposed engineering approach.
- C. The evaluation of examples of outcome-based accomplishments that have measurable success factors to demonstrate a firm's qualifications and expertise including the testimonials of owners or owner's agents.
- D. The depth of talent and staffing experienced in the execution of similar projects.
- E. The ability of the proposer to work with other consultants to maximize a design solution while maintaining budgetary discipline.
- F. Design quality control and the ability to understand and translate the client's design goals.
- G. Quality and time availability of key project team members.
- H. A proven consistent engineer team leader that listens to the client and appropriately manages and directs the team's efforts.
- I. Experience and capability presenting to policymakers, stakeholders and the public.

Department Recommendation:

Based on the criteria set forth in the Statement of Interest, staff identified Donohue & Associates, Inc. as the most qualified to provide Facility Planning and Risk Assessment for the Des Plaines River Water Reclamation Facility.
