

LAKE COUNTY
Investing in People
and Our Communities

Sustainability Team Update & Committee Work Plan

Energy & Environment Committee
January 8, 2020

Agenda

- Solar
- Clean Air
- Education and Networking
- Property Assessed Clean Energy (PACE)

Solar

- On-site solar:
 - Contract approved at November Board
 - Design has begun on select facilities
 - Developing process for feasibility assessment of facilities from additional Lake County departments or municipalities

Clean Air

- Clean Air
 - Continuing coordination of multi-departmental staff research
 - Plan to return to E&E in February or March with:
 - Information on waste hauling rates
 - Enforcement considerations
 - Draft ordinance standards

Education and Networking

- Environmental Summit
 - To be held April 17 (Friday)
 - Working group meeting bi-weekly beginning in early January
 - Collecting lists of stakeholders and potential speakers/facilitators and welcome suggestions
- Solarize Lake County Campaign
 - Evaluating program implementation and potential benefits to Lake County residents and businesses

Property Assessed Clean Energy (PACE)

- Executive Steering Committee completed review of Request for Proposal (RFP)
- Tentative RFP release date in mid-January
